

Step 11 – Part A – Share with OneDrive

- **OneDrive**

- You will need a Microsoft account for OneDrive, like Hotmail.
- Limit is 100 MB file.

Next is Why Share Video

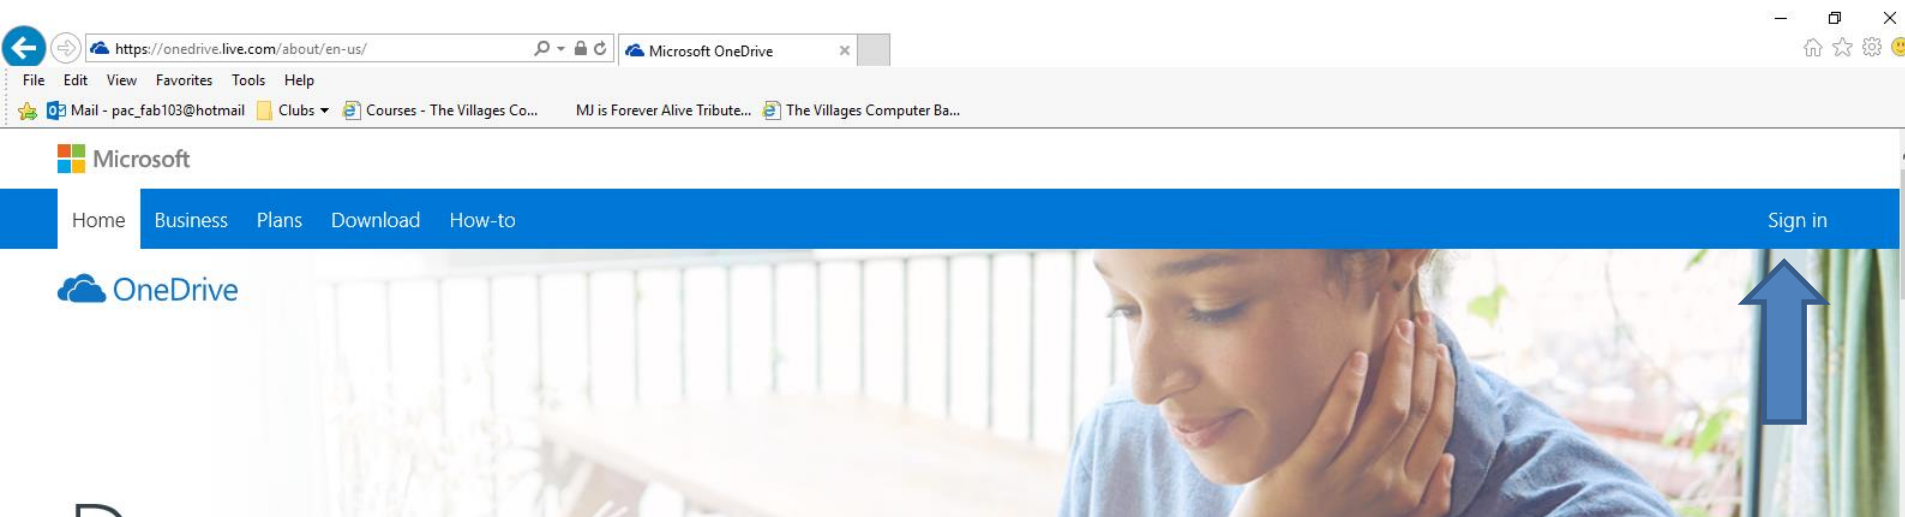

Why Share Video?

- **Easier than sending a DVD**
- **Can make it private**
 - **Easy on OneDrive**
- **If you have Hotmail, called Outlook Mail and sign-in, you can go to OneDrive, which is next.**
- **The other option is just go to OneDrive and you sign-in with your Hotmail/Outlook Mail, which is later. After that is how to create an account.**

- When sign-in with your Hotmail/Outlook Mail, you click on the Icon in the. upper left and you see a list and you click on OneDrive. Next is just go to OneDrive.

- If you had Sign out of Hotmail/Outlook Mail, you go to onedrive.com and you see this page. If you have not Sign out and go to a Browser and go to onedrive.com it opens your OneDrive account. In this page, you click on Sign in, in the upper right.
- Next is what happens.

- **A new window opens and if you have an account, you type in your email and click on Next and type in your password. If you don't have an account, you can click on Sign up now, which is next.**

- Window closes and a new page opens and can either create an account with a phone or create a new email address. You then create a Password.
- Once complete, click on Next.
- Next is OneDrive.

The screenshot shows a web browser window with the URL <https://signup.live.com/signup?id=250206&wreply=https%3a%21>. The page title is "Microsoft account". The browser's address bar shows the URL, and the tabs below show "Mail - pac_fab103@hotmail", "Clubs", "Courses - The Villages Co...", "MJ is Forever Alive Tribute...", and "The Villages Computer Ba...".

The main content of the page is titled "Create account" and includes the text "Microsoft account opens a world of benefits." Below this are two input fields: an empty text box and a "Create password" field. A checkbox labeled "Send me promotional emails from Microsoft" is checked. There are two links: "Use a phone number instead" and "Get a new email address". A large blue arrow points down to a blue "Next" button. Below the button, it says "Choosing Next means that you agree to the [Microsoft Services Agreement](#) and [privacy and cookies statement](#)." The Microsoft logo is at the bottom center.

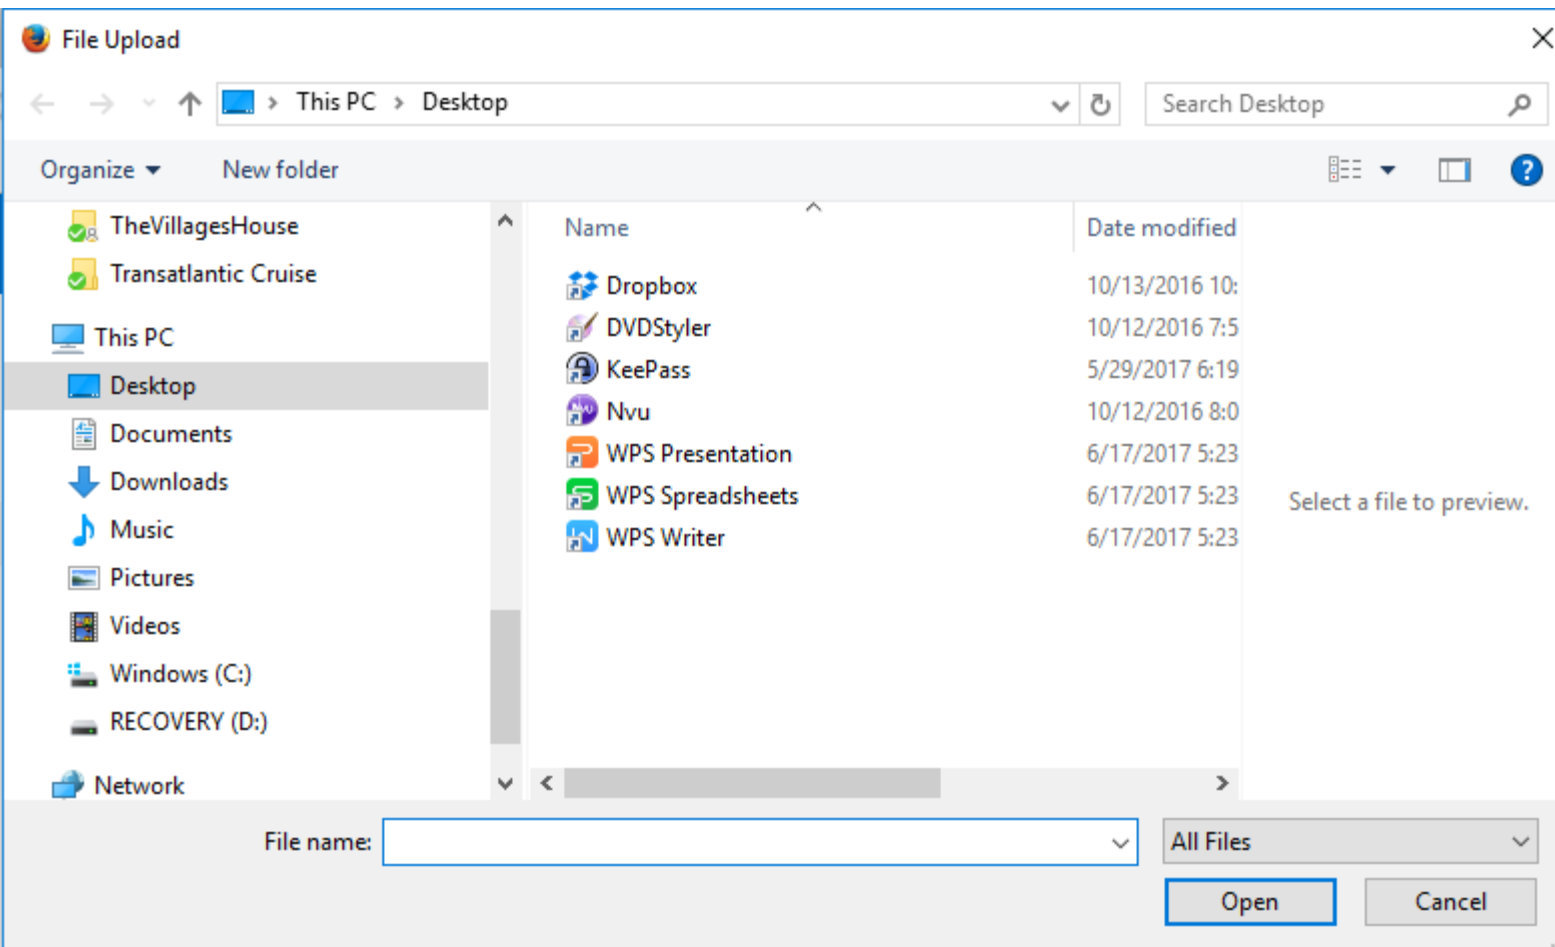

- **This is my OneDrive. If you have a new account, you will not see the Files. To upload a video, you click on Upload.**
- **Next, I will zoom in so you can see it.**

- **When you click on Upload, you see Files and Folder. Click on Files.**
- **Next is what happens.**

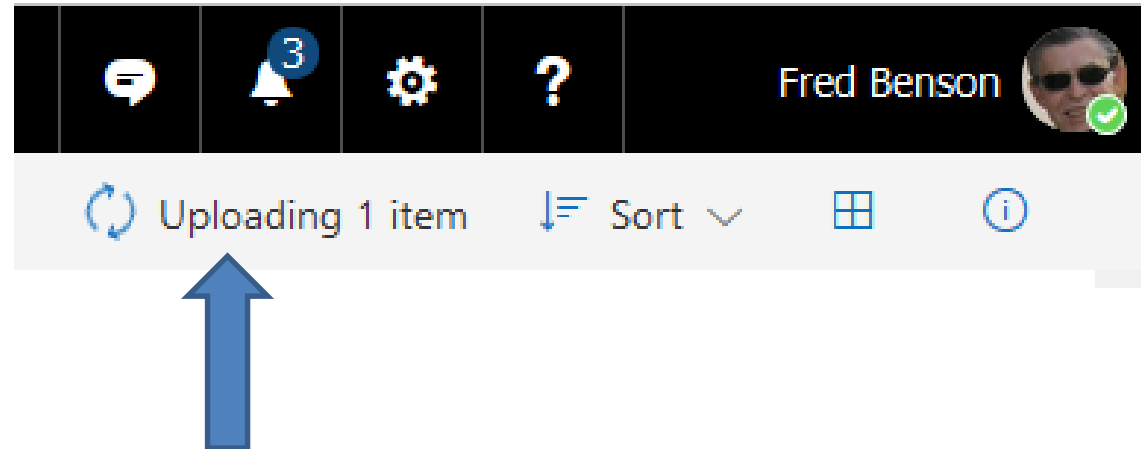

- A new window opens, like File Explorer and you find the folder with your video.
- Next is a sample.

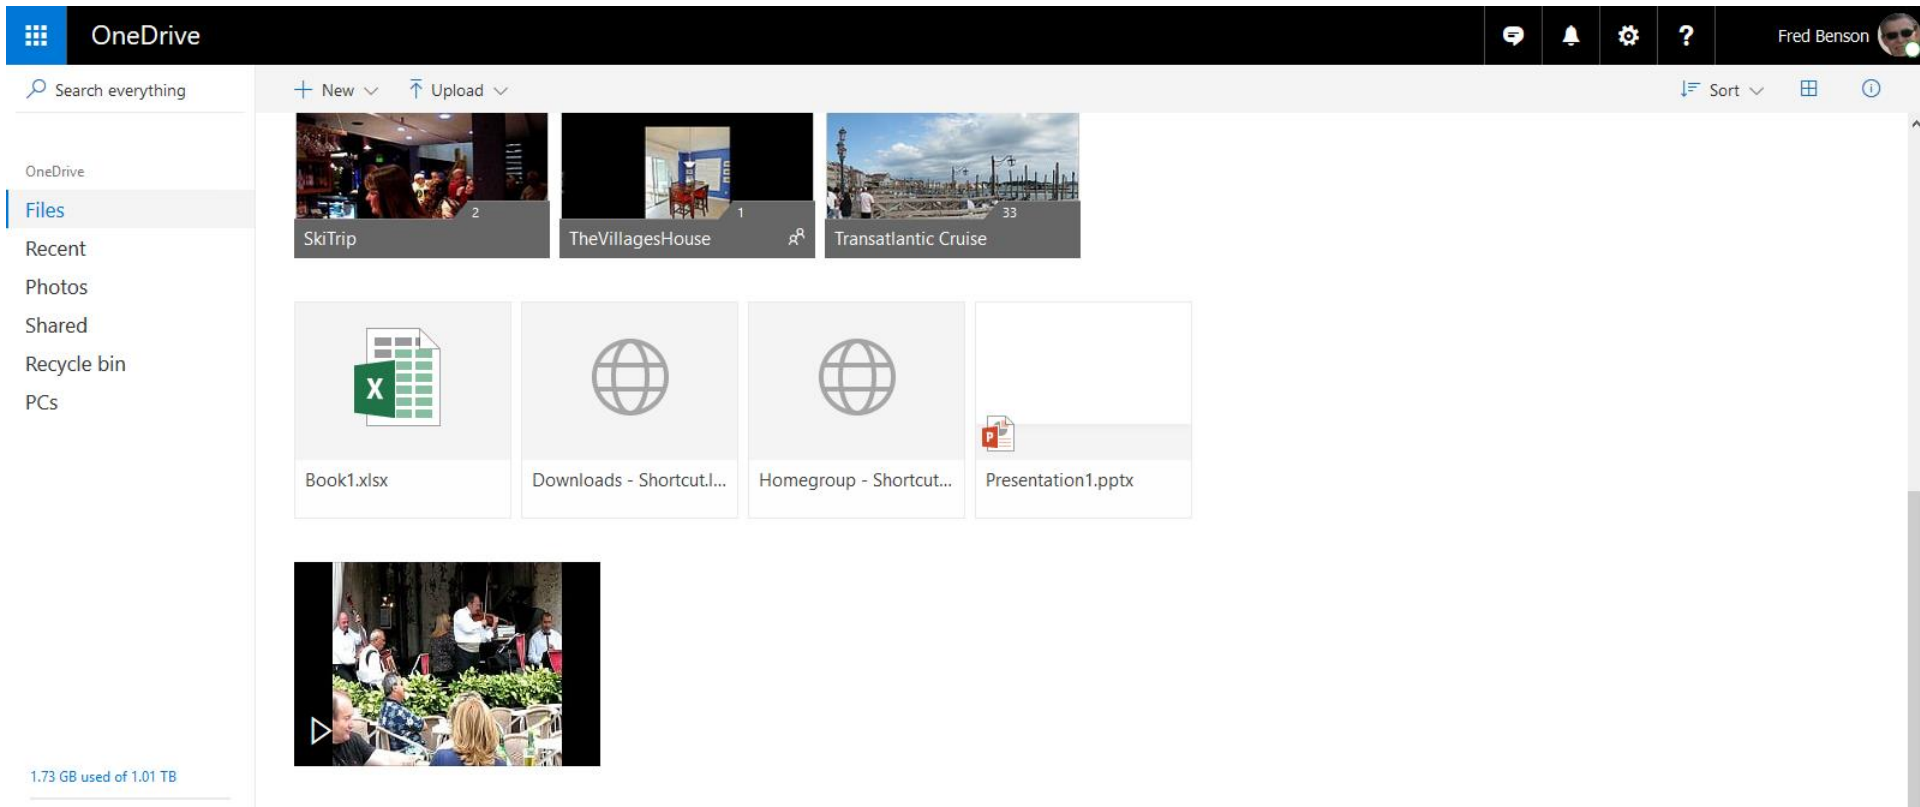

- Here is a sample of finding a folder with the Video. You either double click on it or click on it and click on Open.
- Next is what happens.

- You see in the upper right that it is Uploading.
- Next is what happens when it is complete.

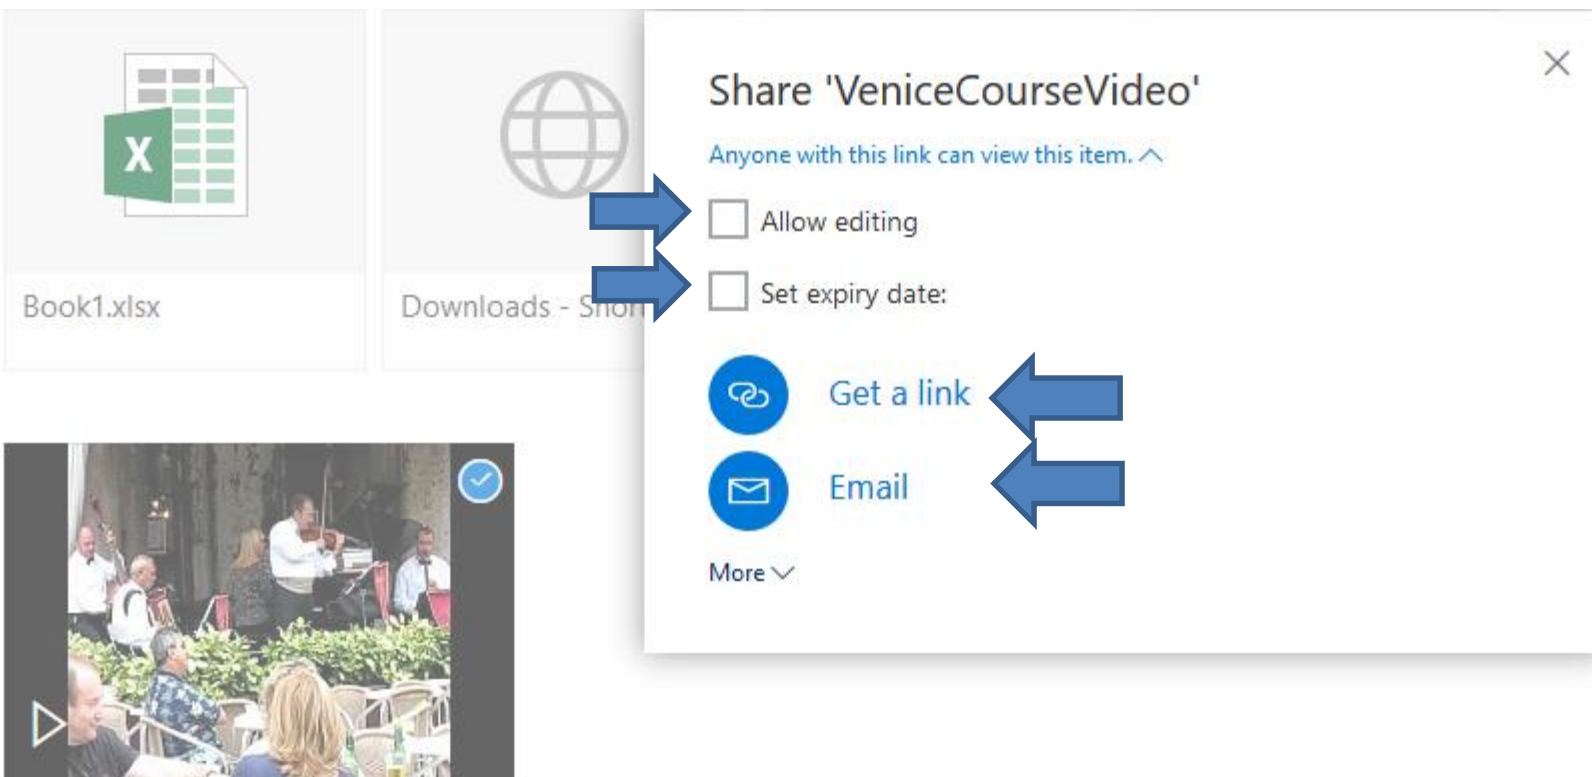

- **Once it is complete, you see it under the Files.**
- **Next is how to Share it.**

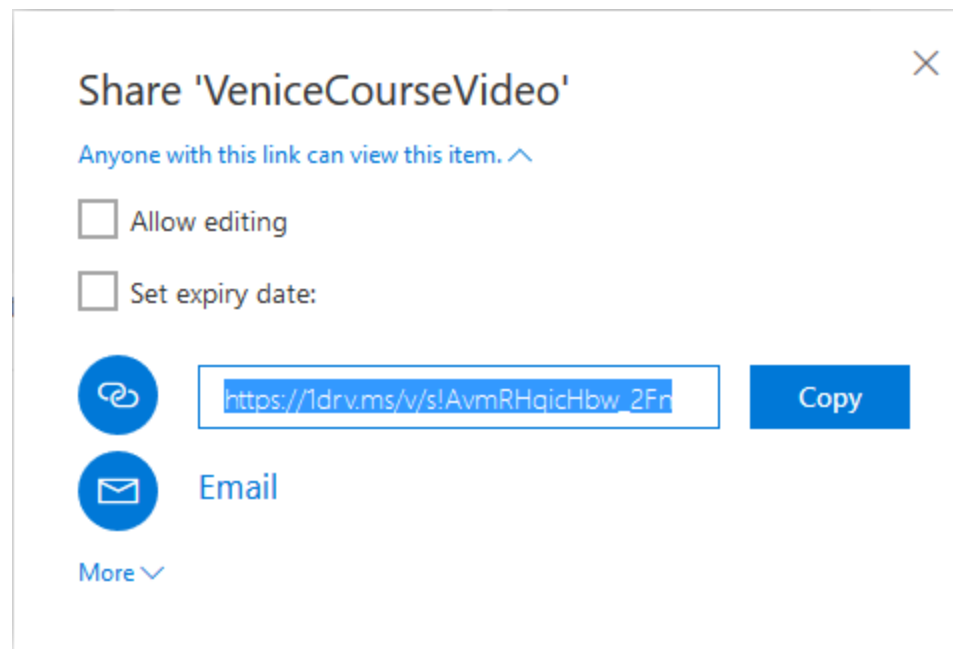

- **When you click on it, it starts to play. If you right click on it, you see a list with options. You click on Share to Share it.**
- **Next is what happens.**

- **When you click on Share, the list closes and a new window opens. I recommend don't click on Allow editing. You can set expiry date if you want. You have two options to share. One is Get a link and the second is Email.**
- **Next is what happens when you click on Get a link.**

- You see a link highlighted and you click on Copy and then you can paste it when you send e-mail to people. To paste, you press and hold the Ctrl Key and click on the V Key. Depending on your e-mail, you may be able to right click and click on paste.
- Next is what happens when you click on Email.

- The window changes and you type in the name or email address and you add a message. When you type in name it shows a list and you can click on one or just type in email and you do as many as you want.
- Next is a sample of two.

- **I teach Build Website free and I also have on-line training.**
- **If you are interested in Build a Website, click [HERE](#) to contact me.**
- **Next is how to Embed.**

- When the video is highlighted, click on Embed on the top and a new window opens on the right. You can click on Generate for the code.
- Next is what happens.

The screenshot displays the OneDrive web interface. At the top, the navigation bar includes the OneDrive logo, a search bar, and a menu with options: Share, Download, Delete, Move to, Copy to, Rename, Add to album, Edit tags, and Embed. A blue arrow points to the 'Embed' option. Below the menu, a grid of items is shown, including video thumbnails for 'SkiTrip', 'TheVillagesHouse', and 'Transatlantic Cruise', and document icons for 'Book1.xlsx', 'Downloads - Shortcut...', 'Homegroup - Shortcut...', and 'Presentation1.pptx'. A video player is visible at the bottom left. On the right side, a panel titled 'Embed "VeniceCourseVideo" in a blog or webpage.' contains a 'Generate HTML code to embed this file' section with a 'Generate' button. A blue arrow points to this button. Below the button, a note states: 'Note: Anyone who visits the blog or webpage with this embedded file will be able to view it without signing in.'

- **Window changes and you right click on the code and click on Copy. You can then paste it in your website.**
- **This is the End of Part A.**
