

# Step 7 – Option – Change or Purchase Domain

- Change Name or Purchase Domain.
- If your site is personal, village, or club you don't need to purchase.
- If your site is business, you should purchase a Domain from something like [www.godaddy.com](http://www.godaddy.com) or Weebly.
- Note – Weebly policy just changed and you have to have a Getting Started or Pro-version. You then get a Domain free for a year. After the year, it will be about \$20 a year.
- GoDaddy is about \$10 - \$15 a year.
- If you purchase from GoDaddy, I recommend you wait to the Workshop in the class, so I can help you redirect it to Weebly.
- Next is how to upgrade and purchase domain.

- You first click on Settings again and next is to change site address.

- Then click on **Change**, next to **Site Address**.
- Next is what happens.

The screenshot displays the Weebly settings interface. At the top, a dark navigation bar contains the following items: 'Build', 'Pages', 'Theme', 'Store', 'Settings' (highlighted), and 'Help -'. On the right side of this bar are 'Upgrade' and 'Publish' buttons. A left sidebar lists various settings categories: 'General' (selected), 'SEO', 'Editors', 'Members', and 'My Apps'. The main content area is titled 'General' and features a 'Site Address' section. The current site address is 'villageoflargo.weebly.com'. A 'Change' button is positioned to the right of the address field. A large red arrow points directly to this 'Change' button.

**New window opens, like you saw before and then click on the circle next to Register a New Domain. Then type in domain to see if it is Available. Once Available, click on Continue. Next is what happens.**

**Build** **Pages**
