

Step 1 – How to download PicPick.

- As I mentioned in my website page, if you already have PicPick before June 2018, I recommend you download the new version. I will show you how to download the new version with other Browsers.**
- You go to your Browser and you type in ngwin.com/picpick/download and click on the Enter Key to go to the website.**
- Next is a sample of the website.**

- **Here is a sample of the website and you see FREE Download, which I recommend. You have to left click on the line at the right and hold it down and scroll it down a little. Next is a sample of scrolling down.**

- Here is a sample of scrolling down a little and you see **DOWNLOAD**. You click on **DOWNLOAD** and next explains what happens, depending on your Browser.

- **If your Browser is Internet Explorer or Edge in Windows 10, next is what happens when you click on DOWNLOAD.**
- **If your Browser is Firefox, page 6 shows you what happens when you click on DOWNLOAD.**
- **If your Browser is Google Chrome, page 8 shows you what happens when you click on DOWNLOAD.**
- **If your Browser is Opera, page 9 shows you what happens when you click on DOWNLOAD.**
- **Forward to the page in this PDF file for your Browser.**

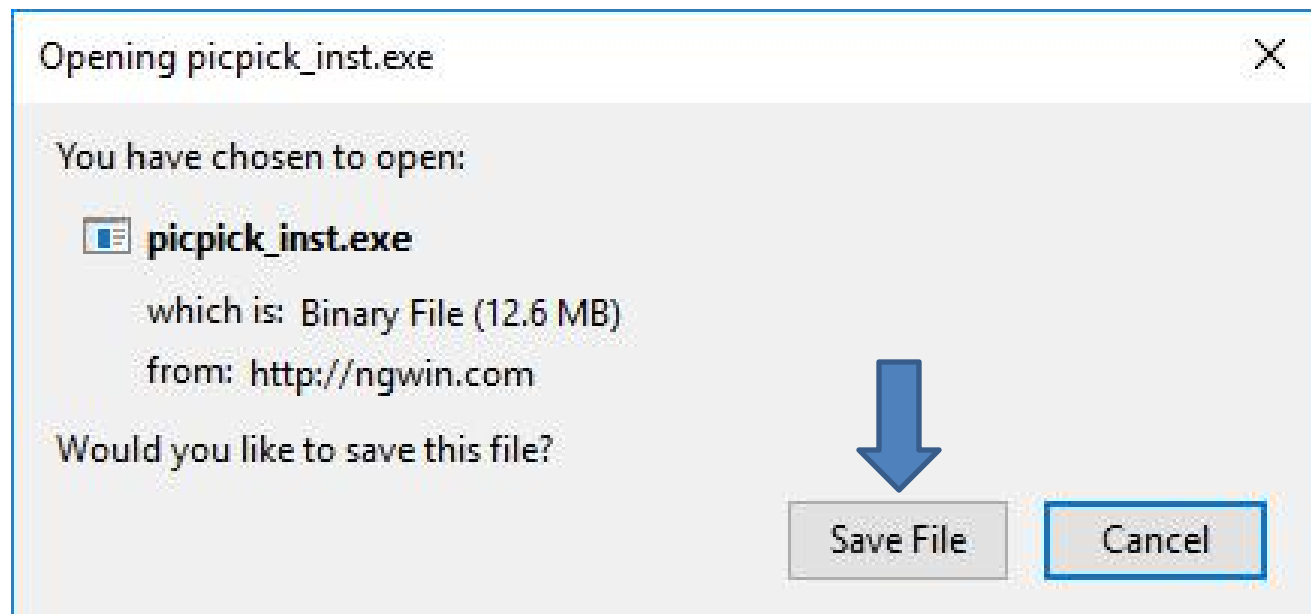

- When you click on **DOWNLOAD** with the Internet Explorer Browser, a new window opens at the bottom and I recommend you click on Run. Page 11 shows you what happens. You should forward to Page 11 on this PDF file.

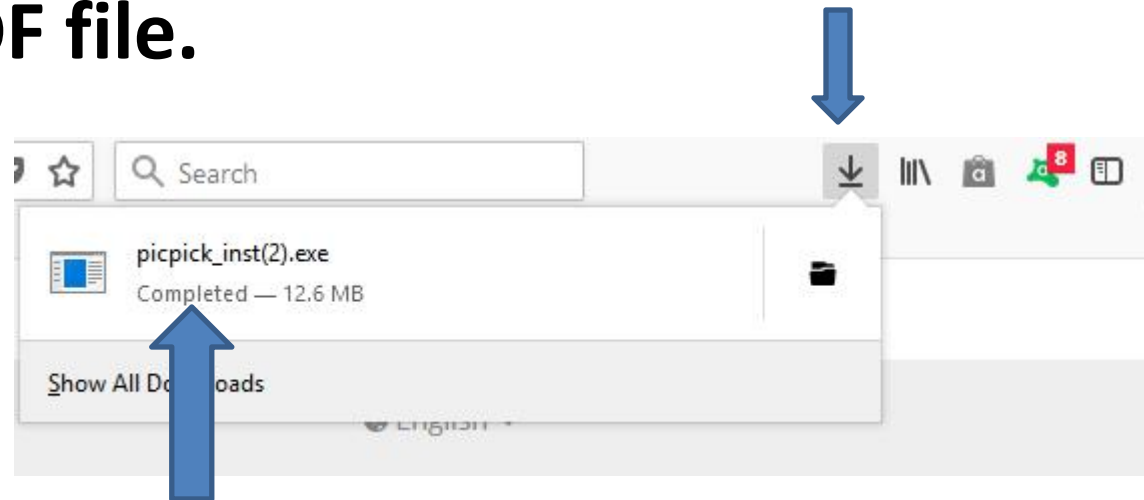

- When you click on **DOWNLOAD** with the Edge Browser in Windows 10, a new window opens at the bottom and I recommend you click on Run. Page 11 shows you what happens. You should forward to Page 11 on this PDF file.

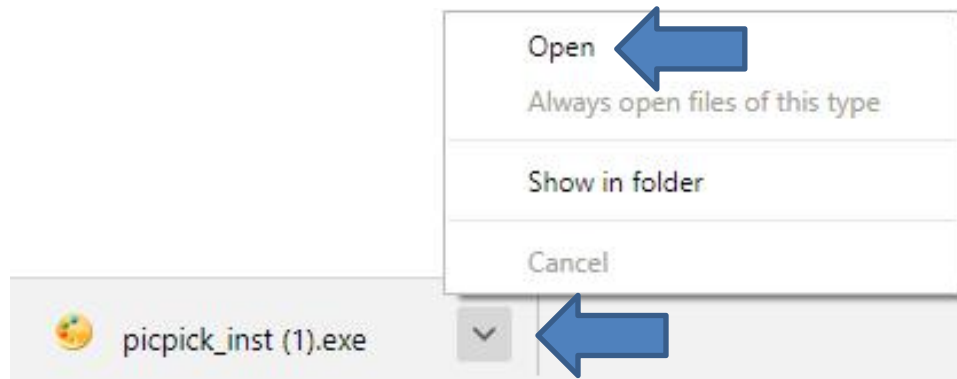

- When you click on **DOWNLOAD** with the **Firefox Browser**, a new window opens and I recommend you click on **Save File**. Next is what happens.

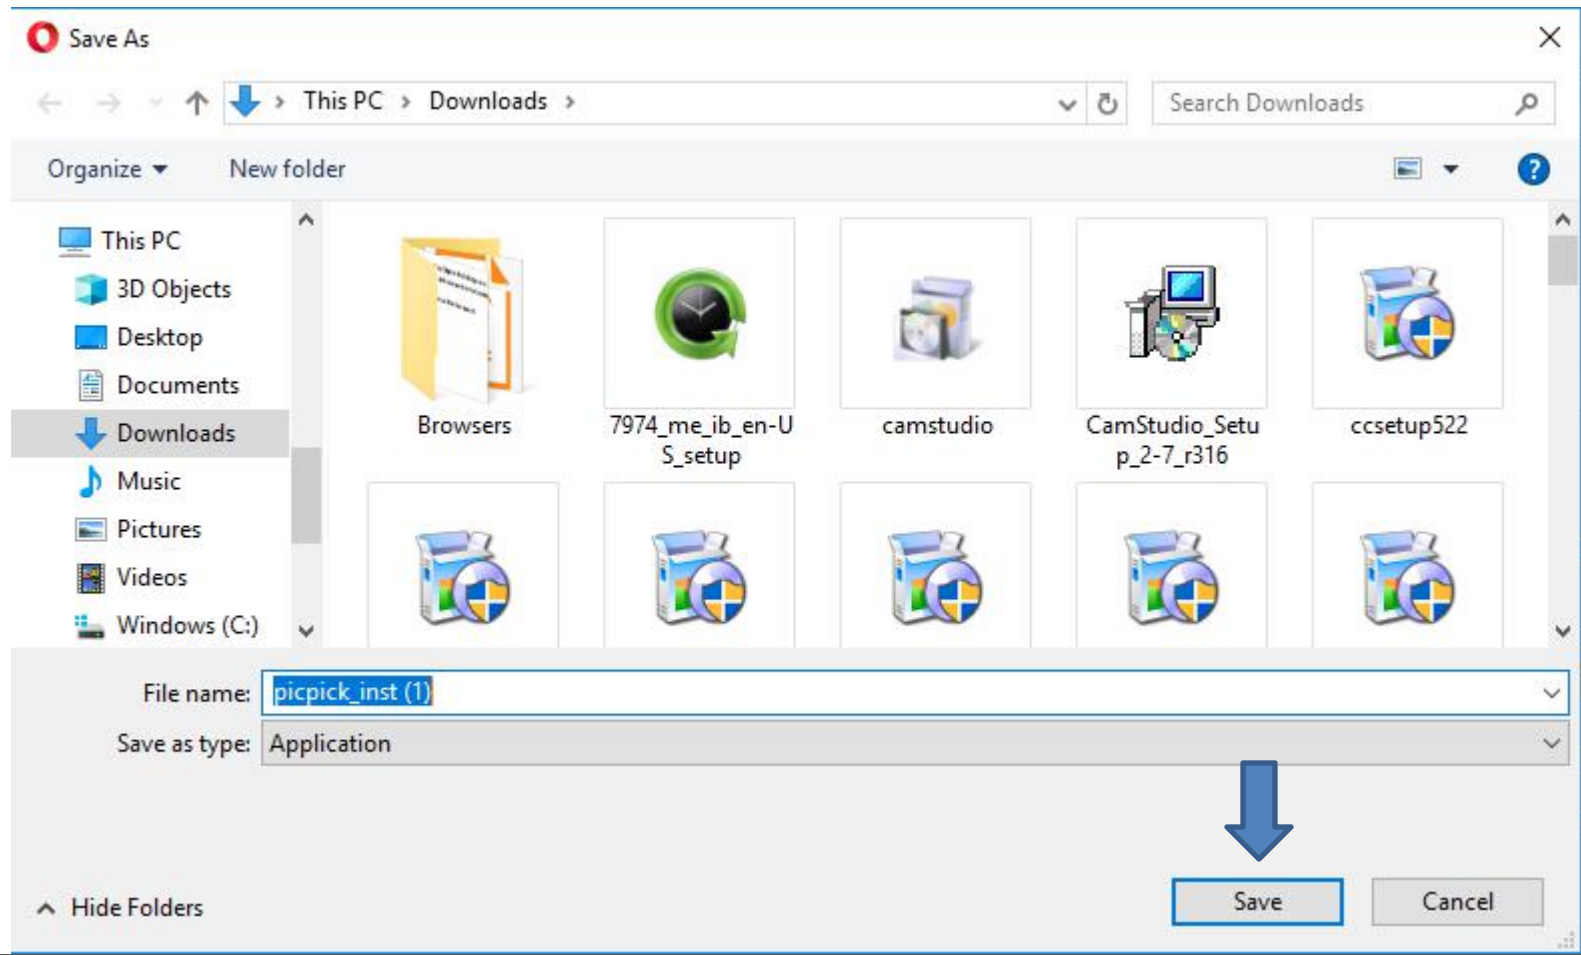

- When you click on Save file, the window closes and it starts to download it to your Downloads Folder. In the upper right, you click on the Download Icon  and a new window opens and I recommend you click on the file and Page 11 shows you what happens. You should forward to Page 11 on this PDF file.

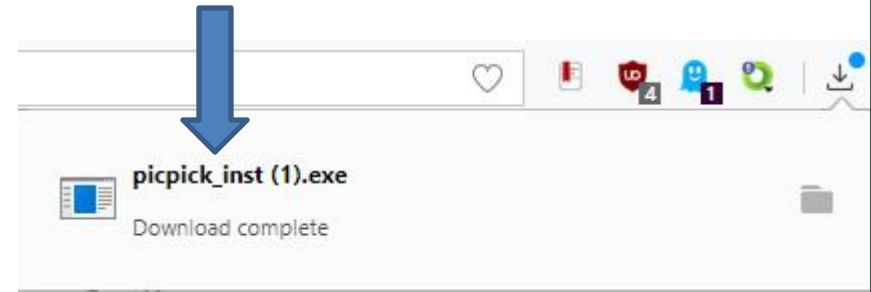

- When you click on **DOWNLOAD** with the Google Chrome Browser, a new window opens at the bottom of the left and starts downloading to your Downloads Folder. When you click on the Icon  on the right, a new window opens and click on **Open** when it is complete. Page 11 shows you what happens when you click on **Open**. You should forward to Page 11 on this PDF file.

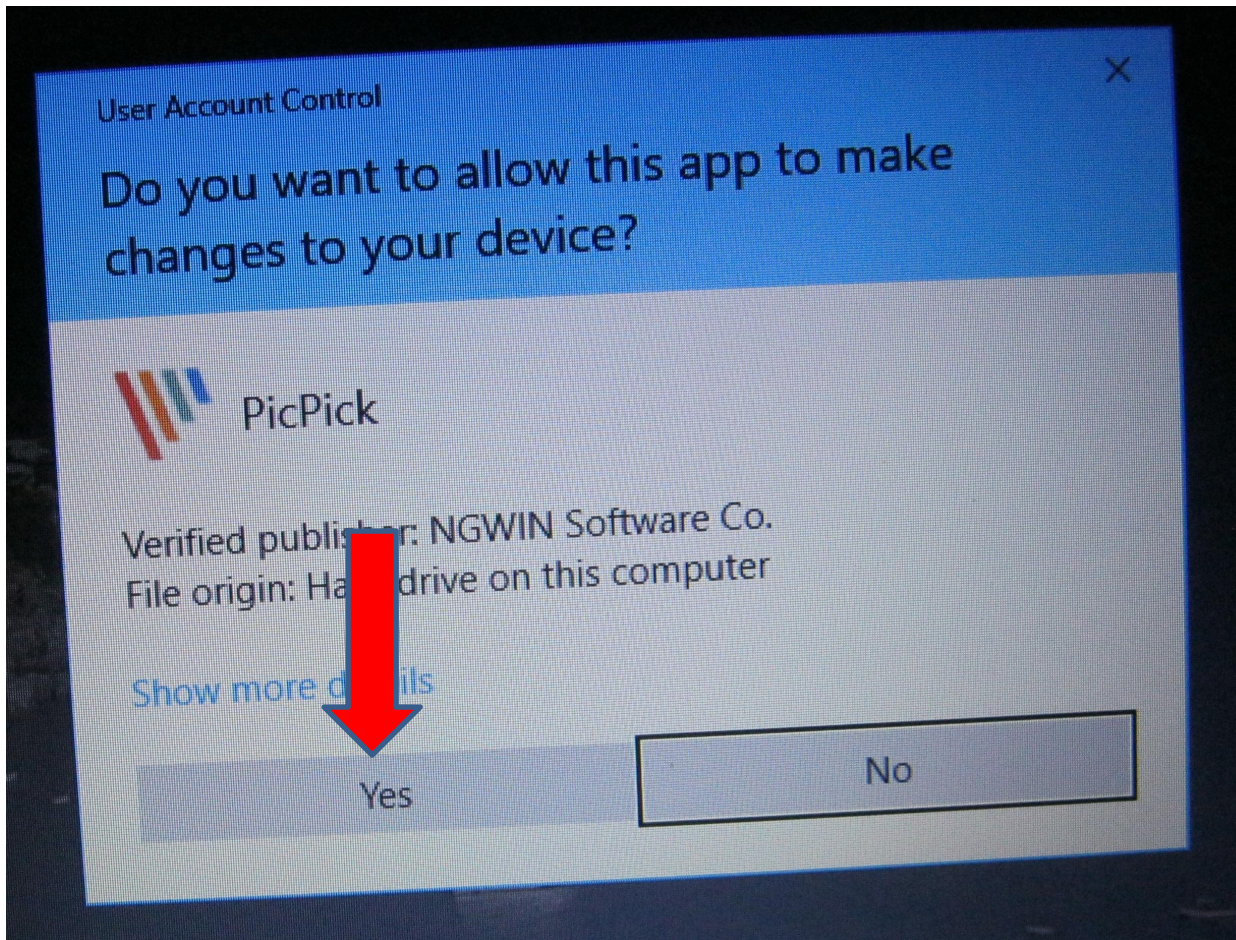

- When you click on **DOWNLOAD** with the Opera Browser, a new window opens and I recommend you click on **Save**. Next is what happens. If you want, you can change the **Folder** that downloads.

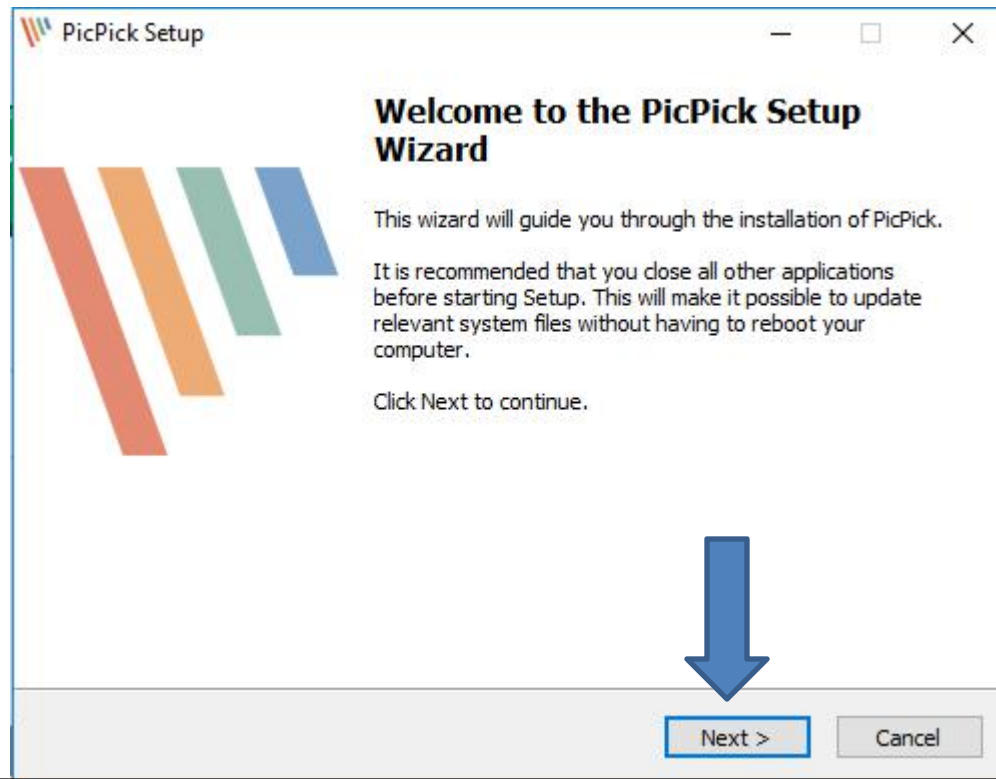

- **When you click on Save, the window closes and a new window opens in the upper right saying the Download complete. You then double click on the file and next is what happens.**

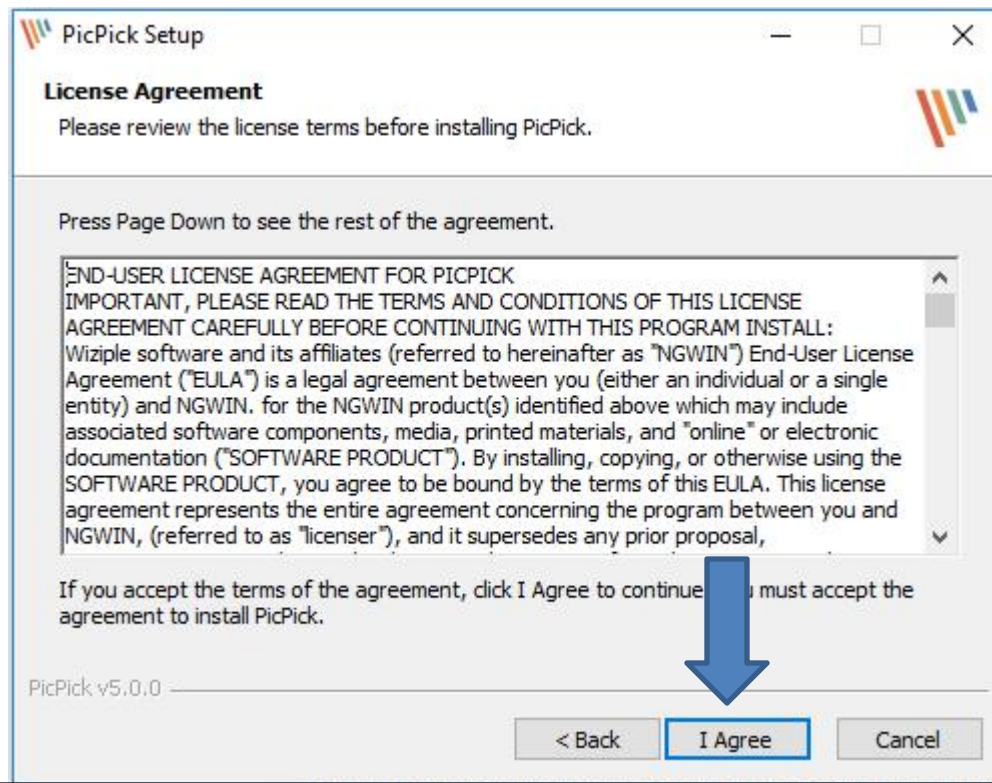

- A new window opens and you see the PicPick Icon is different then the older version. You then click on Yes and next is what happens.

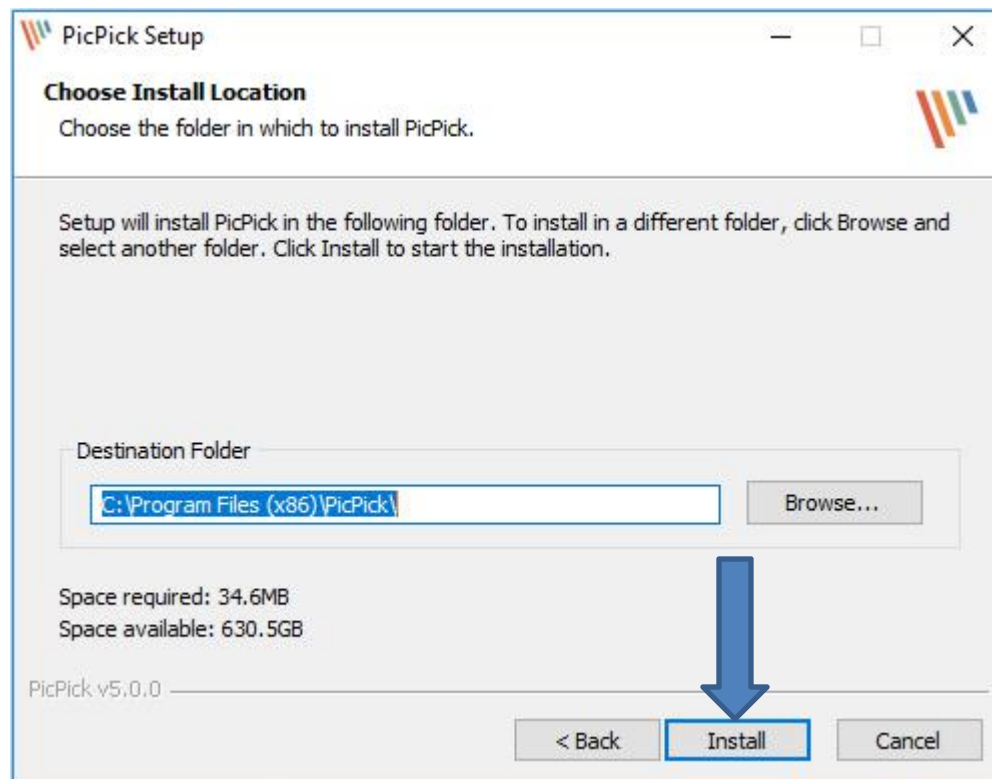

- **Window closes and a new window opens and you click on Next and next is what happens.**

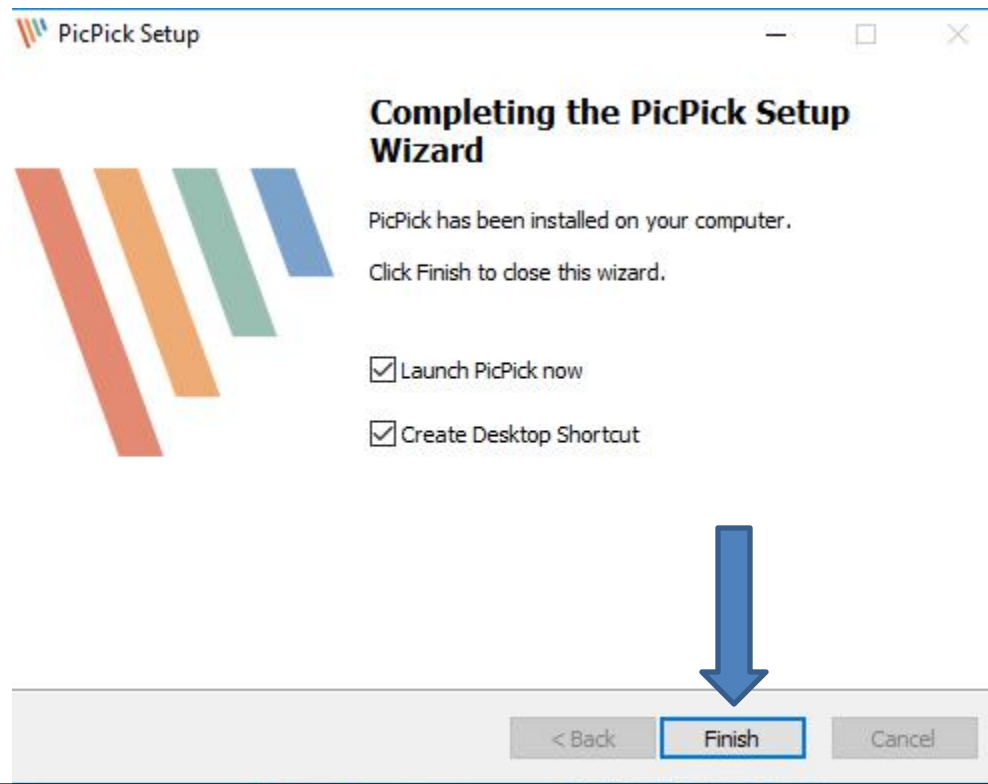

- Window changes and I recommend you click on I Agree and next is what happens.

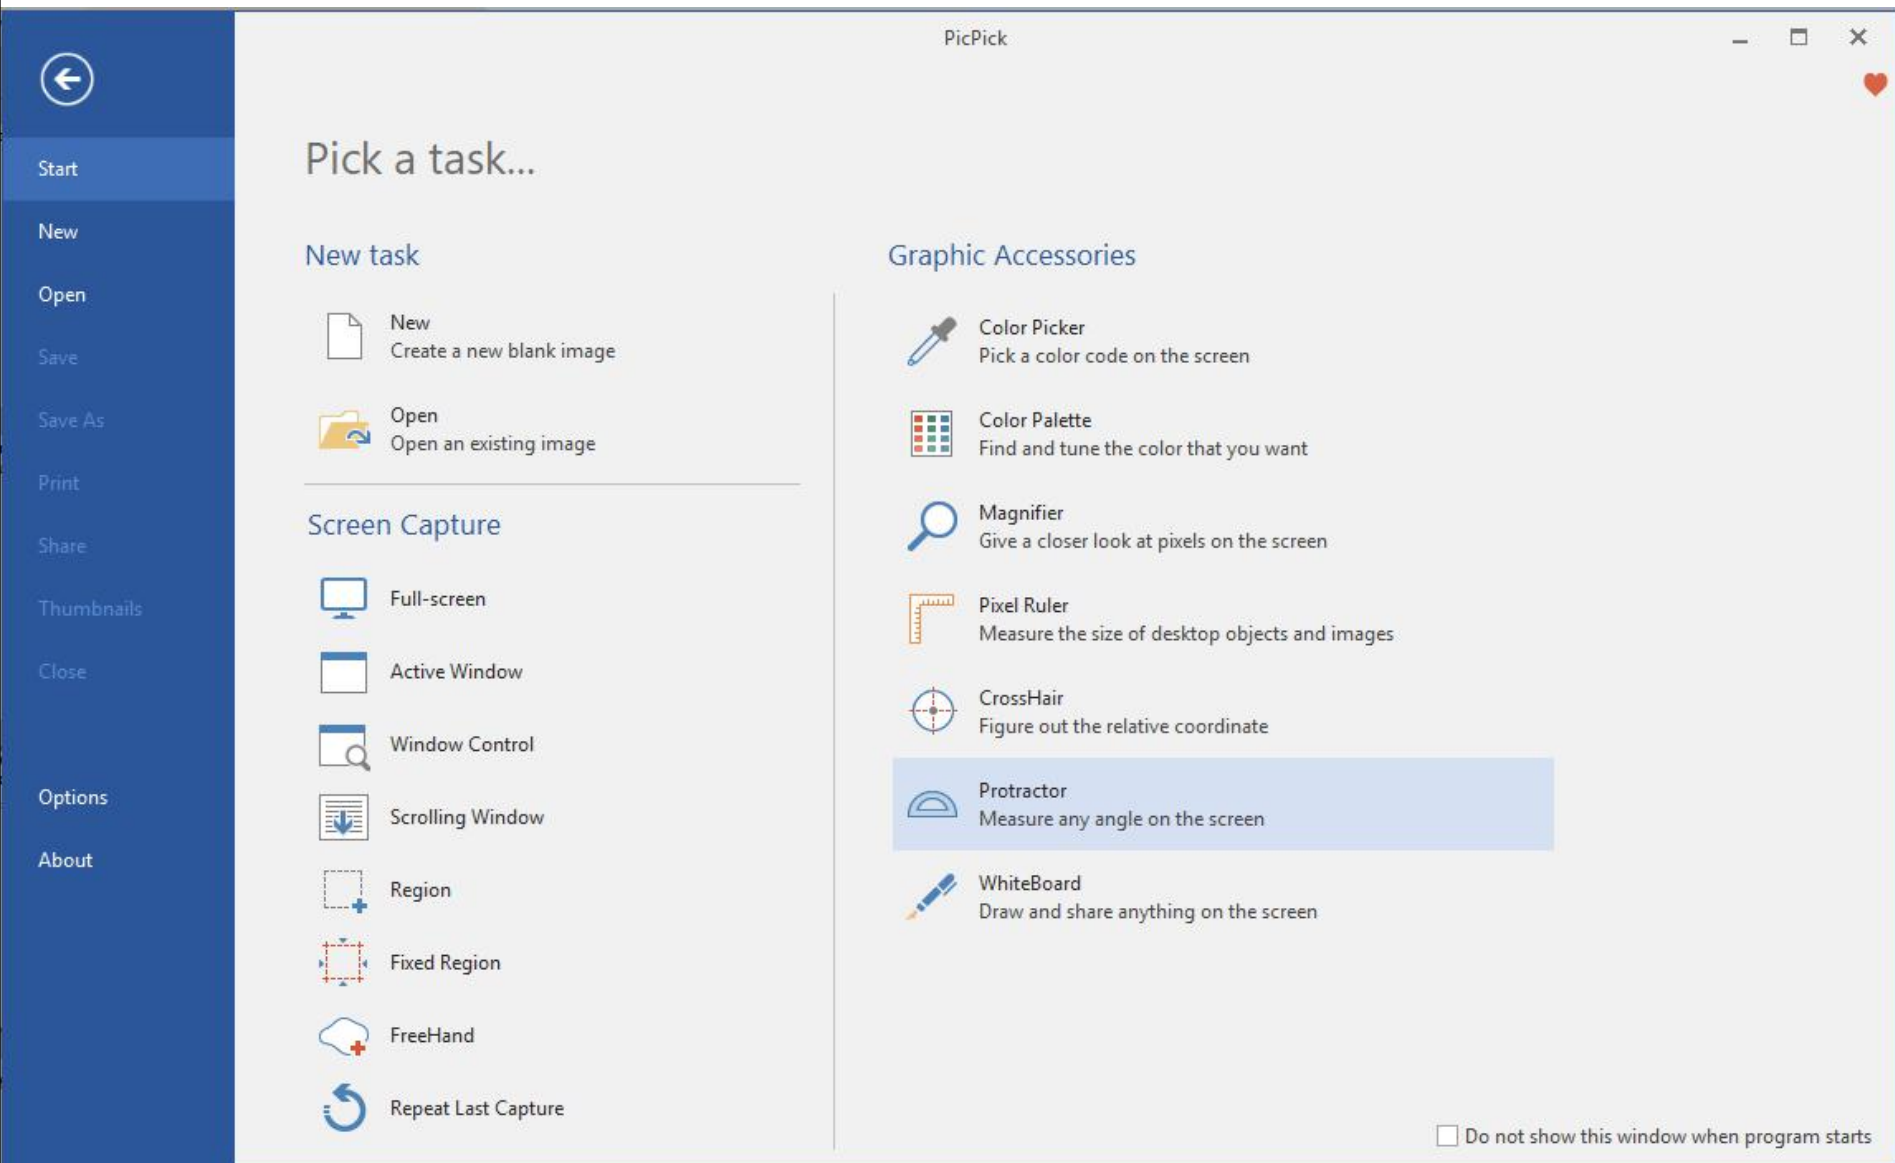

- **Window changes and I recommend you click on Install and next is what happens.**

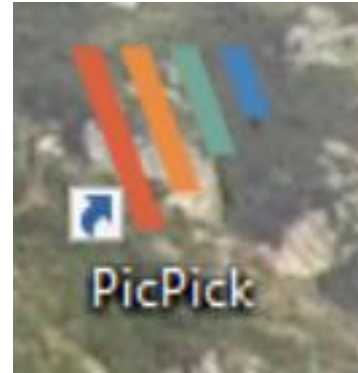

- **Window changes and you see PicPick has been installed on your computer. I recommend you click on Finish and next is what happens.**

- **Window closes and PicPick opens. It also shows the PicPick Icon on your Desktop, which is next.**

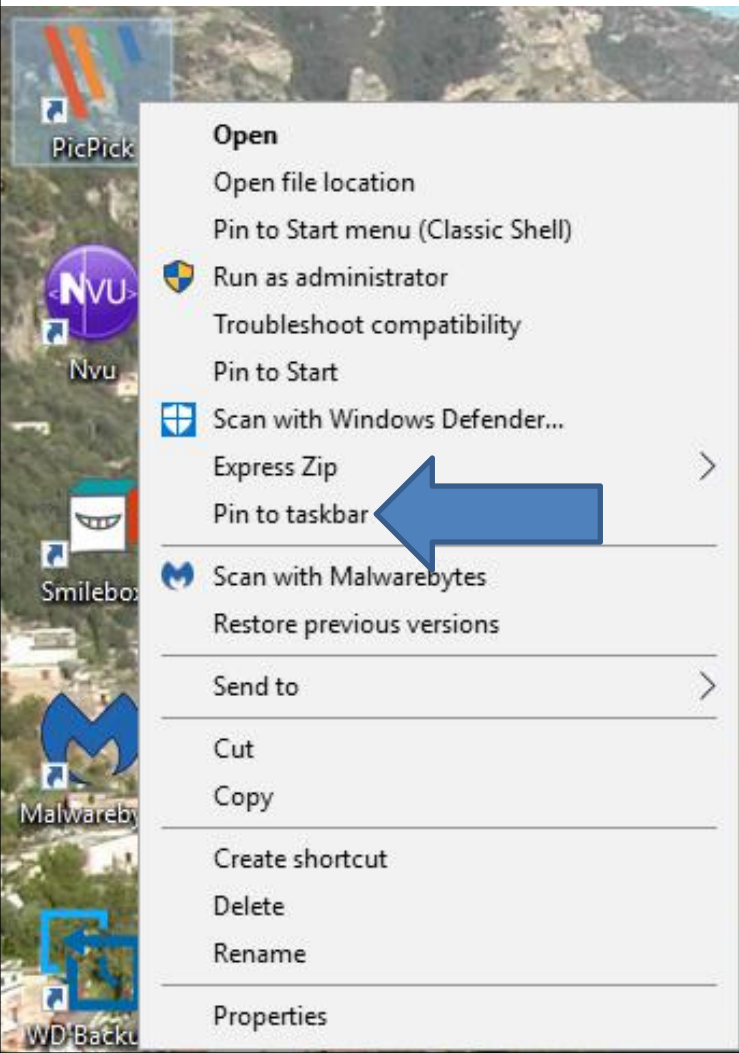

- **Once you download, you will see the Icon on your Desktop screen.**

- **I recommend you Pin to the Taskbar, because it is easier to open it.**
- **Next is how to Pin to the Taskbar.**

- You right click on the Icon and you see a list and then click on Pin to taskbar. Once you do that, you will see the Icon on the taskbar, which is next.

- Here is a sample on my taskbar in Windows 10 and you see the PicPick Icon. You can click on it to open it.
- This is the End of Step 1.
