## Use & manage donation cards

You can add a donation card to your video if you're based in the United States.

You can raise funds and awareness about causes close to your heart using YouTube's donation cards. Just add a donation card to your video and viewers will be able to make a donation directly to the U.S. nonprofit organization.

We're partnering with Network for Good, a U.S. nonprofit donor-advised fund. Google covers the incurred processing fees, so all proceeds will go to the organization. [Learn how your viewers donate using donation cards.](#)
