

Step 4 – Part C - How to add Music on your Video on YouTube

- Audio allows you to add Music on your Video from YouTube.**
- If you have Music on your Video that you like, you don't have to add Music using the Audio page.**
- If you don't have Music on your Video or Music on your Video you don't like, you can use the Audio page to add other Music.**
- The Audio page shows Music and you also search to find other Music. I tried to search for a Berwick Upon Tweed and it did not show Music. I tried to search for England and it showed just one Music.**
- Next is more about Music.**

- **Sometimes when you search with different one, like Venice vs. England it shows more Music.**
- **YouTube only allows you to add one Music. Movie Maker allows you to add other Music.**
- **Next is how to get to the Audio page.**

- You click on Audio right of Enhancements and next is what happens. Note – I changed the name of the new Video and clicked on Save.

The screenshot displays the YouTube Studio interface. On the left is the 'CREATOR STUDIO' sidebar with options like DASHBOARD, VIDEO MANAGER, Videos, LIVE STREAMING, COMMUNITY, CHANNEL, ANALYTICS, TRANSLATIONS & TRANSCRIPTIONS, CREATE, and YOUR CONTRIBUTIONS. The main area shows the 'Enhancements' tab selected, with the 'Audio' sub-tab highlighted by a blue arrow. The video being edited is 'Berwick Upon Tweed UK Video'. Below the video player, the 'Basic info' tab is active, showing the video title, description, tags, and privacy settings. The 'Video Information' panel on the right provides details such as channel name, upload time, duration, and view/like/comment counts. At the bottom, a status bar indicates 'All changes saved.' and provides 'Cancel' and 'Save changes' buttons.

- You see a list of Music on the right and at the bottom there is a Search and you can type in to find other Music, which is next.
