

Step 3 - Part 3 – How to Download Video Music with aTube Catcher and Play it.

- I recommend you first go to YouTube to find the Video Music you want.**
- After that I will show you how to download the Video Music from YouTube with aTube Catcher.**
- Next is a sample of YouTube.**

- Here is a sample of YouTube and I decided to Search michael buble christmas and you see a list. You then can click on one to play it. I decided to click on the second one and next is what happens.

The screenshot shows a YouTube search results page for the query "michael buble christmas". The search bar at the top contains the text "michael buble christmas". The left sidebar shows navigation options: Home, Trending, Subscriptions, Library, History, Watch later, Liked videos, and a Subscriptions section with categories like Popular on YouTube, Music, Sports, and Gaming. The main content area displays a list of search results. The first result is a video titled "How To Eliminate Years Of Mortgage Payments?" by Rainy Karp. The second result is "Michael Bublé - Christmas (Deluxe) [Official Full Album] [HD]" by Michael Bublé, which is highlighted with a blue arrow. The third result is "Michael Bublé - Christmas (Full Deluxe Special Edition Yule Log) [4K HD]" by Michael Bublé. The fourth result is "Michael Bublé - It's Beginning To Look A Lot Like Christmas [Official HD Audio]" by Michael Bublé. On the right side of the page, there is a featured album card for "Christmas" by Michael Bublé, which includes a "PLAY ALBUM" button and a list of songs: "It's Beginning to Look a Lot Like Christmas", "Santa Claus Is Coming to Town", "Jingle Bells", and "White Christmas".

- It starts to play it. I recommend you click on **SHARE** under right and next is what happens.

- **A new window opens and I recommend you click on COPY on the right. Then open a Tube Catcher and next is a sample of open it.**

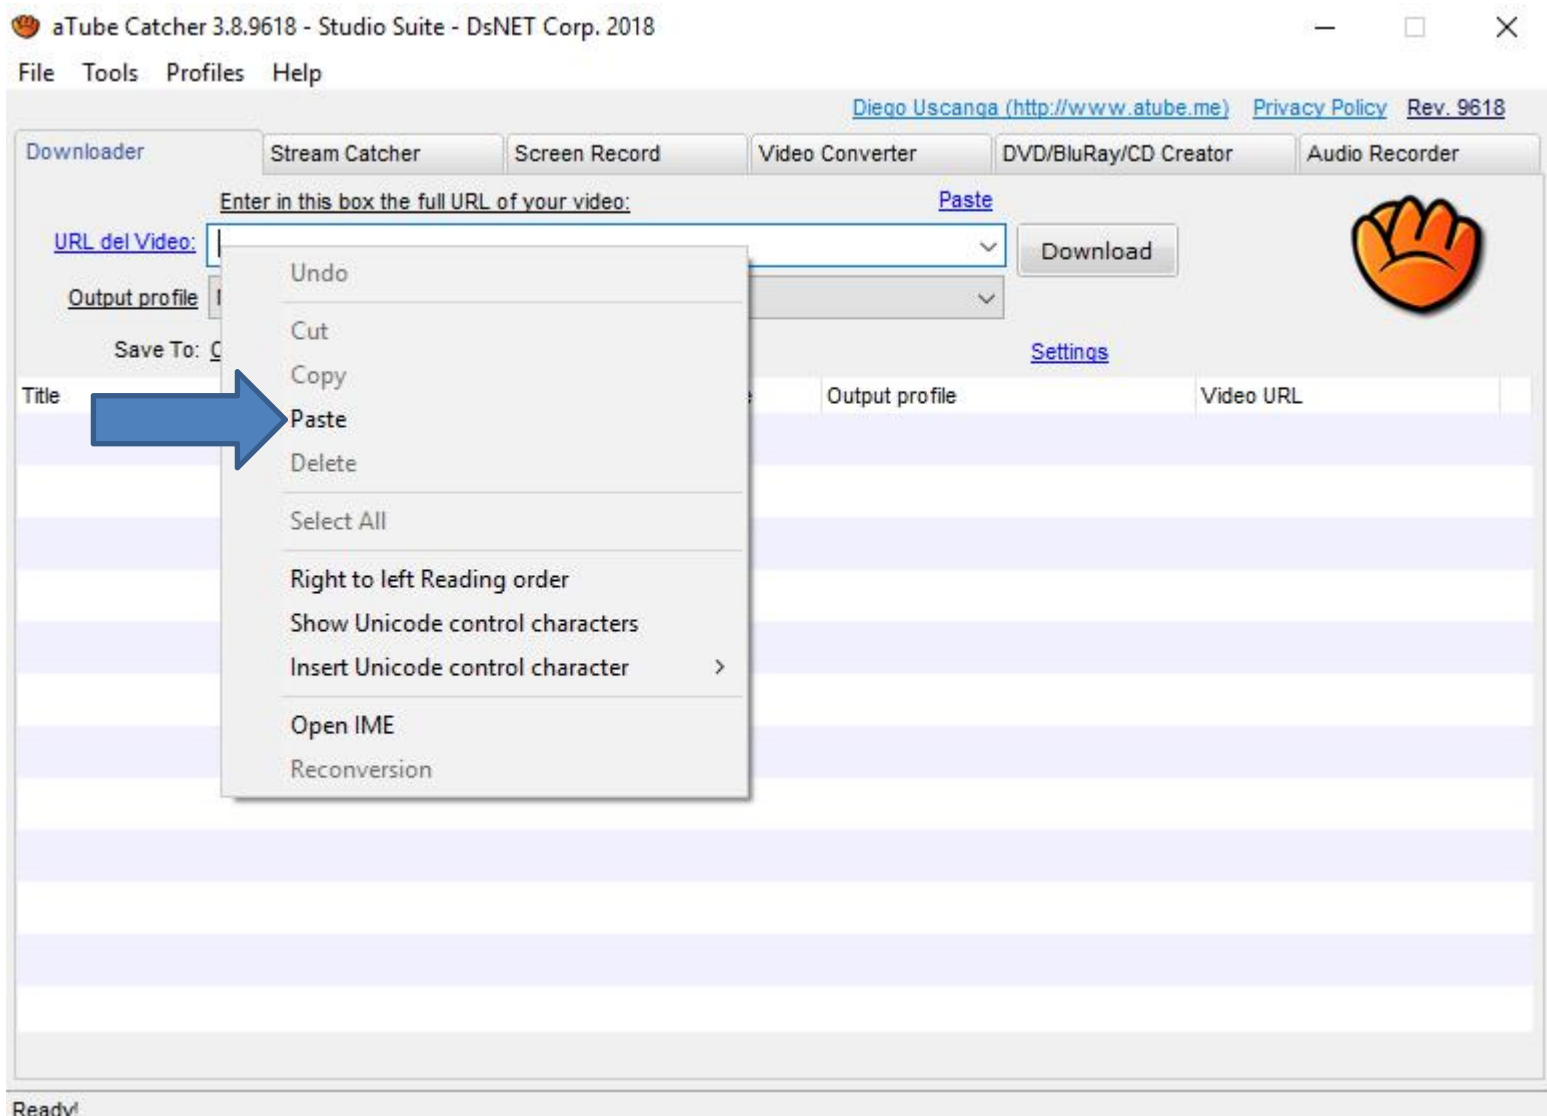

- Here is what it looks like when you open aTube Catcher. I recommend you click on Download Videos and next is what happens

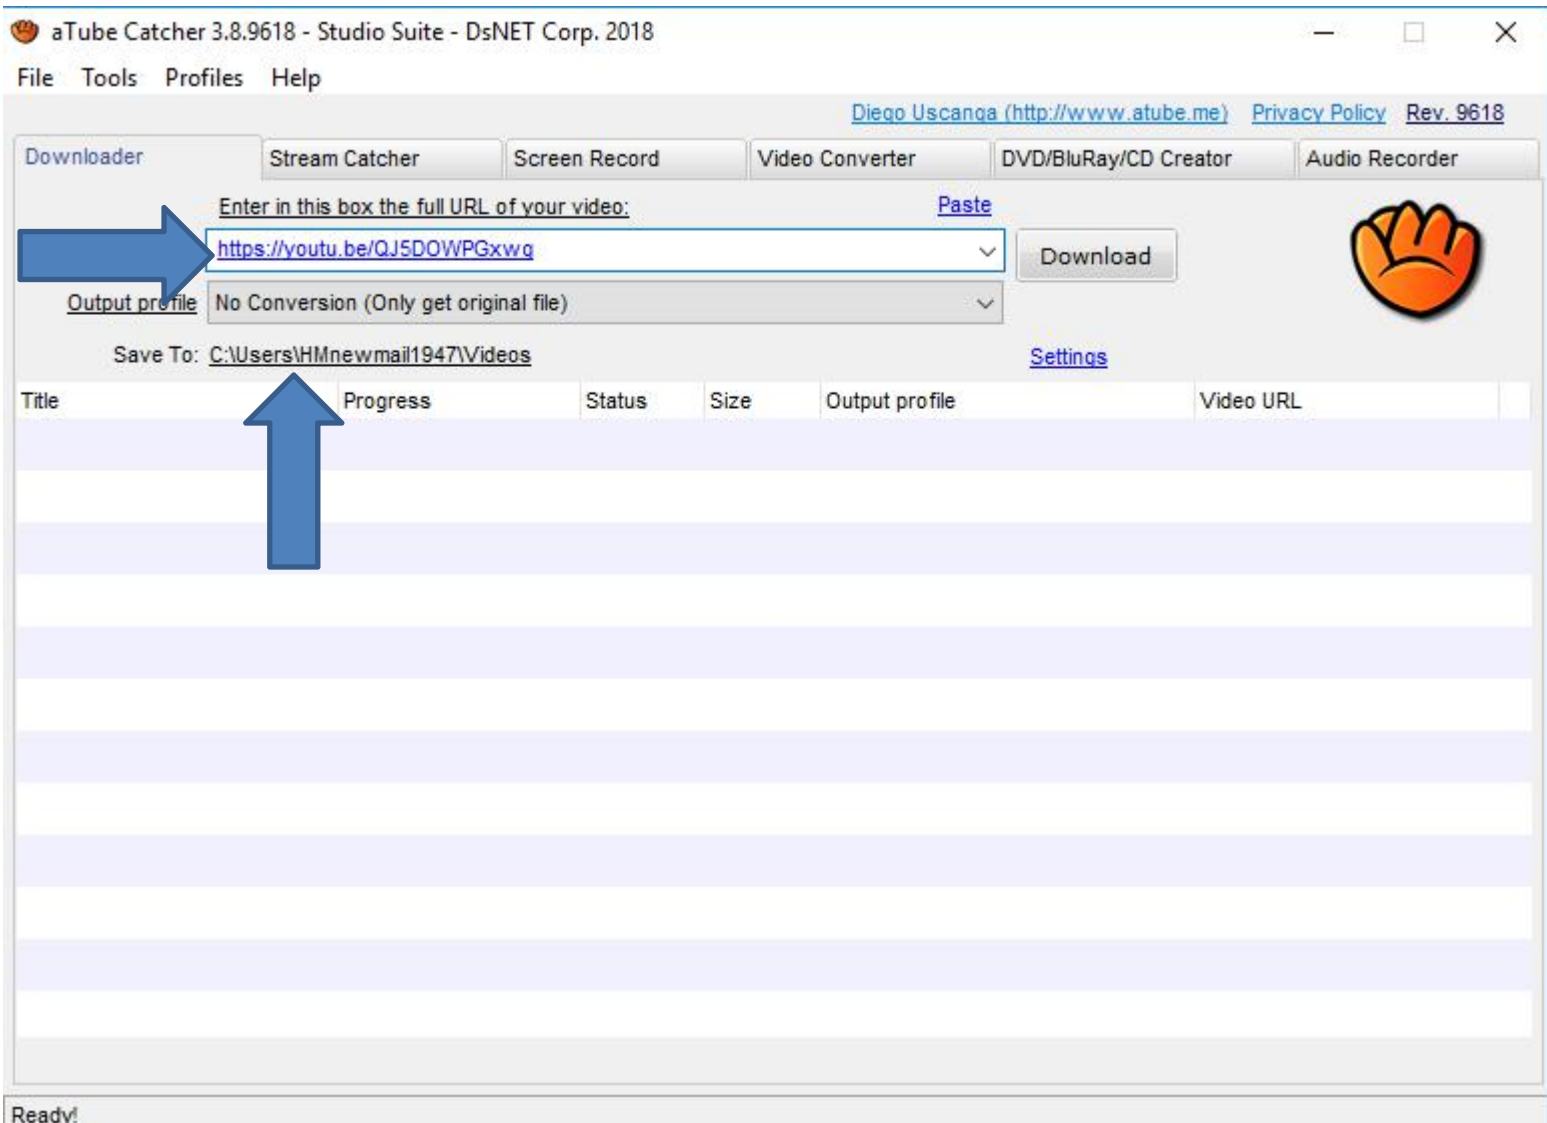

- It goes to the Downloader. I recommend you right click on the line next to URL del Video and next is what happens.

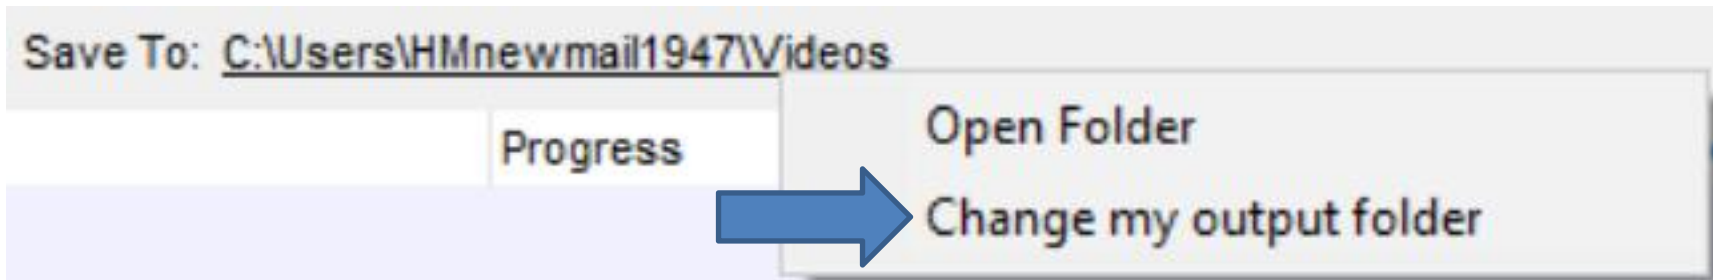

- You see a list and I recommend you click on Paste and next is what happens.

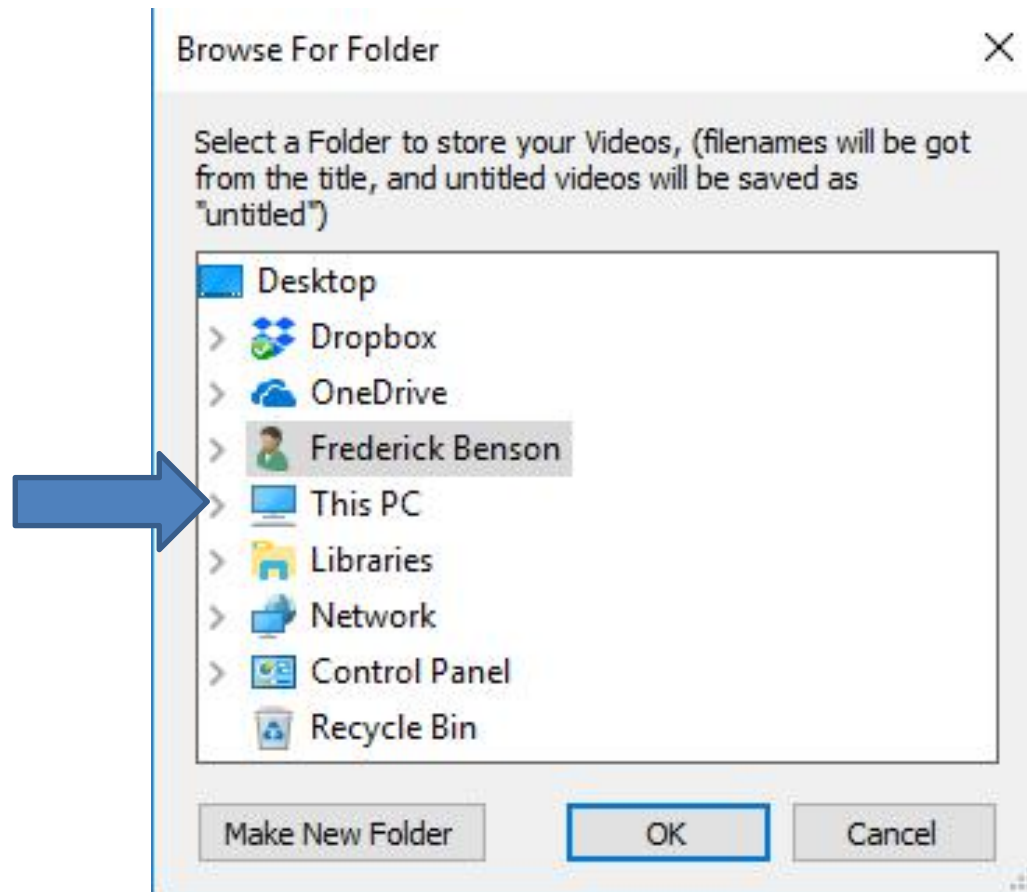

- It shows the YouTube URL. I recommend you click the line next of Save To and next is what happens.

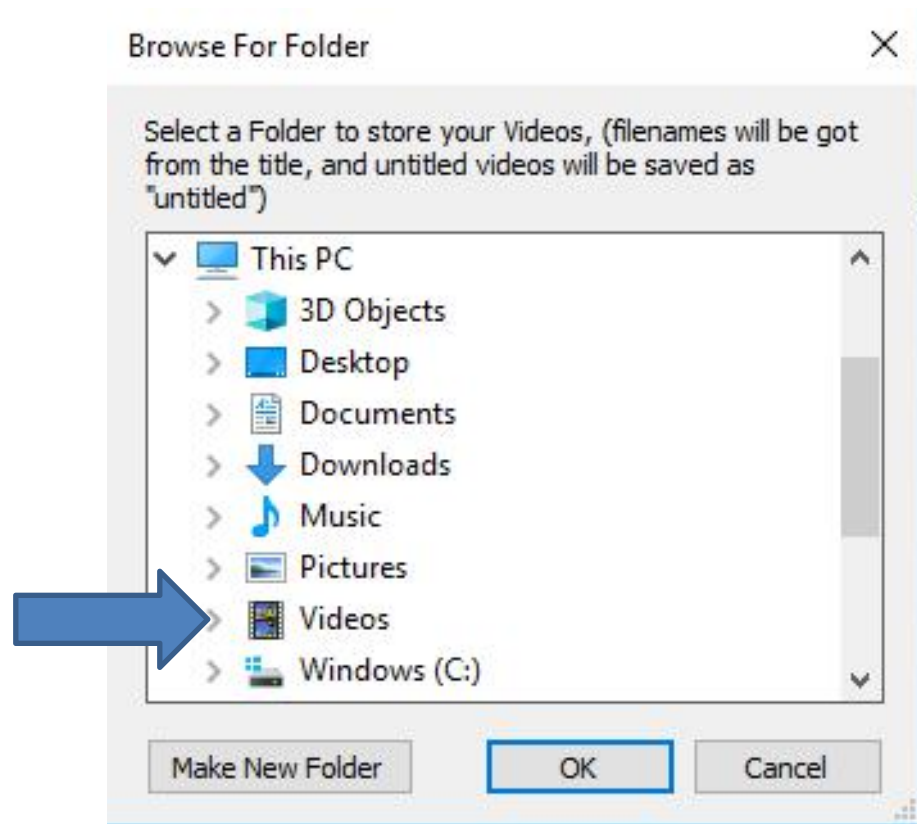

- You see a list and I recommend you click on Change my output folder and next is what happens.

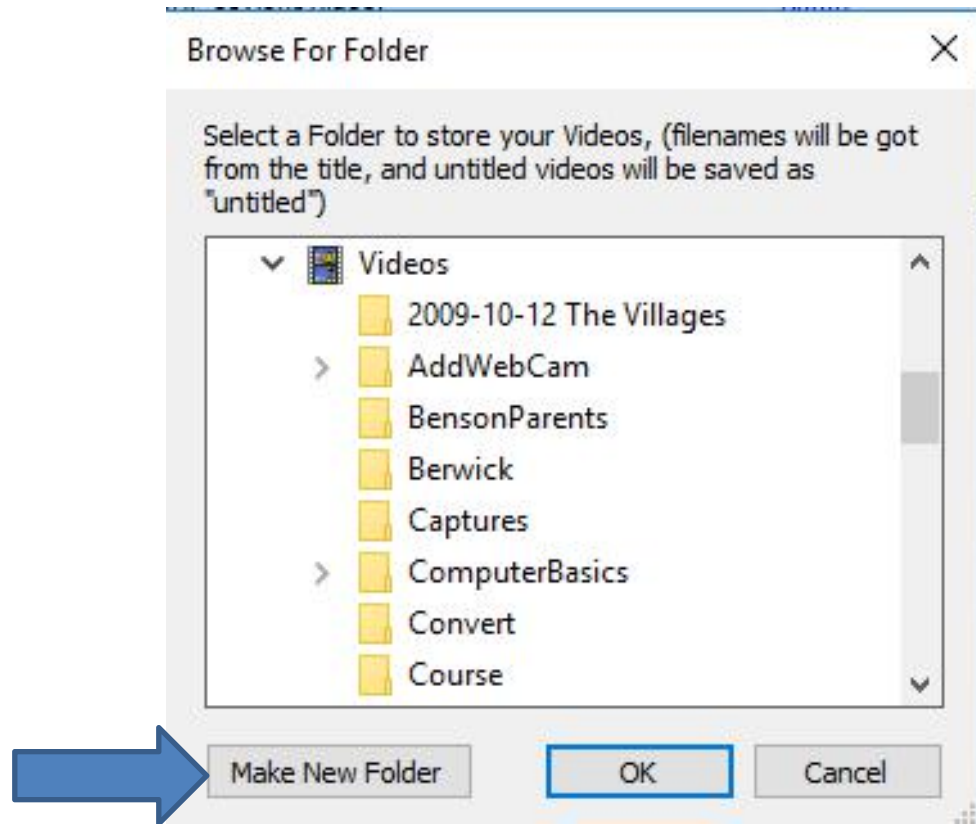

- **A new window opens and I recommend you click on This PC and next is what happens.**

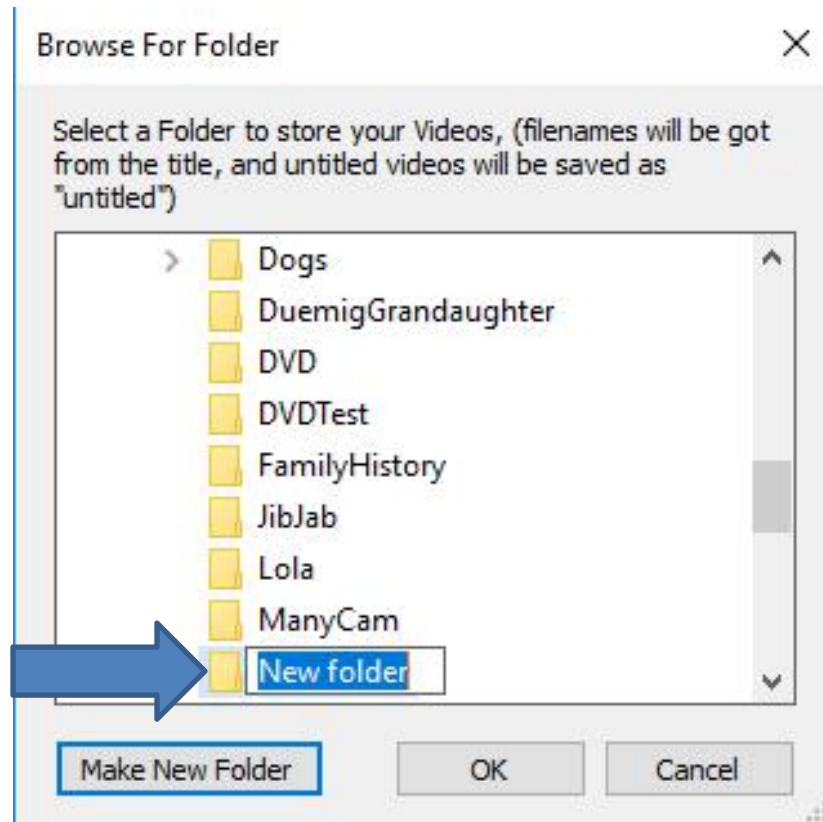

- It changes to This PC and you see a list. I recommend you click on Videos and next is what happens.

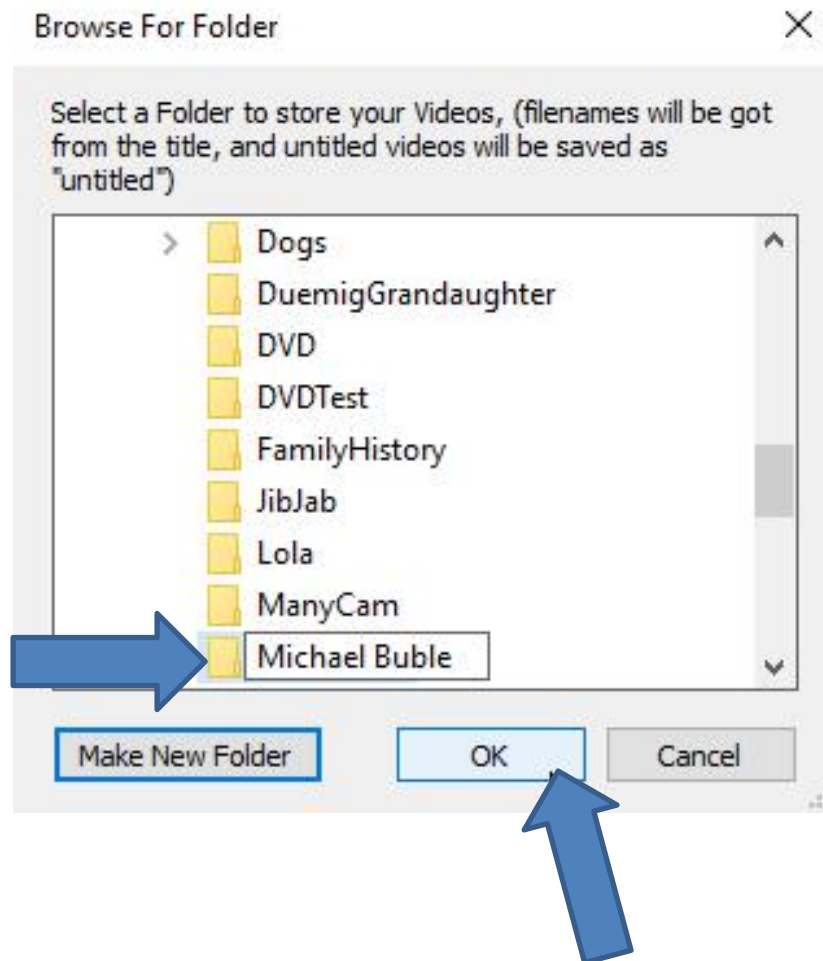

- It changes to Videos and you see a list and I recommend you click on Make New Folder and next is what happens.

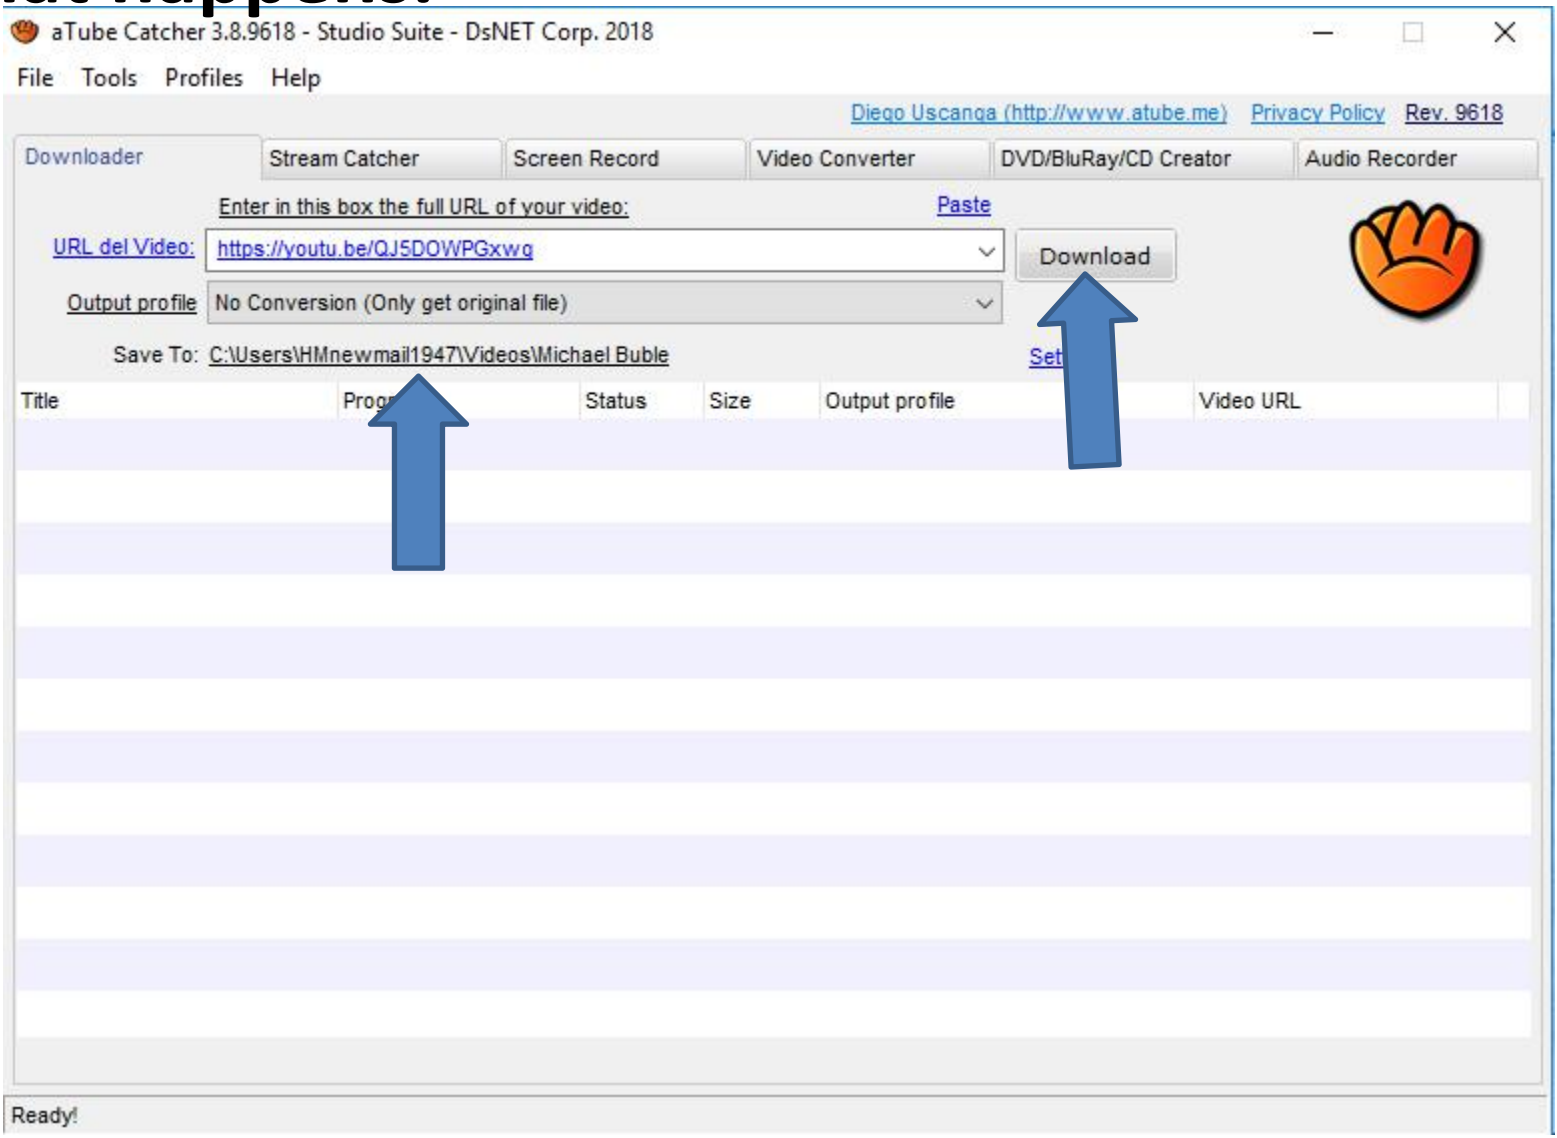

- You see New folder highlighted and then type in a name and next is a sample.

- Here is a sample of typing Michael Buble. Once complete, you click on OK and next is what happens.

- Window closes and you see the new Folder next to Save To. You then click on Download and next is what happens.

- It starts to download it. When it is finished, you see 100%. You have a lot of features at the bottom. Next explains them.

The screenshot shows the aTube Catcher 3.8.9618 interface. At the top, there are tabs for 'Downloader', 'Stream Catcher', 'Screen Record', 'Video Converter', 'DVD/BluRay/CD Creator', and 'Audio Recorder'. The 'Downloader' tab is active. Below the tabs, there is a text input field for the video URL, a 'Download' button, and a dropdown menu for the output profile. The output profile is set to 'No Conversion (Only get original file)'. Below this, there is a 'Save To' field showing the path 'C:\Users\HMnewmail1947\Videos\Michael Buble' and a 'Settings' button. A table below shows the download progress for a video titled 'Michael Bublé - It'. The progress bar is at 100% and is green. The status is 'Completed', the size is '15.82 MB', and the output profile is 'No Conversion (Only get original file)'. The video URL is 'https://youtube.com/watch?...'. At the bottom of the interface, there are six buttons: 'Delete', 'Open Folder', 'Resize', 'Burn in DVD', 'Play File', and 'Clear completed'. A large blue arrow points upwards from the 'Open Folder' button to the 100% progress bar. Another large blue arrow points downwards from the 'Open Folder' button to the 'Open Folder' button itself. The status bar at the bottom left says 'Ready!'.

| Title | Progress | Status | Size | Output profile | Video URL |
|--------------------|----------|-----------|----------|--|-------------------------------|
| Michael Bublé - It | 100% | Completed | 15.82 MB | No Conversion (Only get original file) | https://youtube.com/watch?... |

- **The first feature is Delete. I recommend you don't click on it. The second feature is Open Folder. When you click on it, it shows the Video on the Folder. The third feature is Resize. I recommend you don't click on it. The fourth feature is Burn in DVD. You first have to insert the DVD on your Computer. Once you do that and click on Burn in DVD, it is in process. I will show you that in Step 6. The fifth feature is Play File. When you click on it I will show you what happens in the 19th page. The last feature is Clear completed. Next explains it.**

When you click on Clear completed it does not show the 100% line. When you click on Play File, next is what happens.

A new window opens with the default program, called Movies & TV and it plays it. Next explains the other options.

- **If you close aTube Catcher and you want to play it again, Step 4 shows you how to play it with the other option.**
- **This is the End of Step 3 - Part 3.**
