

Step 5 – How to add and change Add-ons or Extensions with Google Chrome.

- If you download a program from ninite.com, it is safe and it does not add Extensions. If you download a program from another website, sometimes it adds an Extension and it may not be safe. Also, when you click on a link in your e-mail or a website, sometimes it adds Extensions. That's why you should check the Extensions and check them again after you download a program.**
- Next I will show you how to get to Extensions and disable them or remove them. Make sure Google Chrome is open.**

- You click on the Icon in the upper right that I showed you in other Steps and then click on More tools and you see a list and click on Extensions. Next is what happens.

When you click on Extensions, a new page opens and you see a list of Extensions if you have them. I have a Google account, that's why some of them are there. Click on the Icon left of Extensions in the upper left to disable one. Next is what happens.

Extensions

Extensions

Keyboard shortcuts

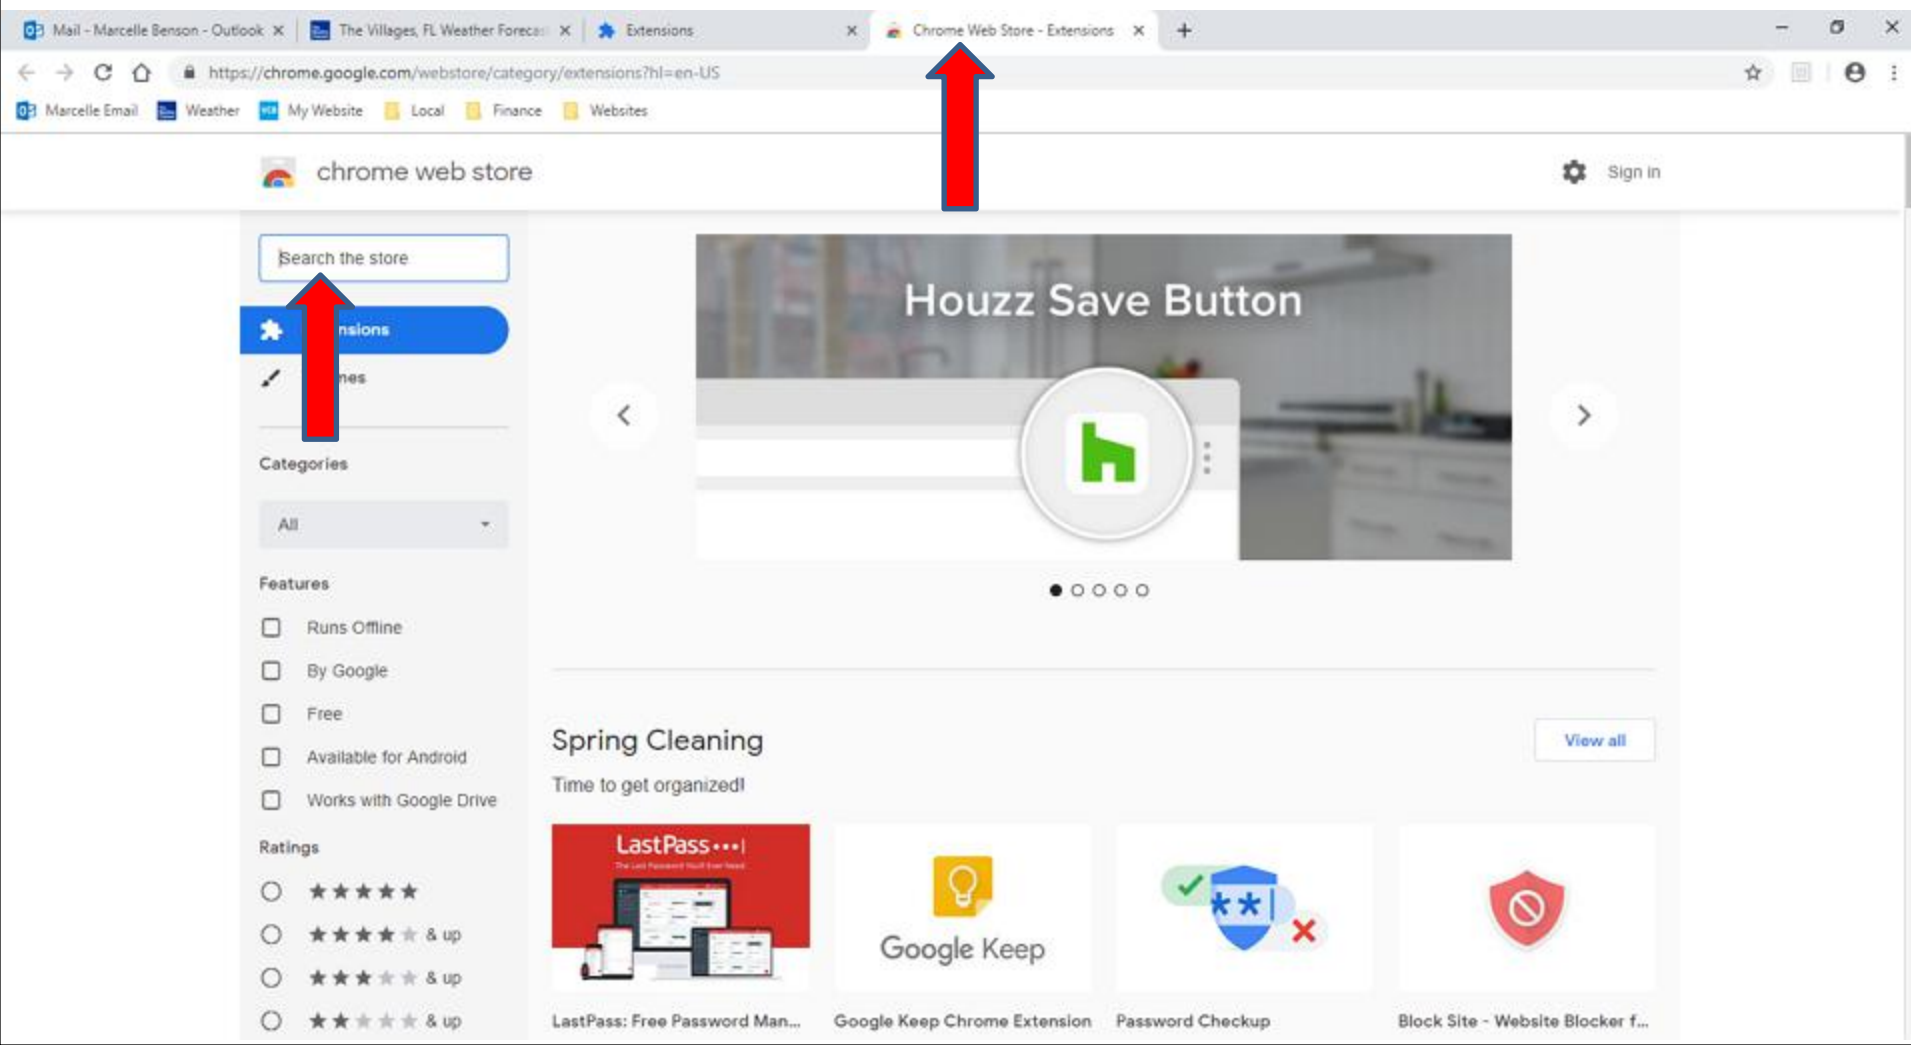

- **When you click on the Icon in the upper Left a new Window opens and you see Open Chrome Web Store at the bottom. Next is what happens when you click on it.**

Open Chrome Web Store

- A new Tap Page opens and you see Search in the upper left. You can type in what you want, like Read aloud. Next I will zoom in with a sample.

- Here is a sample of starting typing Read aloud and you see a list. Next is what happens when you click on the one at the top.

read alphawolfthemes

read alabamacruise

read alphakon10

- Page changes and you see Read Aloud at the top and right of it is ADD TO CHROME. Next is what happens when you click on ADD TO CHROME.

The screenshot shows the Chrome Web Store interface with search results for 'read aloud'. The left sidebar contains navigation options like 'Home', 'Extensions', and 'Themes', along with feature filters and rating options. The main content area is divided into 'Extensions' and 'Themes' sections. In the 'Extensions' section, three items are listed: 'Read Aloud: A Text to Speech Voice Reader', 'IntoWords', and 'Read&Write for Google Chrome™'. Each item has a red arrow pointing to its 'ADD TO CHROME' button. The 'Read Aloud' extension is highlighted with a larger red arrow pointing to its button. The 'Themes' section below shows 'Morpheon Dark' and 'Black and White Theme for Google Chrome', each with a blue checkmark and an 'ADD TO CHROME' button.

- When you click on **ADD TO CHROME**, it shows **CHECKING** and a new window opens and I recommend you click on **Add extension** at the bottom of the new window and next is what happens.

- **Window closes and a new window opens in the upper right saying that it has been added to Chrome and see an Icon added. You can click on X in the upper right of the window to close the window. Next I will show you a sample, like I did in Firefox.**

- Here is a sample of going to my website Browsers page and click on a PDF link. Next is what happens when you click on the Icon  in the upper right.

Browsers Introduction

- Windows 10 has a new Browser called Microsoft Edge. The Icon is on the Taskbar. But, Windows 10 also comes with Internet Explorer Browser, but you have to search to find it. Step 1 shows you how to find Internet Explorer and how to Pin to Taskbar and how to download new Browsers with Internet Explorer and Microsoft Edge. I recommend you download two new Browsers.
- The reason to download two new Browsers is Microsoft Edge is not fully updated and does not have all the features as the other Browsers. Next is also about Internet Explorer.

- A new window opens and it starts the Voice on each Text and it is not highlighted, like Microsoft Edge. Once it the Voice is on the last Test, it goes to the next page, which is next.

Browsers Introduction

- Windows 10 has a new Browser called Microsoft Edge. The Icon is on the Taskbar. But, Windows 10 also comes with Internet Explorer Browser, but you have to search to find it. Step 1 shows you how to find Internet Explorer and how to Pin to Taskbar and how to download new Browsers with Internet Explorer and Microsoft Edge. I recommend you download two new Browsers.
- The reason to download two new Browsers is Microsoft Edge is not fully updated and does not have all the features as the other Browsers. Next is also about Internet Explorer.

- Here is the next page and the window is still open. The Voice is on all the Text. Once the Voice is at the last Text, it goes to the next Page, which is next.

The image shows a screenshot of a web browser window. The address bar displays the URL: <https://mycomputerbasics.weebly.com/uploads/7/0/6/6/7066926/browsersintroduction.pdf>. The browser's address bar shows several tabs: "Browsers", "Browsers - browsersintro", "The Villages, FL Weather", "Extensions", and "Chrome Web Store - rea". The browser's toolbar includes a search bar, a "2 of 3" indicator, and an "Automatic Zoom" control. The main content area displays a PDF document with two bullet points:

- The other reason to download two new Browsers is Internet Explorer has not be updated. It is just the 11 version. The other Browsers update about once a month and they are safer.
- The last reason to download two Browsers vs. one, is if something happens with one, sometimes the second Browser works. Also, I do two Browsers to setup different Home pages on each Browser for me and my wife. Step 3 shows you how to setup Home pages. As I mentioned in my Browsers page on my website, I recommend you do the Tip, before you do Step 3. The Tip is How to not save or save user names and passwords on Browsers. Next is about other Steps.

Overlaid on the right side of the PDF is a text-to-speech control panel. It features a play button, a pause button, a stop button, and a next button. Below these buttons is a "report issues" link. A red arrow points upwards from the bottom of the control panel towards the "report issues" link.

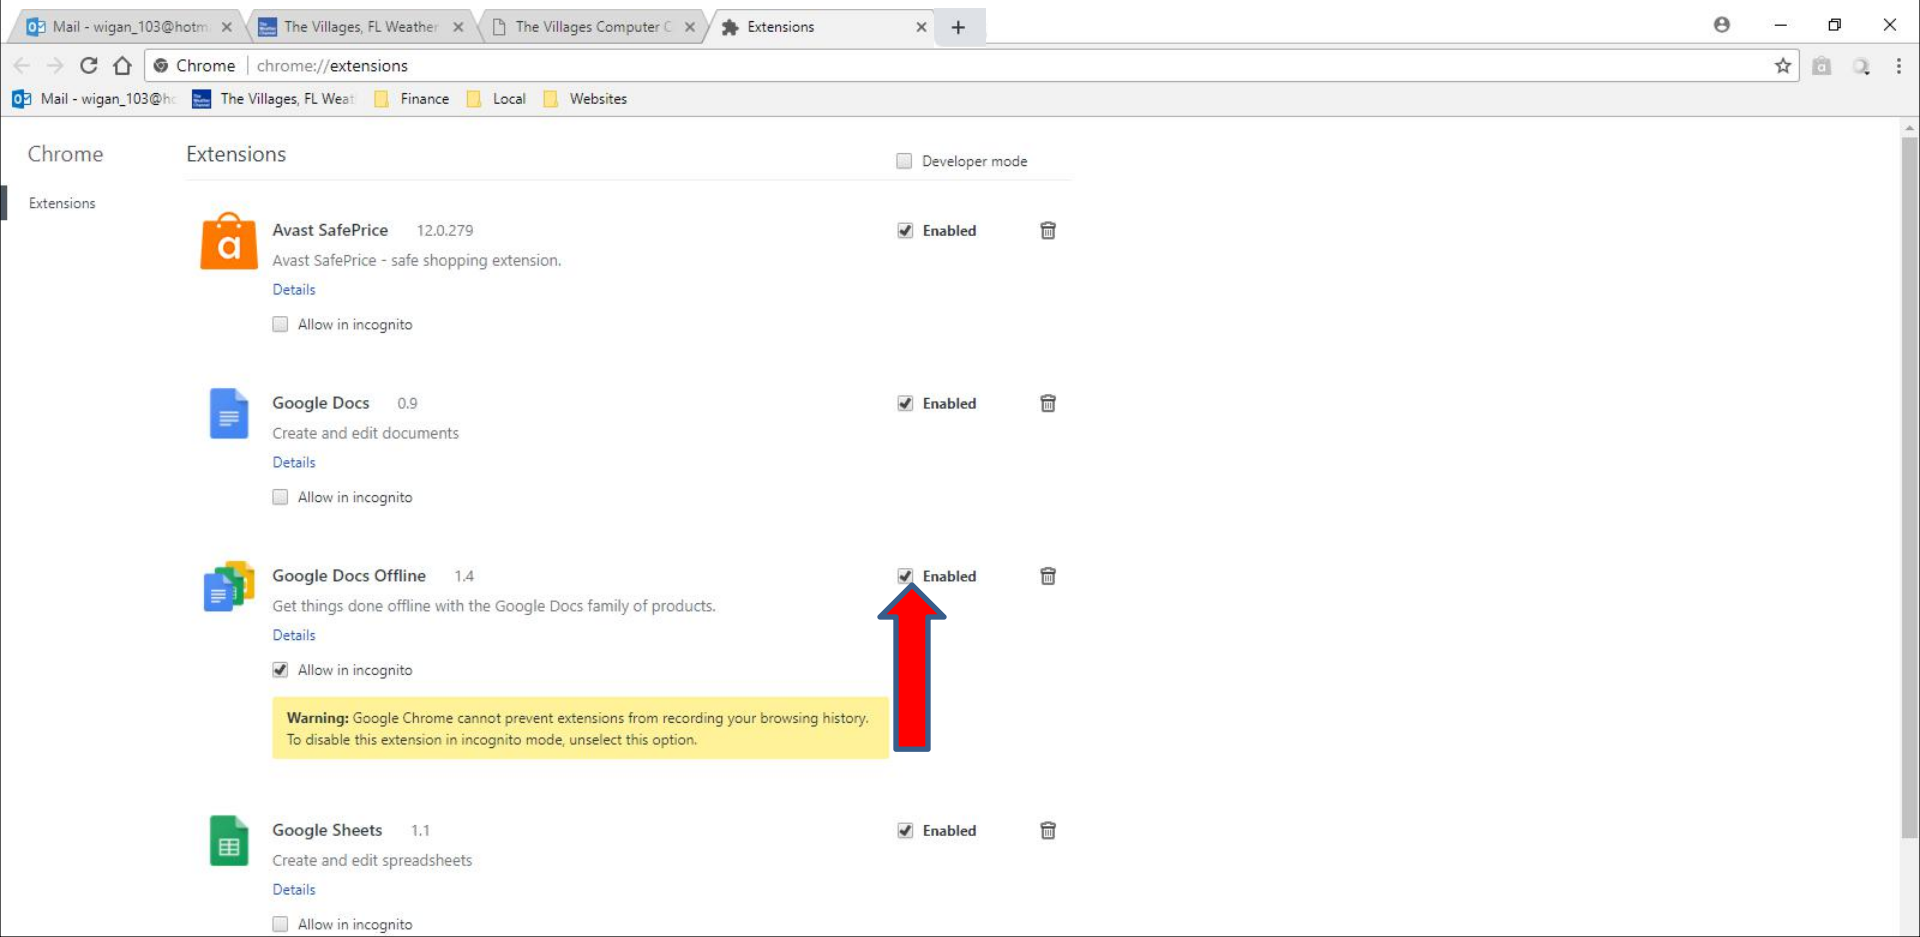

- Here is the last page. Once the Voice is complete the window changes. You can click outside it to close the window.

The image shows a Chrome browser window with several tabs open: "Browsers", "Browsers - browsersintro", "The Villages, FL Weather", "Extensions", and "Chrome Web Store - rea...". The address bar shows the URL "https://mycomputerbasics.weebly.com/uploads/7/0/6/6/7066926/browsersintroduction.pdf". The page content is a PDF document with a white background and black text. A video player overlay is visible in the bottom right corner, featuring a play button, a settings gear, and a "report issues" link. A red arrow points to the "report issues" link.

- If you save user names and passwords on Browsers, Step 8 shows How to Manage Passwords on Browsers. The reason to do Step 8 is how to delete some user names and passwords on Browsers.
- Step 4. The Tip is How to not save or save user names and passwords on Browsers. Next is about other Steps.

- To disable one, click on the box left of Enabled and now what happens.

- When you click on the box left of Enabled, you don't see the box checked, you can click on it again to Enable, which I did. To remove it, you click on the Icon to the right of it. I did not want to do that.
- Next is how to add on some Extensions.

Google Docs Offline 1.4

Get things done offline with the Google Docs family of products.

[Details](#)

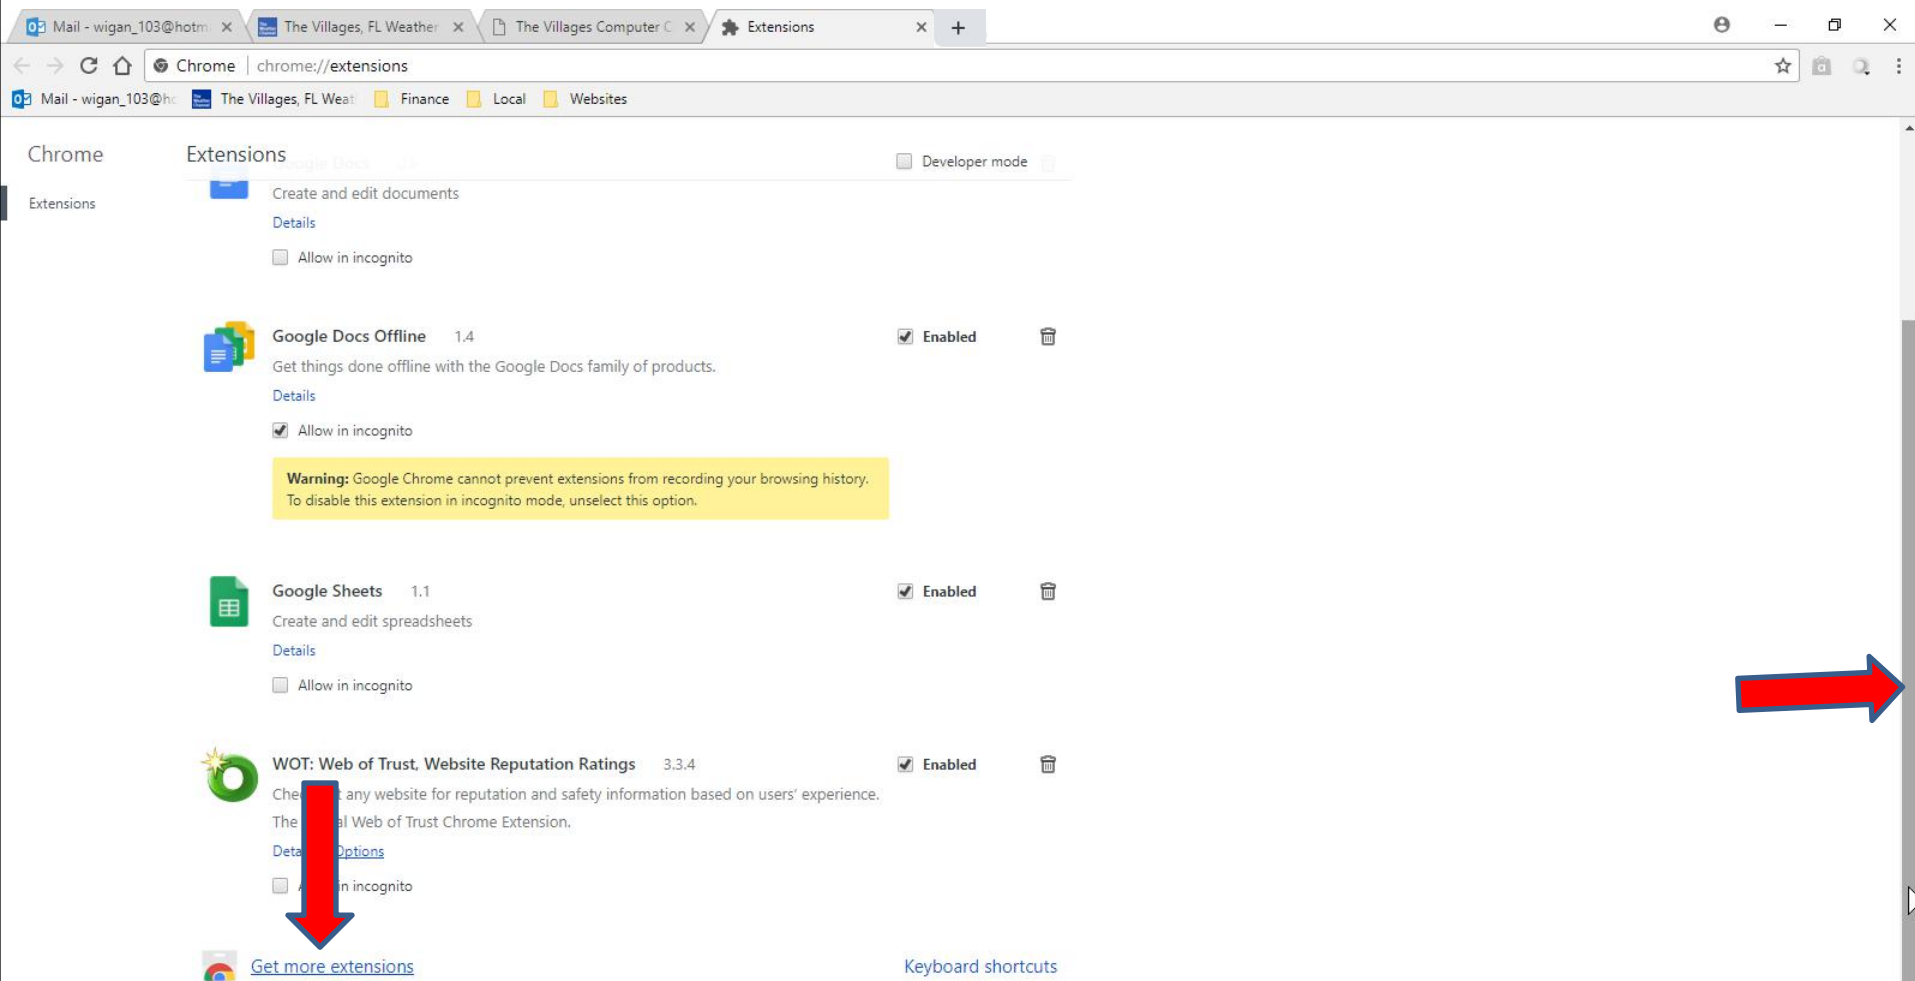

Enable

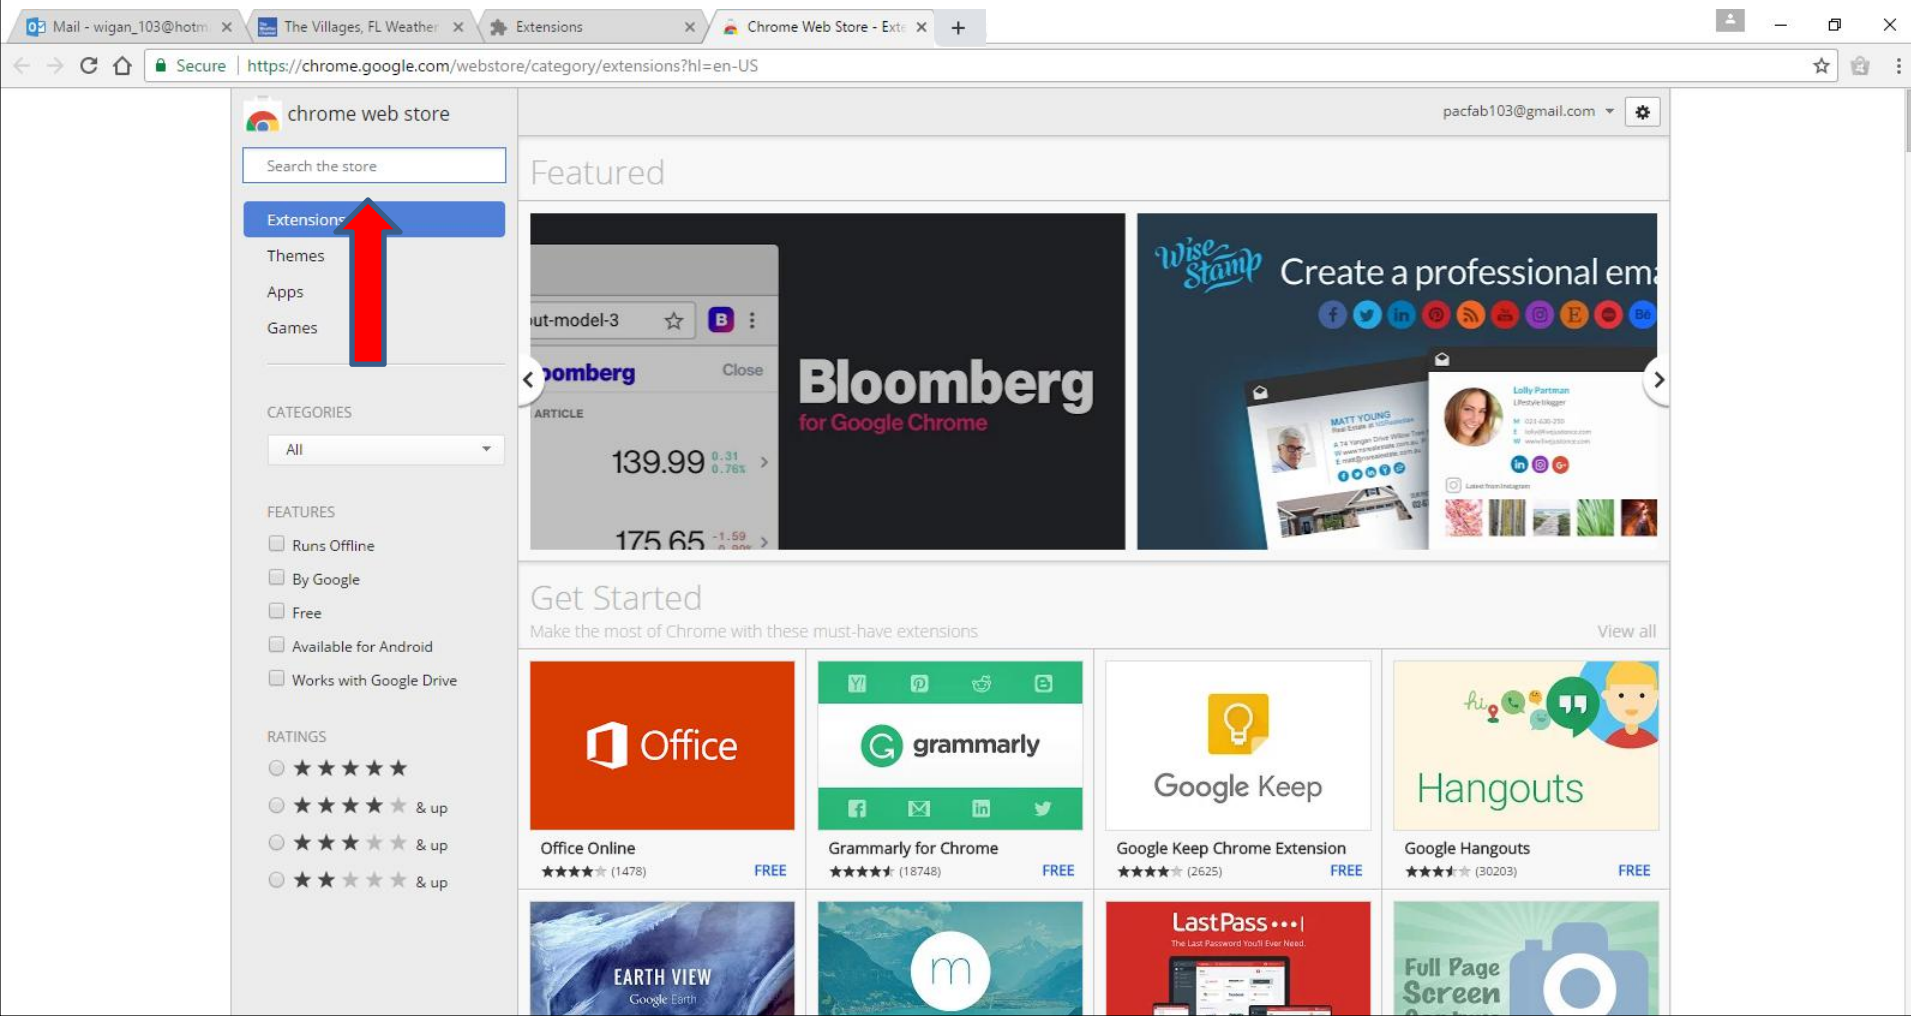

- **I recommend you add uBlock Origin and Ghostery.**
- **uBlock Origin is primarily an ad blocker, but will also add privacy protection. Ghostery is primarily a privacy blocker, perhaps the best available, but will also block some ads.**
- **Next is how to add uBlock Origin and after that is how to add Ghostery.**

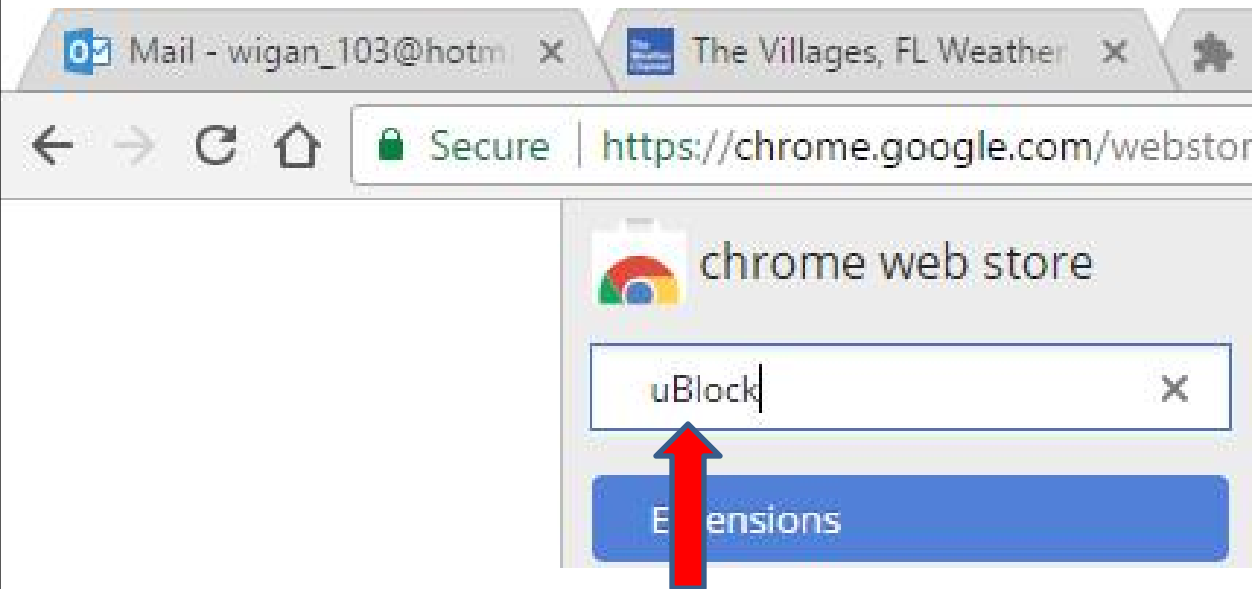

- You may have to Scroll Down and at the bottom, you click on Get more extensions.
- Next is what happens.

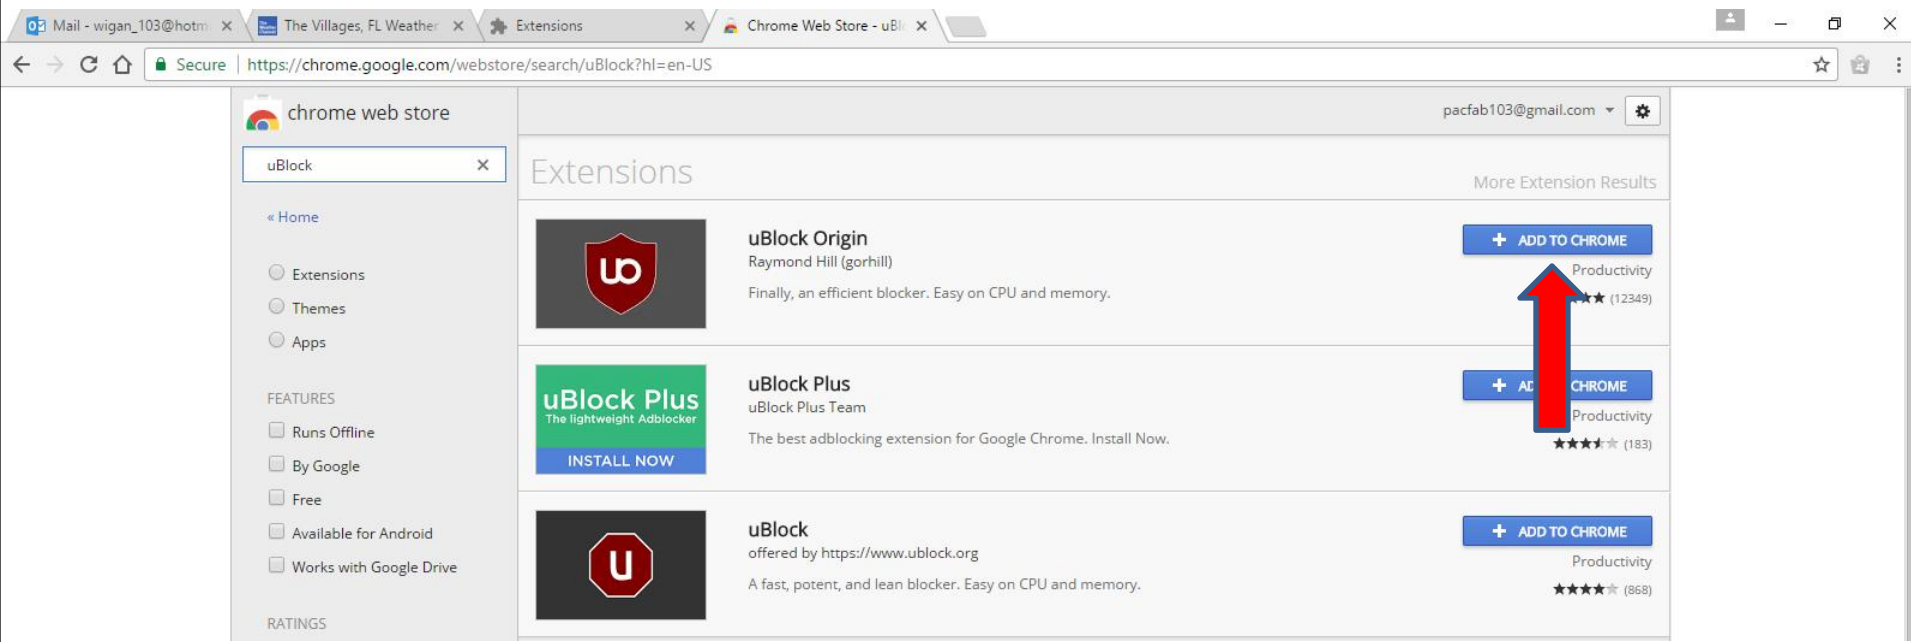

• A new Page opens and you see options. You can search for what you want, which is next.

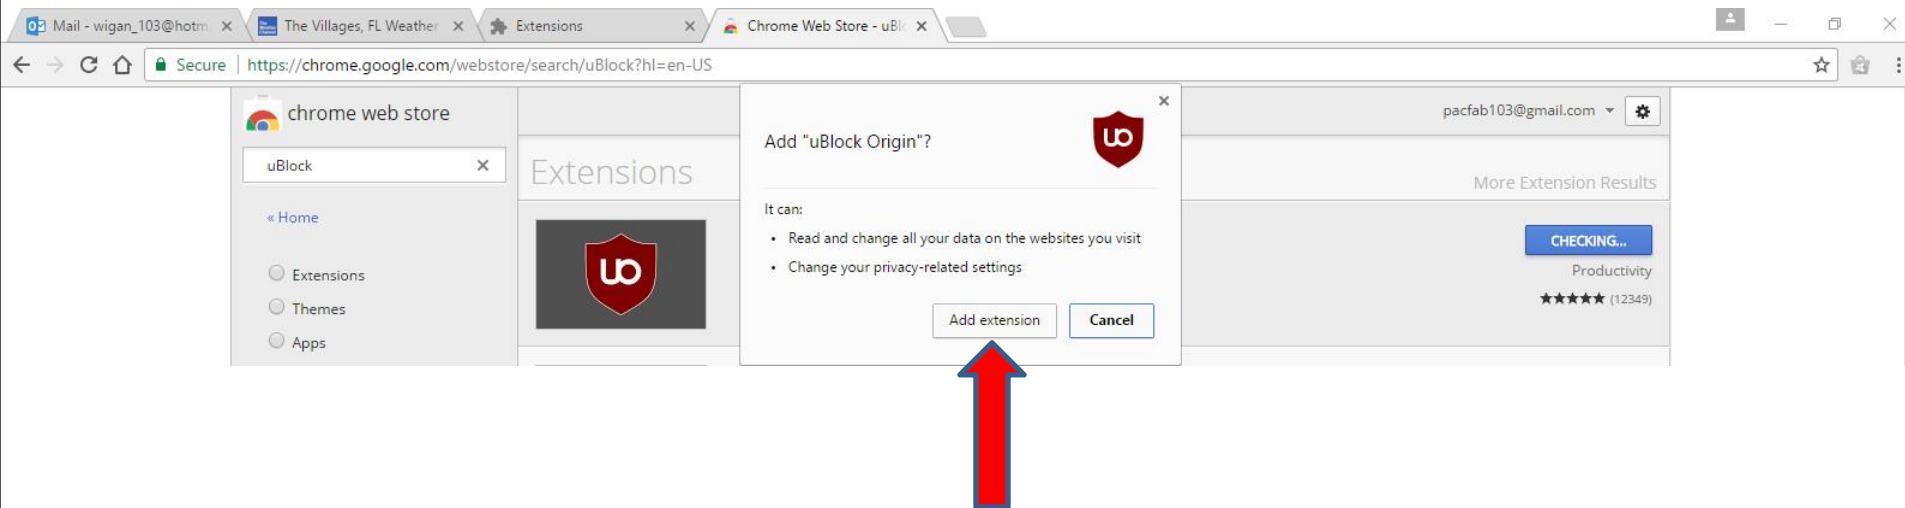

- I typed in uBlock. Sometimes it shows a list. If not, just click on the enter key.
- Next is what happens.

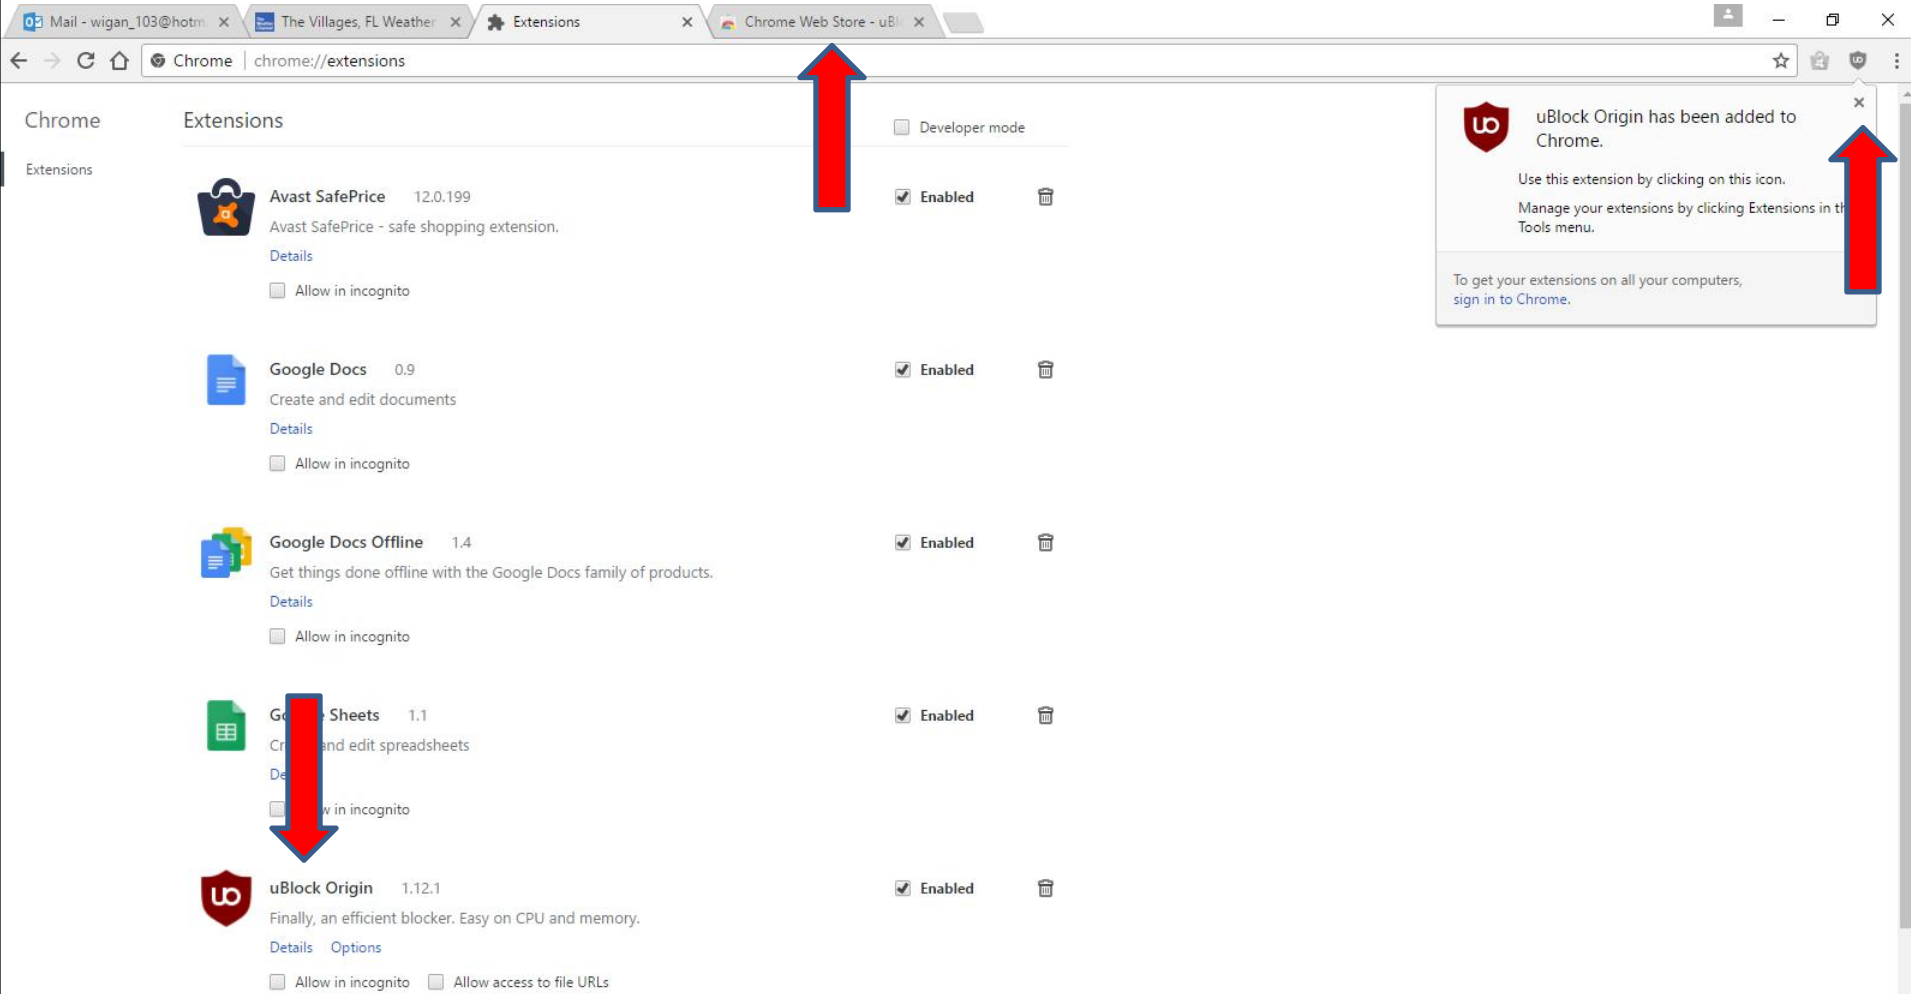

- Once click on the enter key, you see a list. Then click on **ADD TO CHROME** next to **Ublock Origin**.
- Next is what happens.

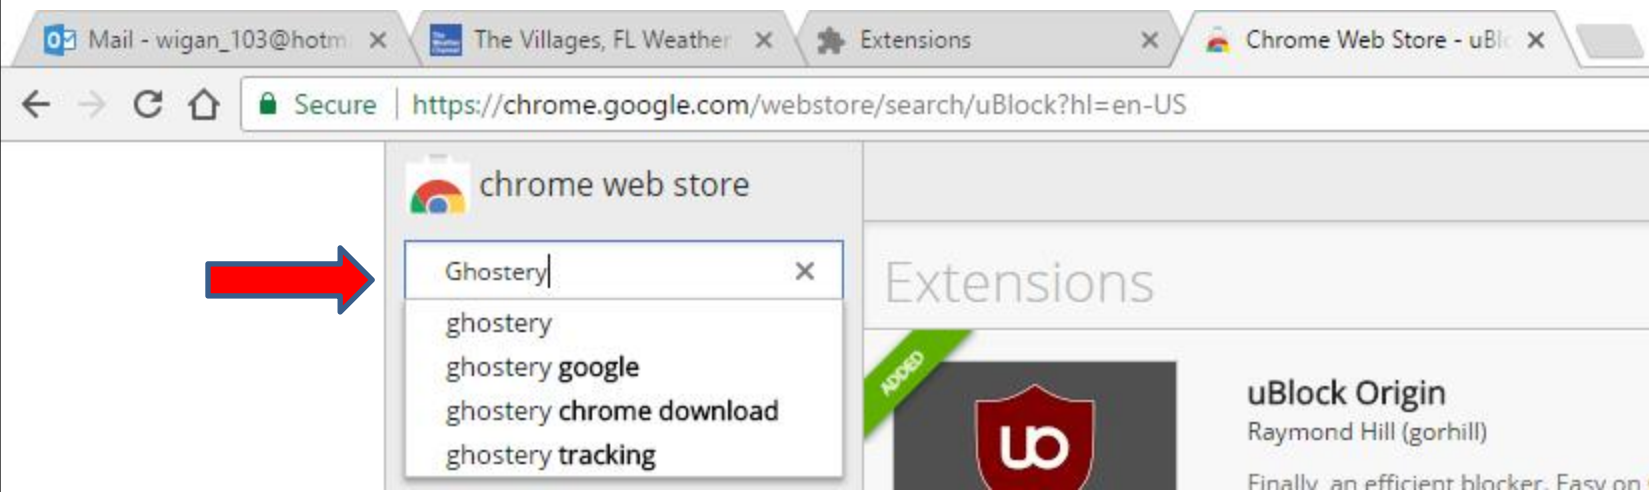

- A new window opens and click on Add extension.
- Next is what happens.

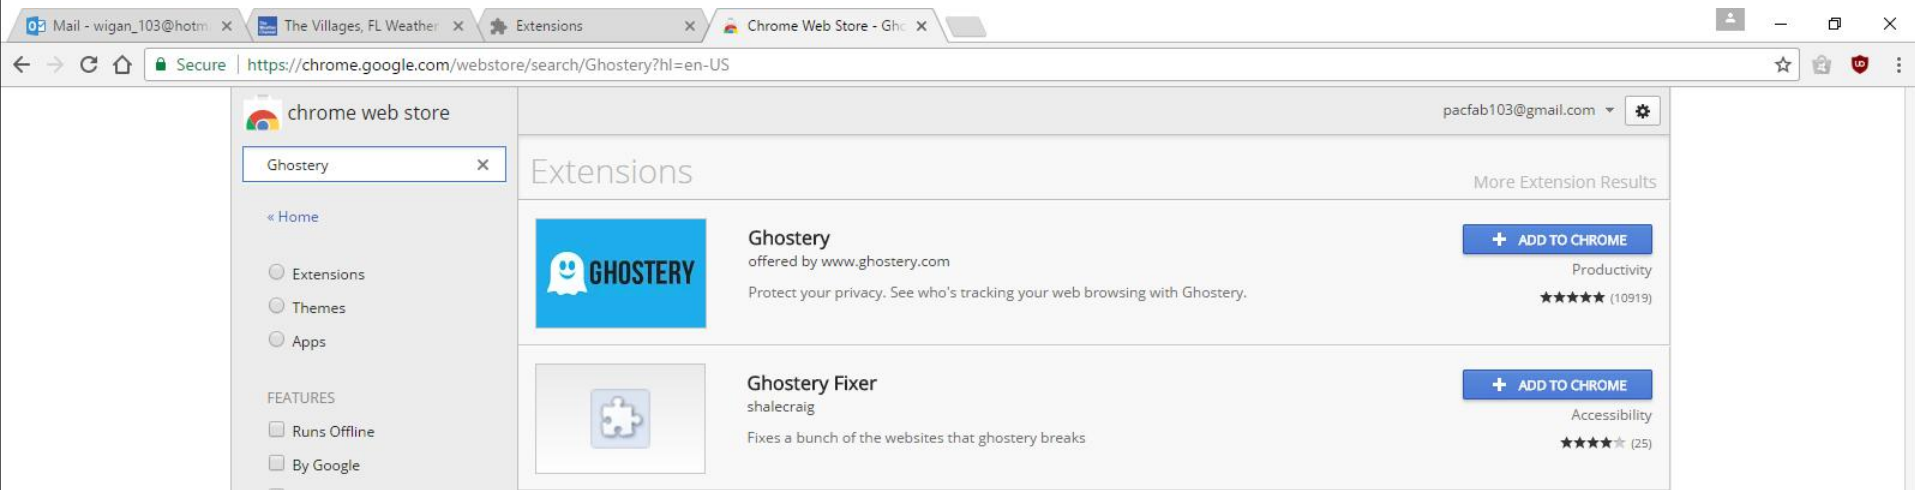

• Sometimes it goes to the Extensions page. If not, click on it and you see it and a new window in the upper right and you see the Icon in the right. You can click on X to close it. Go back to the other page

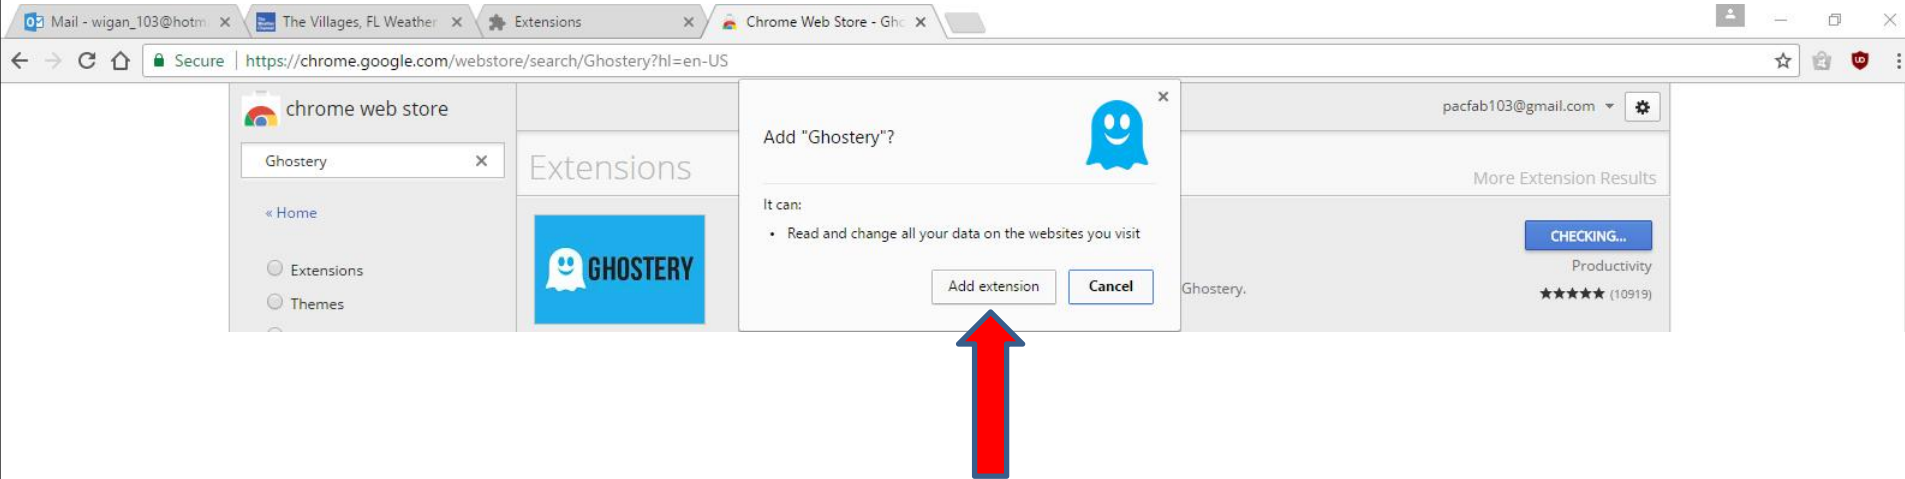

- When you go back to the other page, you follow the same process and type in, like Ghostery and you see a list and then click on the enter key.
- Next is what happens.

- You then see it and click on **ADD TO CHROME** again.
- Next is what happens.

- A new window opens and follow the same process and click on Add extension.
- Next is what happens.

- A new page opens and a new window opens and asks to share. I recommend just click on No thanks
- Next is what happens.

The screenshot shows a Chrome browser window with several tabs open: "Mail - wigan_103@hotmail.com", "The Villages, FL Weather", "Extensions", "Chrome Web Store - Ghostery", and "Manage your Ghostery settings". The address bar shows the URL "https://extension.ghostery.com/en/settings". The page content includes the Ghostery logo, navigation links for "Create Account" and "Sign In", and a sidebar with "MY GHOSTERY" and "Blocking Options". The main content area is a modal dialog box titled "Welcome to Ghostery!".

WELCOME TO GHOSTERY!

Ghostery is free because some of our users anonymously and voluntarily opt-in to share data with us about the sites and trackers the extension encounters.

If you choose to share tracker data with us, this is how it would work:

1. As you visit a site, Ghostery identifies and collects data regarding the site and its trackers.
2. Ghostery uses this data to improve our products to create a cleaner, faster, and safer web.

[Learn more](#) about what data we collect when you opt-in.

Do you want to send Ghostery data about trackers?

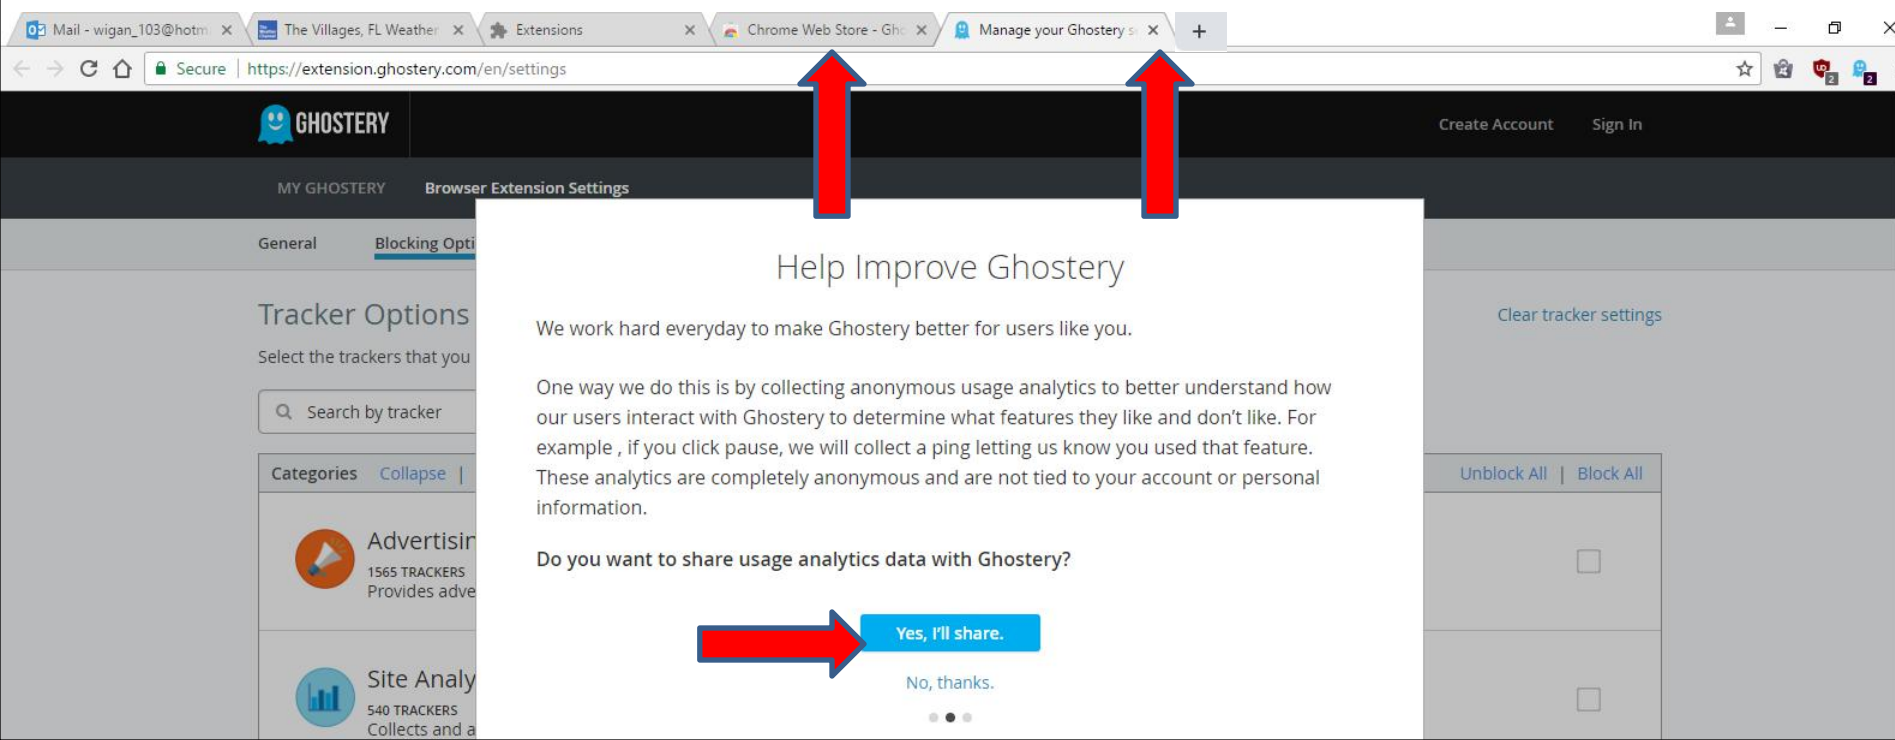

Yes, I'll share.

No, thanks.

•••

A red arrow points to the "No, thanks." option.

- **Window changes and asks to share again. You can click on Yes, I'll share if you want to or just click on X to close the page and it goes back to the other one.**
- **Next is what happens.**

- The other page opens, and you see RATE IT in this page. You can click on X to close this page.
- Next is what happens with the Extensions page.

The screenshot shows the Chrome Web Store search results for "Ghostery". The browser tab is titled "Chrome Web Store - Ghic" and has a red arrow pointing to the "X" icon. The search results are displayed under the "Extensions" section. The first result is "Ghostery" by www.ghostery.com, which has a "RATE IT" button. A second red arrow points to this button. Below it are "Ghostery Fixer" and "Bitbucket Advanced". The "Apps" section shows "Unlimited Free VPN". The left sidebar contains navigation options like "Home", "Extensions", "Themes", and "Apps", along with feature filters and rating options.

- Once you close it, it goes to the Extensions page and you see it and you see the Icon in the upper right.
- This is the End of Step 6 – Google Chrome.
