

# Step 4 – Part B - How to Edit Video on YouTube with Enhancements

- You click on Enhancements at the top to add other features and next is what happens.

The screenshot displays the YouTube Creator Studio interface. On the left is a navigation sidebar with options like DASHBOARD, VIDEO MANAGER, Videos, LIVE STREAMING, COMMUNITY, CHANNEL, ANALYTICS, TRANSLATIONS & TRANSCRIPTIONS, CREATE, and YOUR CONTRIBUTIONS. The main area shows the 'Enhancements' tab for a video titled 'Berwick Upon Tweed UK'. A blue arrow points to the 'Enhancements' tab. The video player shows a stone building. Below the player are tabs for 'Basic info', 'Translations', and 'Advanced settings'. The 'Basic info' tab is active, showing the video title, description, and tags. On the right, there is a 'VIDEO INFORMATION' section with details like Channel (wigan103), Uploaded time (March 14, 2018 at 6:38 PM), Duration (2:45), Raw file (Berwick.wmv), Views (0), Likes (0), Dislikes (0), Comments (0), and Video URL. There are also buttons for 'Set as thumbnail' and 'Custom thumbnail'.

- You see Enhancements highlighted and it starts playing the Video. When you hover over the Video you can click on Pause or change the volume. It also has a lot of features you can do on the right. Next, I will zoom in, and explain features.

- You see Quick fixes highlighted and you see options below it. You can change Fill Light, Contrast, Saturation, Color Temperature, Slow Motion or Timelapse, Trim and Rotate. Next is a sample of changing Fill Light. You have to left click on the Icon on the left and hold it down and drag it to the right.

Quick fixes   Filters   Blurring effects

Auto-fix   Stabilize

Fill Light 0   Contrast 0

Saturation 0   Color Temperature 0

Slow Motion   Timelapse

1x 2x 4x 8x   1x 2x 4x 6x

Trim   Rotate   Rotate

- Next is a sample of dragging it to the right and you see it is much Lighter. It does it on all of the Video. It also shows +5 on the right. Next is a sample of following the same process to drag the Contrast Icon to the left. Note – I dragged the Fill Light to the left to make it original, before I dragged Contrast.

Quick fixes   Filters   Blurring effects

Auto-fix   Stabilize

Fill Light   +5   Contrast   0

Saturation   Color Temperature   0

Slow Motion   Timelapse

1x   2x   4x   8x   1x   2x   4x   6x

The image shows a video editing interface with various sliders and buttons. A blue arrow points to the 'Fill Light' slider, which is set to +5. The 'Contrast' slider is set to 0. The 'Saturation' and 'Color Temperature' sliders are also visible. The 'Auto-fix' and 'Stabilize' buttons are at the top. The 'Slow Motion' and 'Timelapse' sections are at the bottom.

- Next is a sample of dragging it to the left and you see it darker. It does it on all of the Video. It also shows -5 on the right. Next is a sample of following the same process to drag the Saturation Icon to the left. I also dragged the Contrast to the middle to make it original, before I dragged Saturation.

Quick fixes   Filters   Blurring effects

Auto-fix   Stabilize

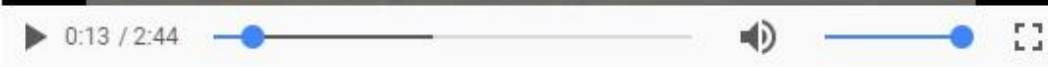

Fill Light 0   Contrast -5

Saturation 0   Color Temperature

Slow Motion   Timelapse

1x 2x 4x 8x   1x 2x 4x 6x

Trim   [Refresh]   [Undo]

- Next is a sample of dragging it to the left and you see it darker. It does it on all of the Video. It also shows -5 on the right. Next is a sample of following the same process to drag the Color Temperature Icon to the left. I also dragged the Saturation to the middle to make it original, before I dragged Color Temperature.

Quick fixes   Filters   Blurring effects

Auto-fix   Stabilize

Fill Light 0   Contrast 0

Saturation -5   Color Temperature 0

Slow Motion   Timelapse

1x 2x 4x 8x   1x 2x 4x 6x

Trim   [Refresh]   [Undo]

Detailed description: This image shows a video editing interface. At the top, there are three tabs: 'Quick fixes' (highlighted with a red underline), 'Filters', and 'Blurring effects'. Below the tabs are two main sections. The left section contains 'Auto-fix' and 'Stabilize' buttons. Below these are sliders for 'Fill Light' (set to 0), 'Saturation' (set to -5), and 'Slow Motion' (with options 1x, 2x, 4x, 8x). The right section contains sliders for 'Contrast' (set to 0), 'Color Temperature' (set to 0), and 'Timelapse' (with options 1x, 2x, 4x, 6x). Blue arrows point to the Saturation and Color Temperature sliders, indicating they have been adjusted. At the bottom, there are 'Trim', 'Refresh', and 'Undo' buttons. A video player interface is visible at the very bottom, showing a play button, a progress bar at 0:14 / 2:44, a volume icon, and a full-screen icon.

- Next is a sample of dragging it to the left and you see the color Blue. It does it on all of the Video. It also shows -5 on the right. Next is a Slow Motion and Timelapse. I also dragged the Saturation to the middle to make it original.

Quick fixes   Filters   Blurring effects

Auto-fix   Stabilize

Fill Light 0   Contrast 0

Saturation 0   Color Temperature -5

Slow Motion   Timelapse

1x 2x 4x 8x   1x 2x 4x 6x

Trim   [Refresh]   [Undo]

Detailed description: This is a screenshot of a video editing software interface. The top navigation bar includes "Quick fixes", "Filters", and "Blurring effects". Under "Quick fixes", there are buttons for "Auto-fix" and "Stabilize". Below these are sliders for "Fill Light" (set to 0) and "Contrast" (set to 0). The "Color Temperature" slider is set to -5, with a blue arrow pointing to the slider knob and another blue arrow pointing to the "-5" value on the right. Below the sliders are "Slow Motion" and "Timelapse" sections, each with buttons for 1x, 2x, 4x, and 8x (or 6x for timelapse). At the bottom, there are buttons for "Trim", a refresh icon, and an undo icon. A video player progress bar is visible at the very bottom left, showing 0:13 / 2:44.

- If you have a Slide Show Video with Pictures, like this one, you may want to use Slow Motion or Timelapse and they change the Duration on each Picture. Slow Motion changes the Durations on each Picture to more seconds. Timelapse changes the Durations on each Picture to less seconds. Next explains more about them.

Quick fixes   Filters   Blurring effects

Auto-fix   Stabilize

Fill Light 0   Contrast 0

Saturation 0   Color Temperature 0

Slow Motion   Timelapse

1x 2x 4x 8x   1x 2x 4x 6x

Trim   [Reset]   [Undo]

The image shows a software interface for video editing. It features a top navigation bar with "Quick fixes", "Filters", and "Blurring effects". Below this are two main sections: "Auto-fix" and "Stabilize". The "Auto-fix" section includes sliders for "Fill Light" and "Saturation", both set to 0. The "Stabilize" section includes sliders for "Contrast" and "Color Temperature", both set to 0. Below these are two sections for "Slow Motion" and "Timelapse". The "Slow Motion" section has buttons for "1x", "2x", "4x", and "8x". The "Timelapse" section has buttons for "1x", "2x", "4x", and "6x". At the bottom, there are buttons for "Trim", a reset icon, and an undo icon.

- **If you have a Slide Show Video with Pictures, like this one, and the Duration is 6 seconds on each Picture, you may want to use Timelapse on the second one called 2x to change seconds to about 3 seconds on each Picture. If the Duration is 2 or 3 seconds on each Picture, you may want to use Slow Motion on the second one called 2x again to change the seconds to about 6 seconds on each Picture. If you have a camera Video, etc. I recommend not using Slow Motion or Timelapse.**
- **I decided not to make changes, because I already did it on Movie Maker. But, I will show some samples.**

- As I mentioned before you can hover over the Video and click on Pause as I did so you can see the minutes on the Video. This Video is 2:44 minutes. Next is what happens when you click on the second one 2x under the Slow Motion.

▶ 0:13 / 2:44

Quick fixes   Filters   Blurring effects

Auto-fix   Stabilize

Fill Light 0   Contrast 0

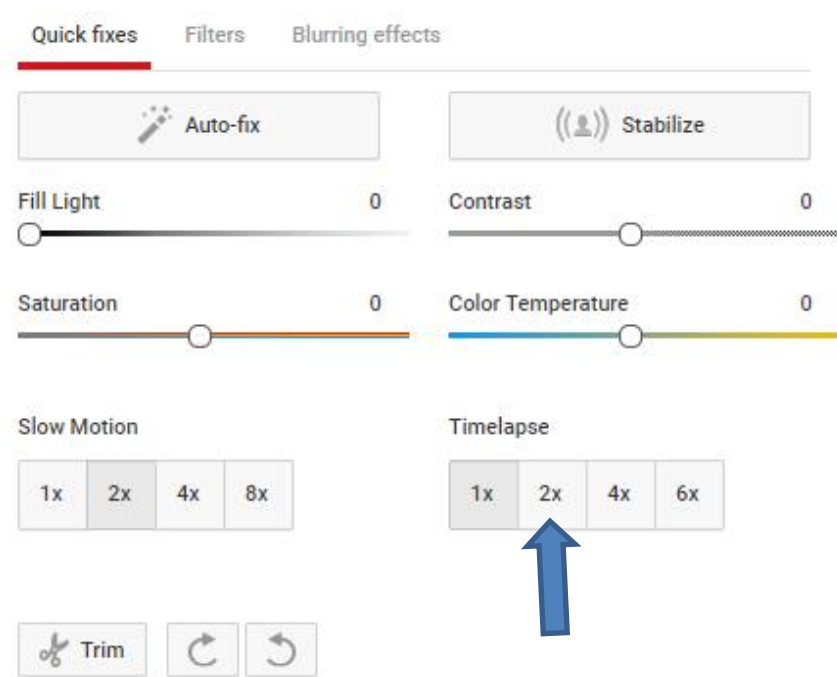

Saturation 0   Color Temperature 0

Slow Motion   Timelapse

1x 2x 4x 8x   1x 2x 4x 6x

Trim   ↺   ↻

- When you click on the second one 2x under the Slow Motion, this Video changes from 2:44 minutes to 5:28 minutes and each Picture changes from 6 seconds to 12 seconds, which is not good. I decided to click on 1x to go back to the original. Next is what happens when you click on 2x below the Timelapse.

- When you click on the second one 2x under the Timelapse, this Video changes from 2:44 minutes to 1:22 minutes and each Picture changes from 6 seconds to 2 seconds, which is not good. I decided to click on 1x to go back to the original. Next is what happens when you click on Trim at the bottom.

Quick fixes    Filters    Blurring effects

Auto-fix    Stabilize

Fill Light 0    Contrast 0

Saturation 0    Color Temperature 0

Slow Motion    Timelapse

1x 2x 4x 8x    1x 2x 4x 6x

Trim    [Refresh]    [Undo]

The image shows a video editing interface with various controls. Under the "Timelapse" section, the "2x" option is selected, indicated by a blue arrow pointing up to it. Under the "Slow Motion" section, the "2x" option is also selected, indicated by a blue arrow pointing down to it. At the bottom, there are buttons for "Trim", "Refresh", and "Undo".

- When you click on Trim, it shows the Trim at the bottom and you don't see the ones at the right under Quick fixes are not highlighted. Next, I will zoom in on the Trim area and about Trim.

Quick fixes   Filters   Blurring effects

Auto-fix   Stabilize

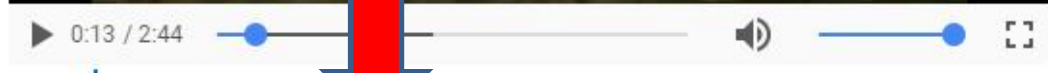

Fill Light 0   Contrast 0

Saturation 0   Color Temperature 0

Slow Motion   Timelapse

1x 2x 4x 8x   1x 2x 4x 6x

Trim   [Refresh]   [Undo]

A set of video editing controls including sliders for Fill Light, Contrast, Saturation, and Color Temperature, and buttons for Auto-fix, Stabilize, Slow Motion, and Timelapse.

Split   Clear   Done

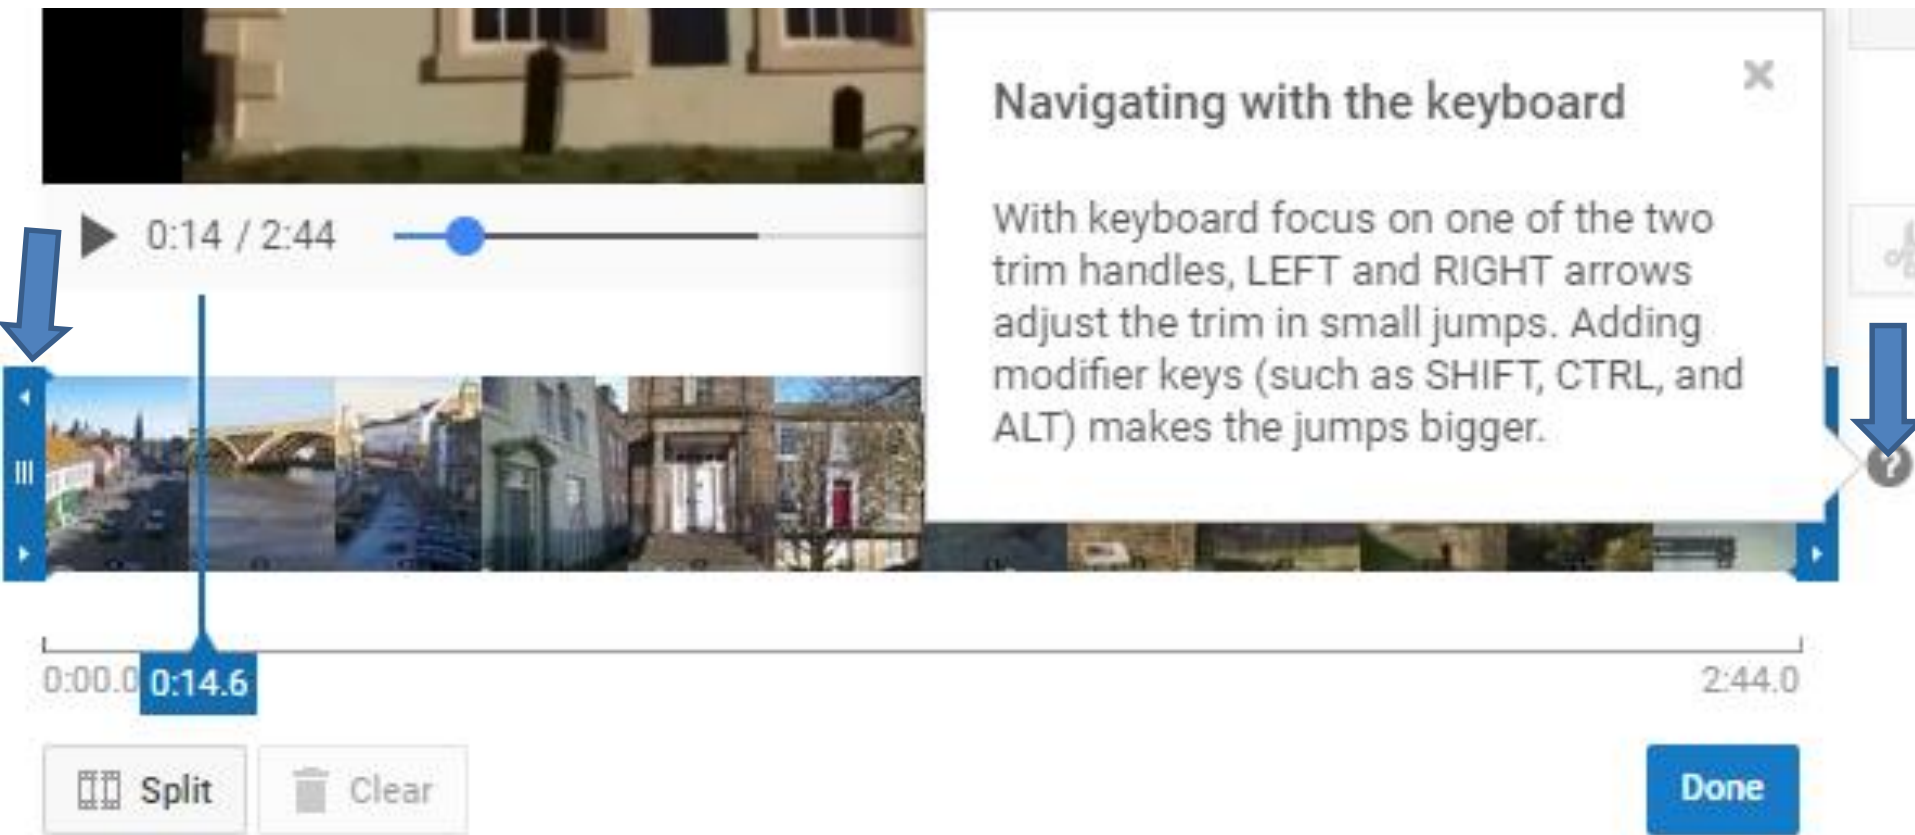

Buttons for Split, Clear, and Done.

- **Trim allows to remove part of the Video in the beginning and at the end. It doesn't allow to remove part in the middle, like Movie Maker does. Next is what happens when you click on the  Icon on the right.**

- When you click on the  icon on the right, a new window opens and explains Navigating with the keyboard. Next is a sample of left click and hold down and drag the one on the left to a little to the right.

The screenshot shows a video player interface. At the top, a video frame displays a house. Below it is a progress bar showing 0:14 / 2:44. A blue arrow points to the left side of the video player, which contains a list of video thumbnails. Another blue arrow points to a question mark icon in the bottom right corner of the video player. A help window titled "Navigating with the keyboard" is open on the right side of the video player. The window contains the following text: "With keyboard focus on one of the two trim handles, LEFT and RIGHT arrows adjust the trim in small jumps. Adding modifier keys (such as SHIFT, CTRL, and ALT) makes the jumps bigger." At the bottom of the video player, there is a timeline with markers at 0:00.0, 0:14.6, and 2:44.0. Below the timeline are buttons for "Split" and "Clear", and a "Done" button.

**Navigating with the keyboard**

With keyboard focus on one of the two trim handles, LEFT and RIGHT arrows adjust the trim in small jumps. Adding modifier keys (such as SHIFT, CTRL, and ALT) makes the jumps bigger.

0:00.0 0:14.6 2:44.0

Split Clear Done

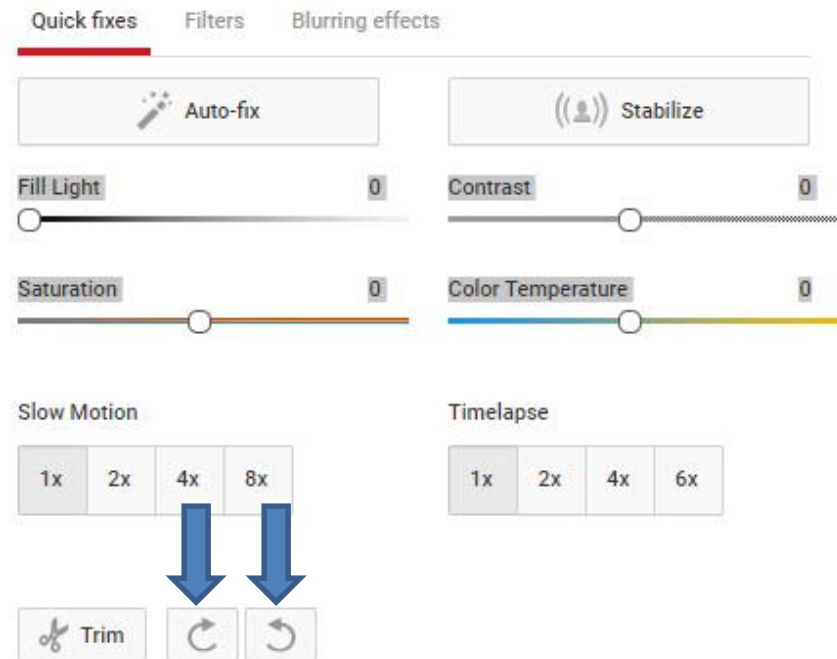

- Here is a sample of dragging the one on the left to a little to the right and you see 0:12.8
- Next is a sample of dragging the one on the right to the left.

- Here is a sample of dragging the one on the right to the left and you see the end is 2:36.5 vs. 2:44.
- Once complete and you want the Trim, click on Done at the bottom of the right. If you don't like the Trim, you can click on Clear at the bottom of the left and it goes back to original and then click on Done to close the Trim at the bottom. Next is what happens.

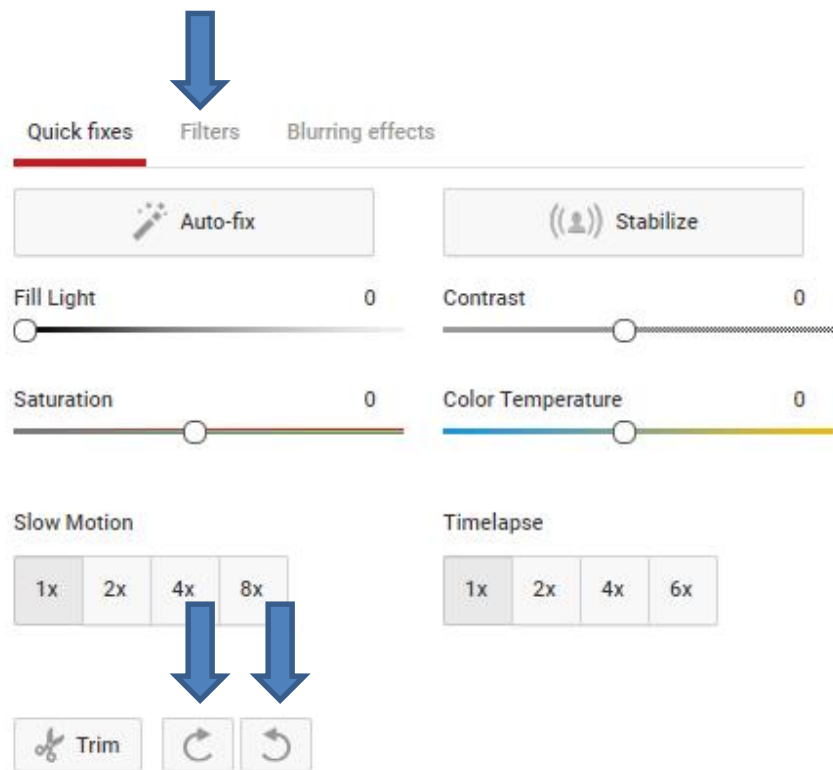

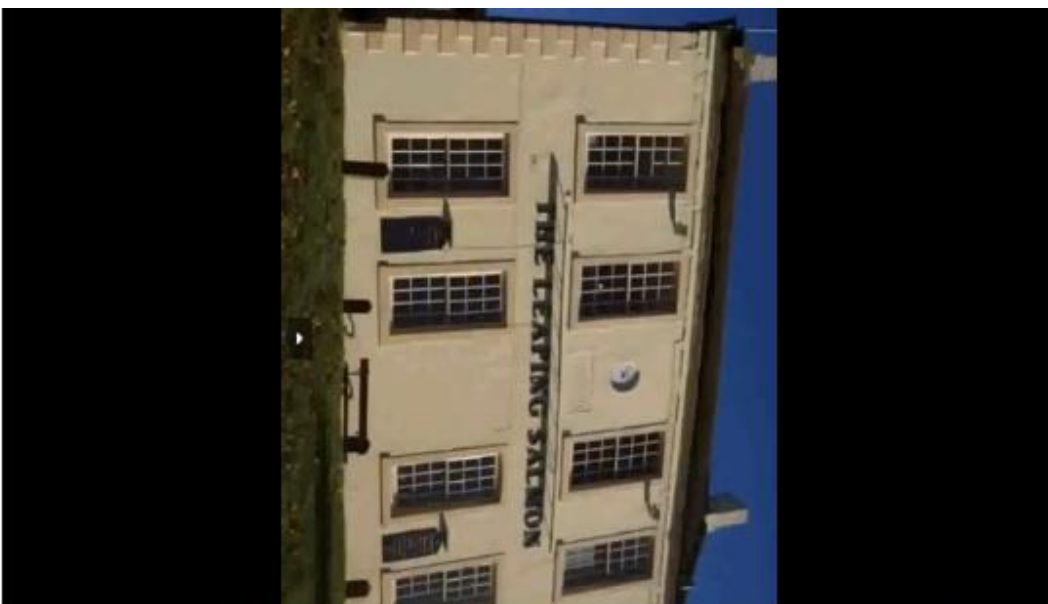

- When you click on Done the Trim closes and you see the ones highlighted under Quick fixes again. Right of Trim at the bottom are Rotate Icons. The first one Rotates the full Video to the right. The second one Rotates the full Video to the left. Next is a sample of clicking on the first one.

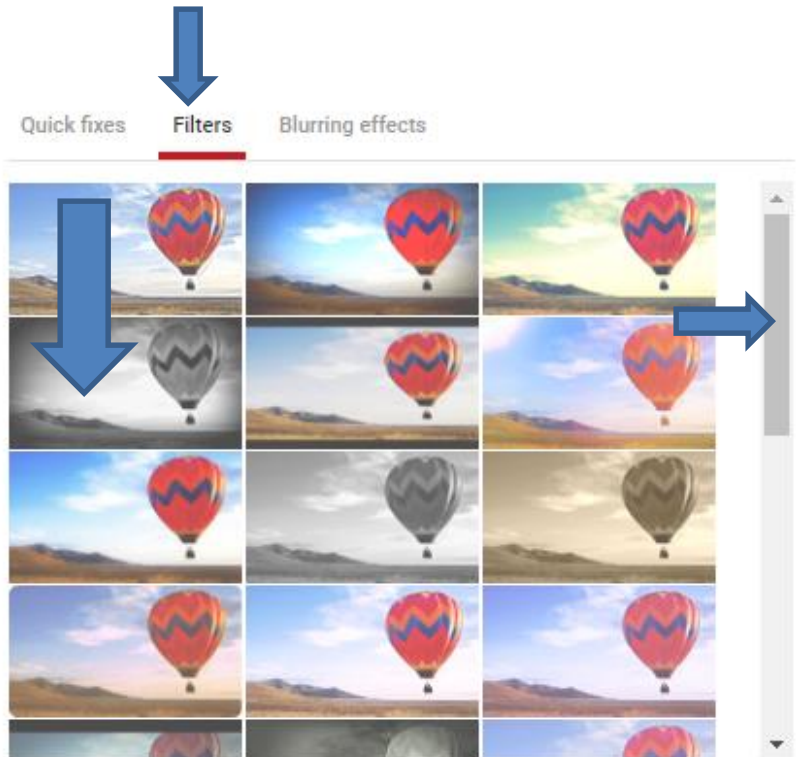

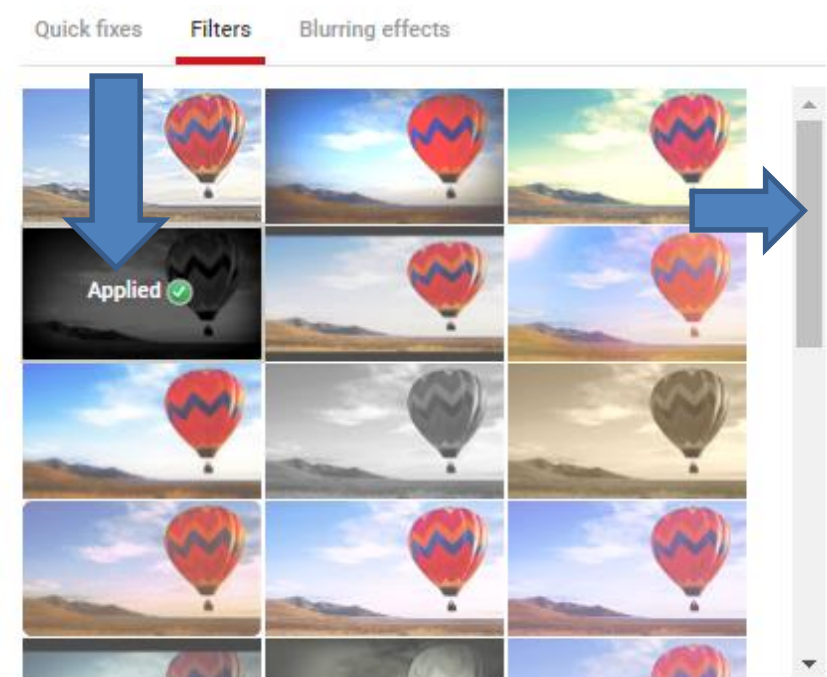

- Here is a sample of clicking on the first one. I didn't like it, so I clicked on the second one to Rotate back to the original.
- Next is what happens when you click on Filters next to Quick fixes.

- Here is a sample of clicking on Filters and you see a lot of Filters options. You can scroll down to see all of them.
- Next is a sample of clicking on one.

- Next is a sample of clicking on one and you see it is Applied and the color is different on all of the Video. Next is a sample of scrolling down.

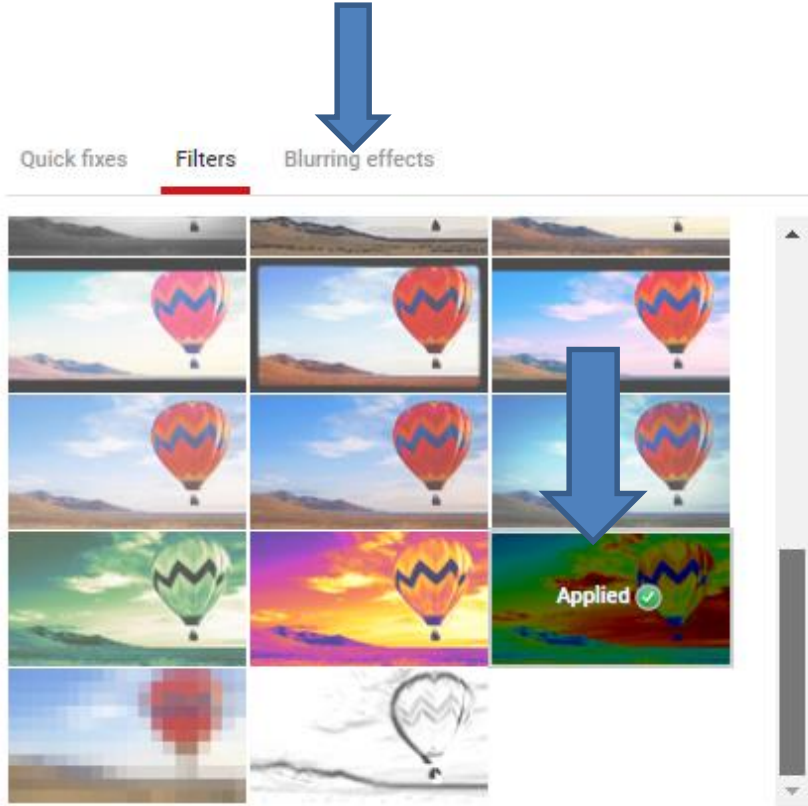

- Here is a sample of scrolling down. Next is a sample of clicking on another one.

- Here is a sample of clicking on another one. I don't like any of the Filters. I decided to click on it again and it goes back to original. Next is what happens when you click on Blurring Effects right of Filters.

- Here is a sample of clicking on Blurring Effects and you see it highlighted and you have 2 options. I tried them and it was not good for me.
- Next is what you have to do before you click on Audio.

Quick fixes Filters **Blurring effects**

### Blur faces

Blur faces of people who appear in your video.

Edit

### Custom blurring

Choose areas to blur and track in your video.

Edit

It's possible that certain objects or frames won't be blurred. You can preview your changes and modify the blurred regions. Keep your video private if you aren't happy with the preview.

- If you made changes that you want, you have to click on Save or Save as new video before you click on Audio. Next is what happens when you click on Save as new video.

The screenshot displays the YouTube video editor interface. At the top, a navigation bar includes tabs for 'Info & Settings', 'Enhancements', 'Audio', 'End screen & Annotations', 'Cards', and 'Subtitles/CC'. The 'Audio' tab is currently selected, indicated by a blue arrow pointing to it. Below the navigation bar, the video title 'Berwick Upon Tweed UK' is visible. To the right of the title are three buttons: 'Revert to original', 'Save as new video', and 'Save'. The 'Save as new video' and 'Save' buttons are highlighted with blue arrows. The main video player shows a bridge over a river. On the right side, there are various editing controls under the 'Quick fixes' tab, including 'Auto-fix', 'Stabilize', 'Fill Light', 'Contrast', 'Saturation', and 'Color Temperature'. Below these are 'Slow Motion' and 'Timelapse' options with speed selection buttons (1x, 2x, 4x, 8x). At the bottom, there are 'Trim', 'Reset', and 'Undo' buttons.

- Page changes to CREATOR STUDIO page and you see a new Video in process.
- Next is what happens when it is complete.

The screenshot displays the YouTube Creator Studio interface. On the left is a navigation sidebar with the following items: CREATOR STUDIO, DASHBOARD, VIDEO MANAGER (highlighted in red), Videos (highlighted in red), Playlists, LIVE STREAMING, COMMUNITY, CHANNEL, ANALYTICS, TRANSLATIONS & TRANSCRIPTIONS, CREATE, YOUR CONTRIBUTIONS, and a Help and feedback button. At the bottom of the sidebar is a blue button for YOUTUBE STUDIO BETA. The main content area is titled 'Videos' with a count of 3. It features a search bar for videos and a 'View: Newest' dropdown. Below this is a table of video entries:

<input type="checkbox"/>	Actions	Add to			View: Newest
<input type="checkbox"/>			 2:21	<b>Copy of Berwick Upon Tweed UK</b> Preparing upload.	<a href="#">Link</a> 0 views 0 likes 0 comments
<input type="checkbox"/>			 2:45	<b>Berwick Upon Tweed UK</b> Mar 14, 2018 6:38 PM	<a href="#">Link</a> 0 views 0 likes 0 comments
<input type="checkbox"/>			 0:21	<b>Quick Tip - How to Find Version of Windows Live Photo Gallery</b> [HD] Oct 8, 2011 4:15 PM	<a href="#">Link</a> 49 views 0 likes 0 comments

- **When it is complete and you like a new one, you can click on Edit again next is what happens again.**

The screenshot displays the YouTube Creator Studio interface. On the left is a navigation sidebar with options: CREATOR STUDIO, DASHBOARD, VIDEO MANAGER, Videos (highlighted), Playlists, LIVE STREAMING, COMMUNITY, CHANNEL, ANALYTICS, and TRANSLATIONS & TRANSCRIPTIONS. The main content area is titled 'Videos' and shows a list of three videos. The first video, '... of Berwick Upon Tweed UK', has a duration of 2:22 and was uploaded on Mar 17, 2018 at 10:17 AM. A blue arrow points to the 'Edit' button for this video. The 'Edit' dropdown menu is open, listing the following options: Info & Settings, Enhancements, Audio, End screen & Annotations, Cards, Subtitles/CC, Download MP4, Promote, and Delete. The second video in the list is 'Windows Live Photo Gallery' with a duration of 2:45. The third video has a duration of 0:21 and 49 views. The interface also includes a search bar at the top, a search bar for videos, and a 'View: Newest' dropdown menu.

- Page changes to Info & Settings again and you can change the name again as I showed you in Part A. Part C shows you Audio.
- This is the End of Part B.

The screenshot shows the YouTube Studio interface. On the left is the 'CREATOR STUDIO' sidebar with options like DASHBOARD, VIDEO MANAGER, Videos, LIVE STREAMING, COMMUNITY, CHANNEL, ANALYTICS, TRANSLATIONS & TRANSCRIPTIONS, CREATE, and YOUR CONTRIBUTIONS. The main area is the 'Info & Settings' page for a video titled 'Copy of Berwick Upon Tweed UK'. The video thumbnail shows a large stone building. The 'Basic info' tab is active, showing the video title in a text box, a description, and a tags box. The video is currently set to 'Unlisted'. A blue arrow points from the 'Info & Settings' tab in the top navigation bar to the title text box. Another blue arrow points from the 'CREATE' option in the sidebar to the 'Info & Settings' page.
