

Course Introduction

How to Build a Website Free - Getting Started

Course Introduction

- **This PDF file shows you about Weebly.com**
- **Next is Weebly Free Features.**

Weebly Free Features

- On-line Public Web Site(s).
- You can create 10 sites for free.
- Free Domain Name Samples
 - mycomputerbasics.weebly.com
- On-Line Build Tool – I will walk you through it.
- Unlimited Pages.
- Upload Files 10mb or less.
- Users Permission (note – user needs a Weebly account to have user permission).
- Number of Site Traffic (Stats), but not details.
- Storage Limit 500mb for files, etc.
- Next explains upgrade.

Weebly Features – Starter, Pro, Business Versions

- There is a Tip – How to find the Upgrade Versions.**
- It will also show you the price and the features. Sometimes the price changes. A few years ago, it was cheaper.**
- The reason for this Tip in case you need to Upgrade.**
- Note – the reason I have the Pro Version is for password pages for on-line training, but I don't do it anymore.**
- Next explains Weebly Changes.**

Weebly Changes

- **About every year, Weebly updates there service.**
- **They now have on-line Chat support.**
- **They changed Themes and page layouts. The new Themes now work with Mobile Devices.**
- **They changed 10 pages for free to unlimited pages.**
- **They recently change the Element layout and added Element(s).**
- **As I mentioned before, they used to allow 5 products for free, now you have to upgrade.**

Weebly Changes

- They used to allow to “transfer” a Domain you own for free. Now you have to upgrade Getting Started or Pro Version.
 - You can purchase a Domain from Weebly without the .weebly.com. You get one year free.
 - Or, you can purchase at Go Daddy and redirect, which is less cost then Weebly.
 - For example – www.wlov.org to www.wlov.weebly.com
- Next is what Weebly does not have.

What Weebly Does Not Have?

- Database, but does have membership. Membership is not free.**
- You can't change font when you edit Text, but you can change default font. That's why to add more Text elements with different font. There are 4 Text elements.**
- File Manager (there is a way to upload and manage files, there is a Tip in Part 2 on-line training)**
- Add Table (you can embed a table/spreadsheet using Google Docs/Drive or Free Program – NVU, which shows you in Part 2 on-line training)**

This is the End of the Introduction
