# Step 2 – How to add Effects and Text on ManyCam

- **You can add Text. You can type it Text or Draw Text. Draw Text is not easy.**

- **You first open ManyCam as I showed you in Step 1.**
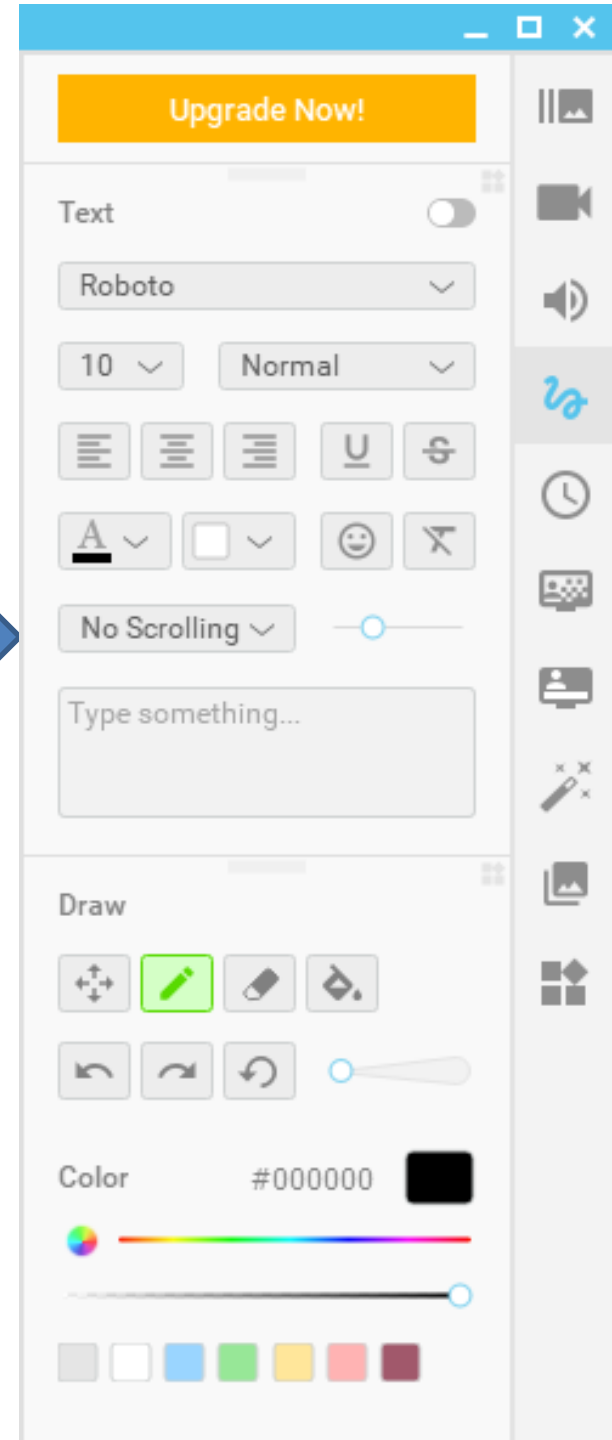

- **Next is a sample of open it again.**

- **You first click on the Draw Icon on the right and next is what happens.**

- **When you click on the Draw Icon, you see Text and Draw.**

- **Text is easier, but it is only at the bottom and you can't put it in the middle or top.**

- **You can Draw any place.**

- **You can change Font Text, size, Bold, Italic, location at the bottom, and color.**
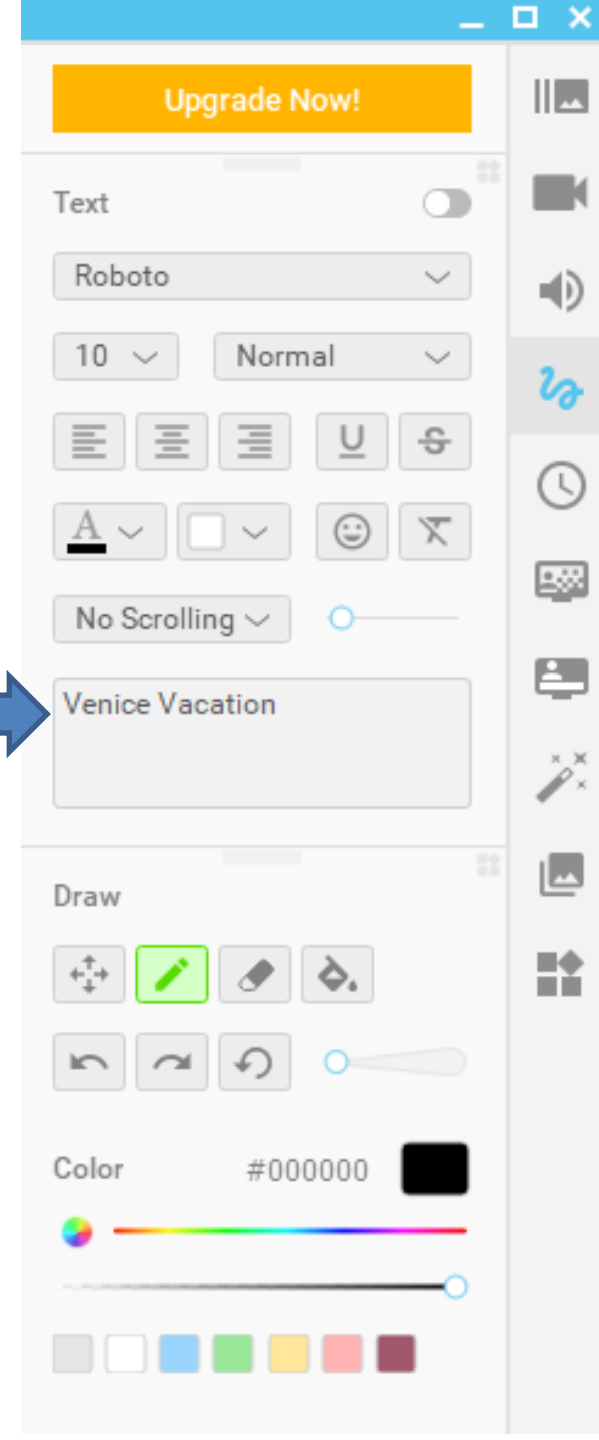

- **Next is more options.**

- **The default is No Scrolling. No Scrolling just shows the Text left at the bottom.**

- **You can change it by clicking on it, which is next.**

- **When you click on it, you see a list with other options. The other options is to do Scrolling Text, that I do not like. That's why I just use No Scrolling.**
- **Next is to type in Text and make changes of the Text.**

No Scrolling ⌄

No Scrolling

Right to left

Top to bottom

Bottom to top

- **You type in Text below the No Scrolling, like I did.**
- **You can then change the Text.**
- **Next explains it.**

- **The default Font is Roboto and you change it.**
- **The default size is 10 and you can change the size.**
- **The default is Normal and you change it to Bold, etc.**
- **Default align of Text is left. You can change align to Middle or Right. You also can add Underline or Strikethrough. Next is more options.**
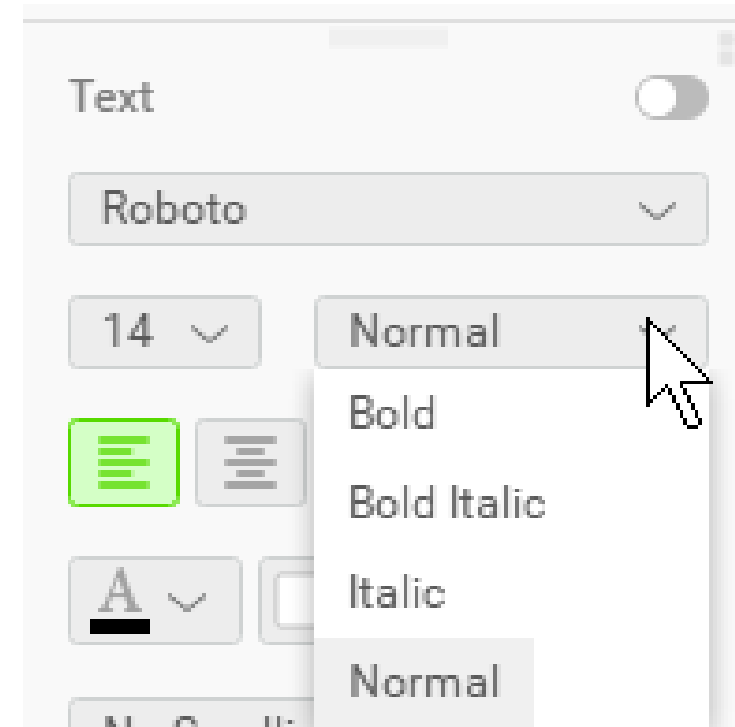

- **You can also change the Text color.**
- **You also can Background color.**
- **You also can Clear the formatting.**
- **I tried this Icon** ☺ **and nothing worked.**
- **Next is a sample of changing some Text.**

- **I decided not to change the Font.**

- **I click on 10 and you see a list and I decided to change the size to 14.**

- **Next is what happens when you a click on 14 and click on Normal.**

Text

Roboto

10 ✓   Normal ✓

24

- **You then see 14 and when you click on Normal, you see a list and I decided to click on Bold Italic.**
- **Next is what happens.**

- **You see it and I decided not to change the align, Underline and Strikethrough.**

- **I clicked on the Text color to cha color. I decided to click on the R one on the line and next is what happens.**

Text

Roboto

14   Italic

A

Color   #000000

- **You then see red. Once complete, you click on the Icon next to Text to turn it on.**

- **Next is a sample.**

- **Here is a sample of clicking on the Icon and you see the Text with 14 size, Bold, Italic, and Text Color. Next is a sample of Draw without Text. As I mentioned before, it is not easy.**

- **Here is a sample of Draw without Text. I changed the color and size.**

- **This is the End of Step 2 – Part B.**
