### Step 3 - Part 4 – How to convert the Video to Music mp3 file with aTube Catcher

- The reason I convert the Video that I showed you in Step 3 - Part 3 is I want to add Music on Movie Maker.
- Next is a sample of open aTube Catcher again.

#### Here is what it looks like when you open aTube Catcher. I recommend you click on Convert videos to mp3 and next is what happens

Ready!

#### It goes to the convert the Video to Music mp3 file. I recommend you click on the line next to Save To again and next is what happens again.

 You see a list and I recommend you click on Change my output folder again and next is what happens again.

 A new window opens again and find the Folder you want. Next is a sample of finding the one I want.

 Here is a sample of finding the one I want, like Michael Buble under the Music Folder as I showed you before. You then click on it and click on OK again and next is what happens again.

#### Window closes and you see the Save To folder has changed to the one I did. Then click on Add in the upper right and next is what happens.

 A new window opens, like File Explorer and you you find the Video you want. I decided to click on Videos Folder on the left and next is what happens.

 Window changes to Videos Folder. I had to hover the line on the right and hold it down and drag it down to find the foder. Next is a sample of dragging it down.

 Here is a sample of dragging it down and you see Michael Buble folder as I showed you before. I double click on it and next is what happens.

 You see the Video that I downloaded in Step 3 -Part 3. I clicked on it and then click on Open in the bottom right and next is what happens.
