

Step 8 - Part C – Auto Collage

- **Note – Collage is only available on Version 2012.**

- **Follow same process to select the photos.**
Like click on first one and then press and hold Ctrl key and click on the next photos.
- **Note – minimum is 7**

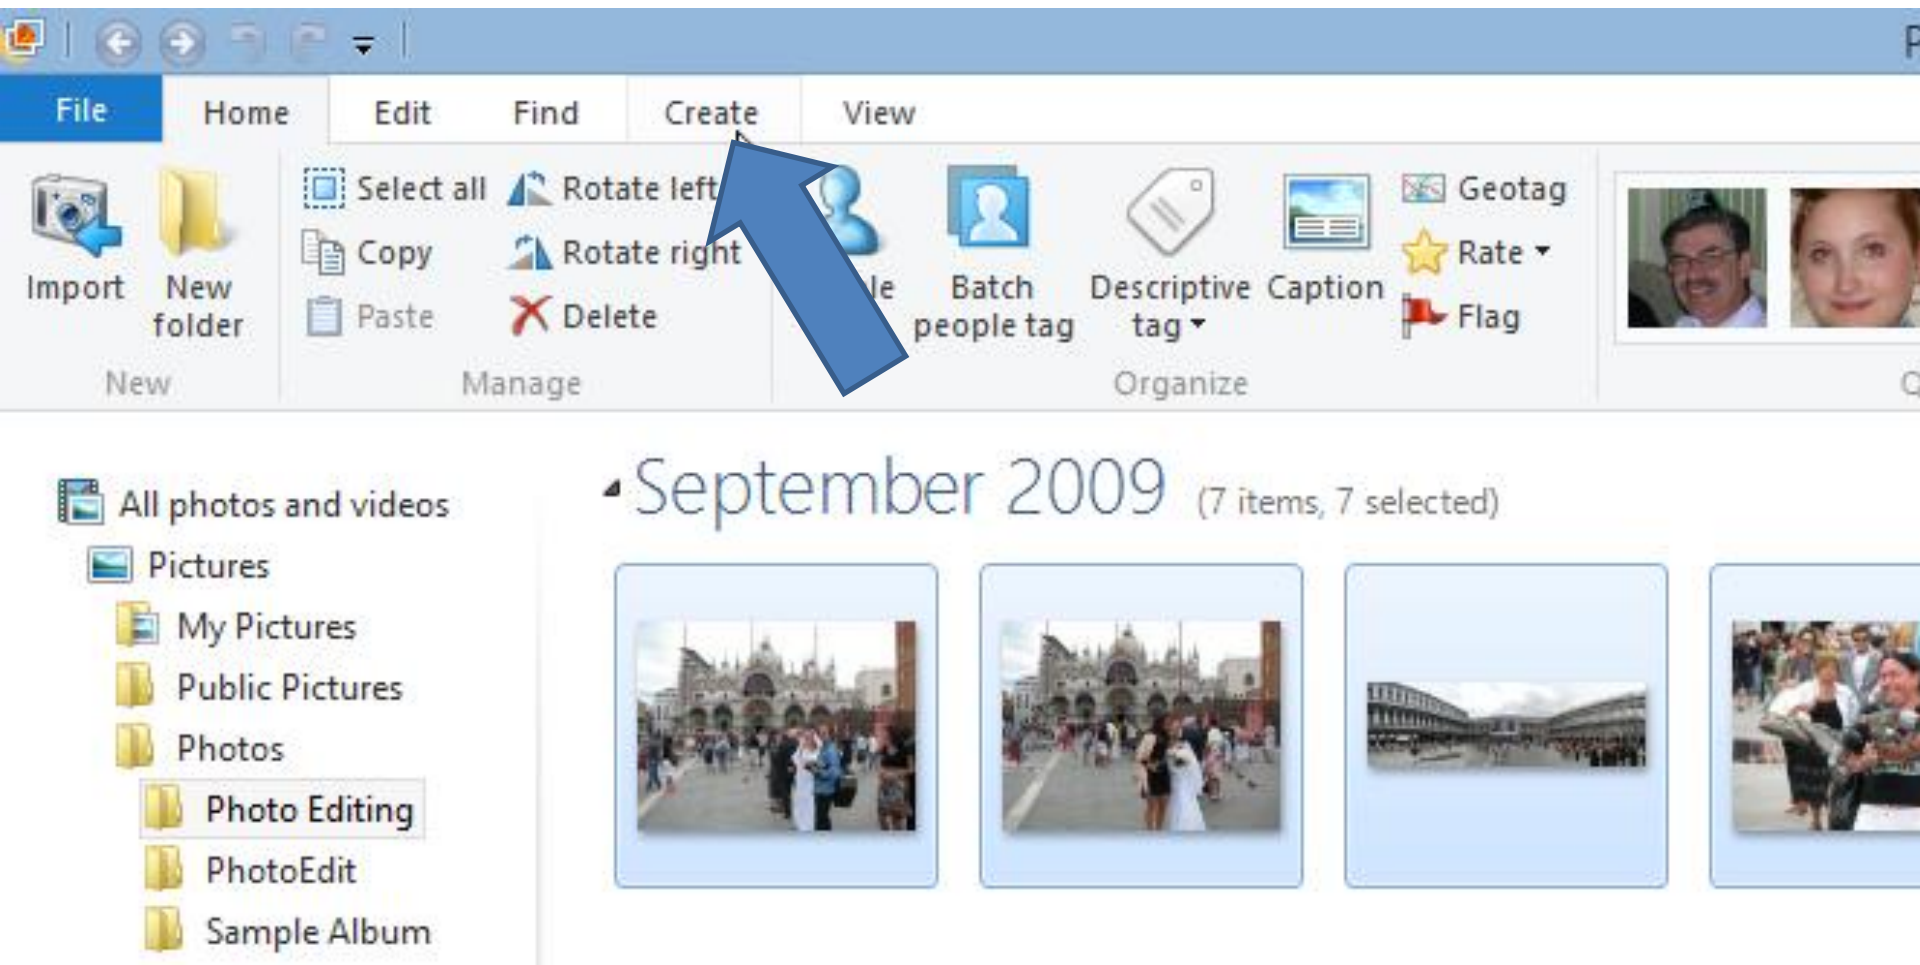

The screenshot shows the Windows Photo Gallery application window. The title bar reads "Photo Gallery". The ribbon menu includes "File", "Home", "Edit", "Find", "Create", and "View". The "Home" tab is active, showing various actions like "Import", "New folder", "Select all", "Copy", "Paste", "Rotate left", "Rotate right", "Delete", "People tag", "Batch people tag", "Descriptive tag", "Caption", "Geotag", "Rate", "Flag", "Months", "Rated", "Flagged", "Text search", "Slide show", "Share" (with social media icons for OneDrive, Facebook, YouTube, and Twitter), "Photo email", and "Sign in".

The main area displays a gallery of photos organized by date. The selected date is "September 2009" (7 items, 1 selected). The gallery shows a row of seven photos. The first photo is selected, indicated by a blue border. A larger preview of the selected photo is shown in the bottom right corner. Below the main gallery, there are sections for "December 2006" (2 items) and "August 2006" (2 items), each with two photo thumbnails.

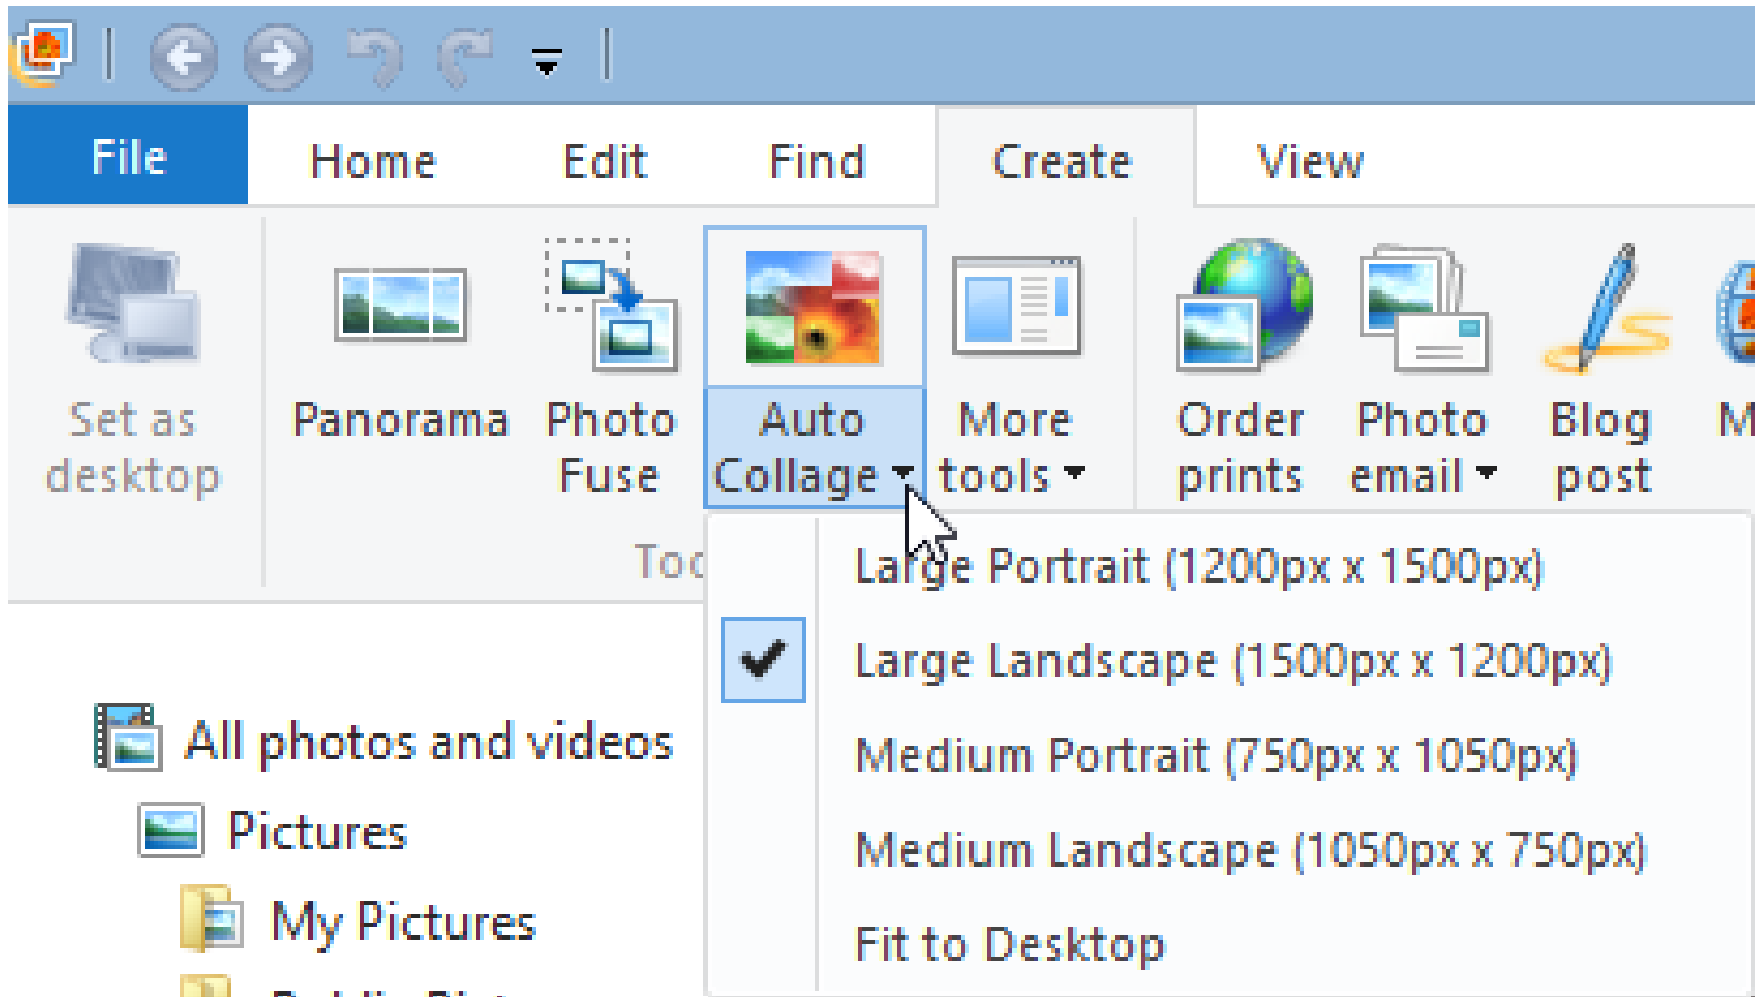

On the left side, there is a navigation pane with the following items:

- All photos and videos
- Pictures
 - My Pictures
 - Public Pictures
 - Photos
 - Photo Editing
 - PhotoEdit
 - Sample Album
- Videos
 - My Videos
 - Public Videos

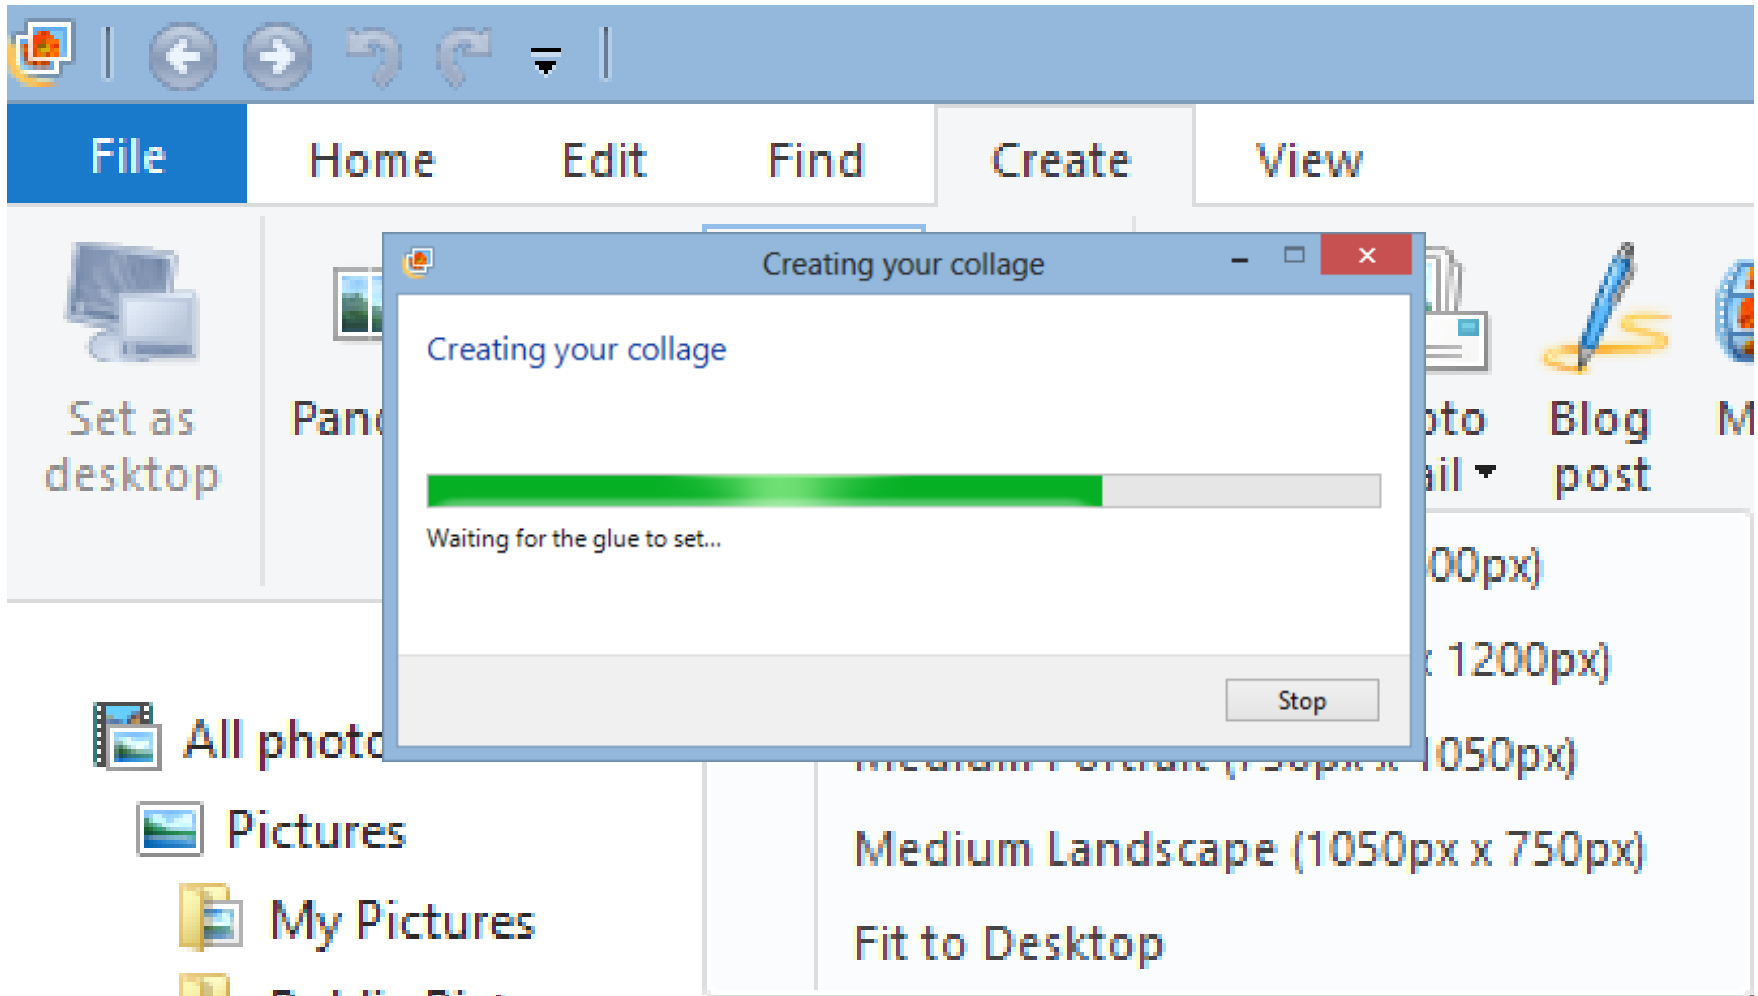

Once selected, click on Create Tab

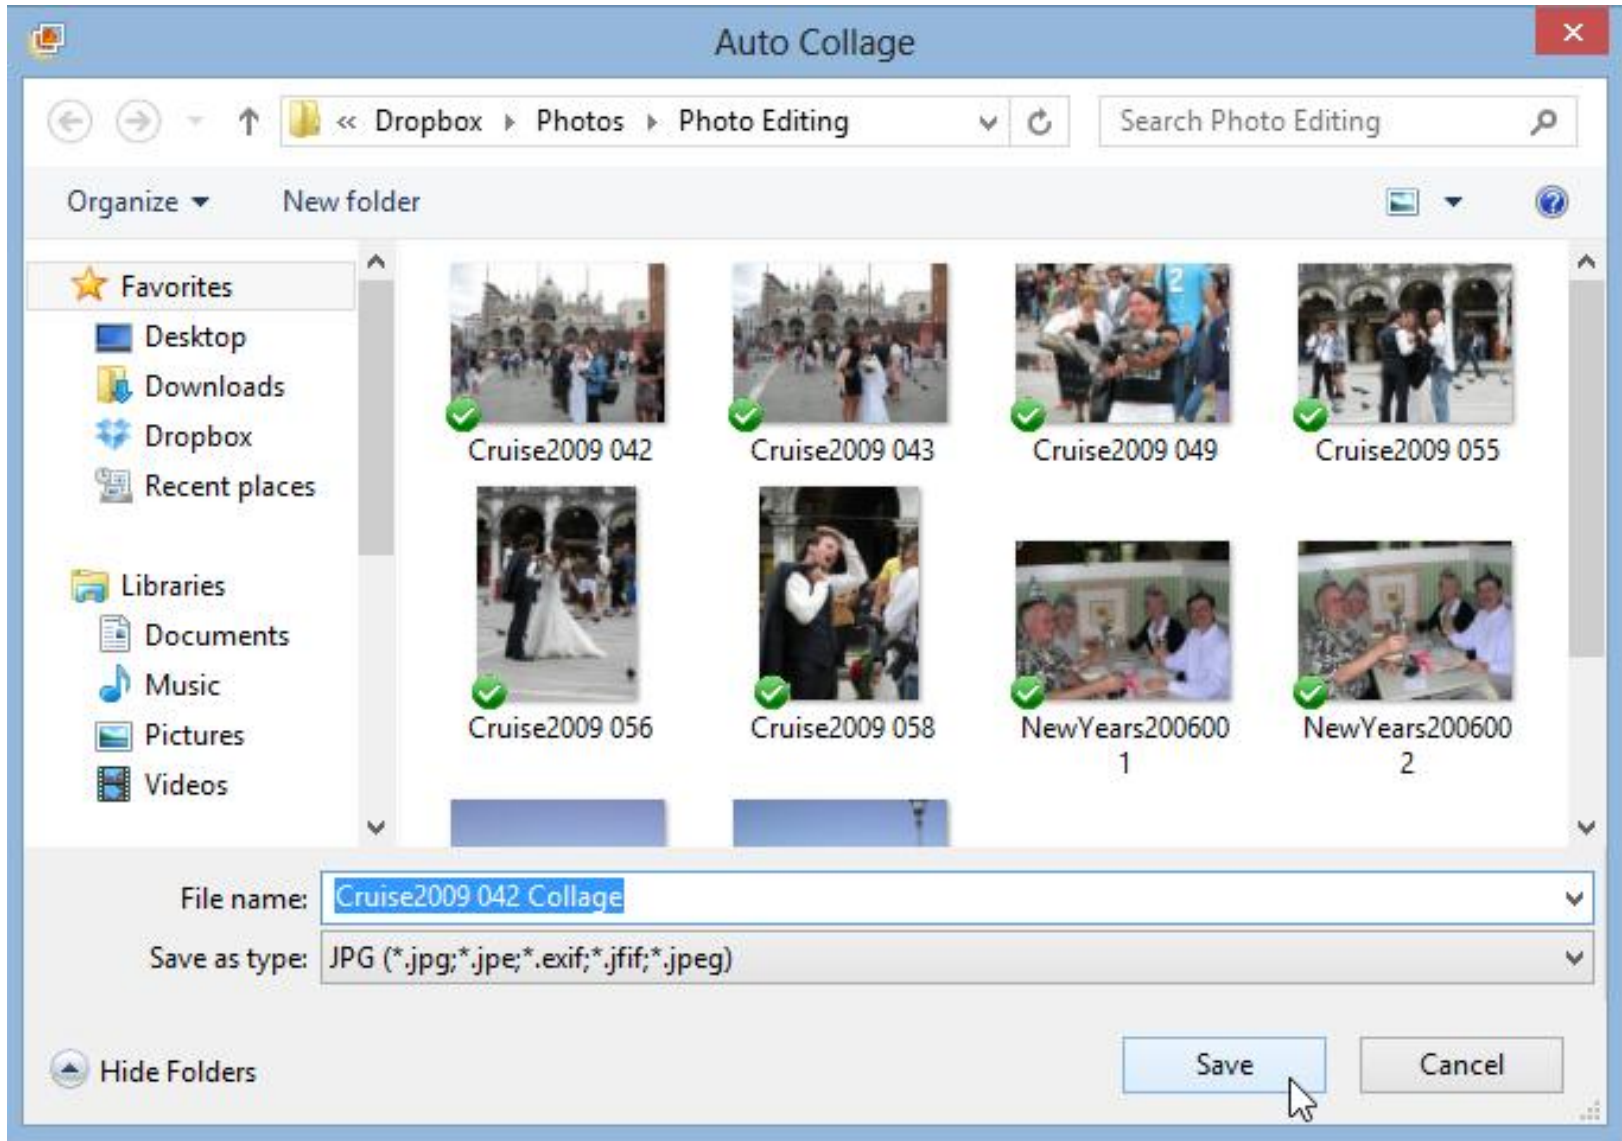

Then click on Auto Collage

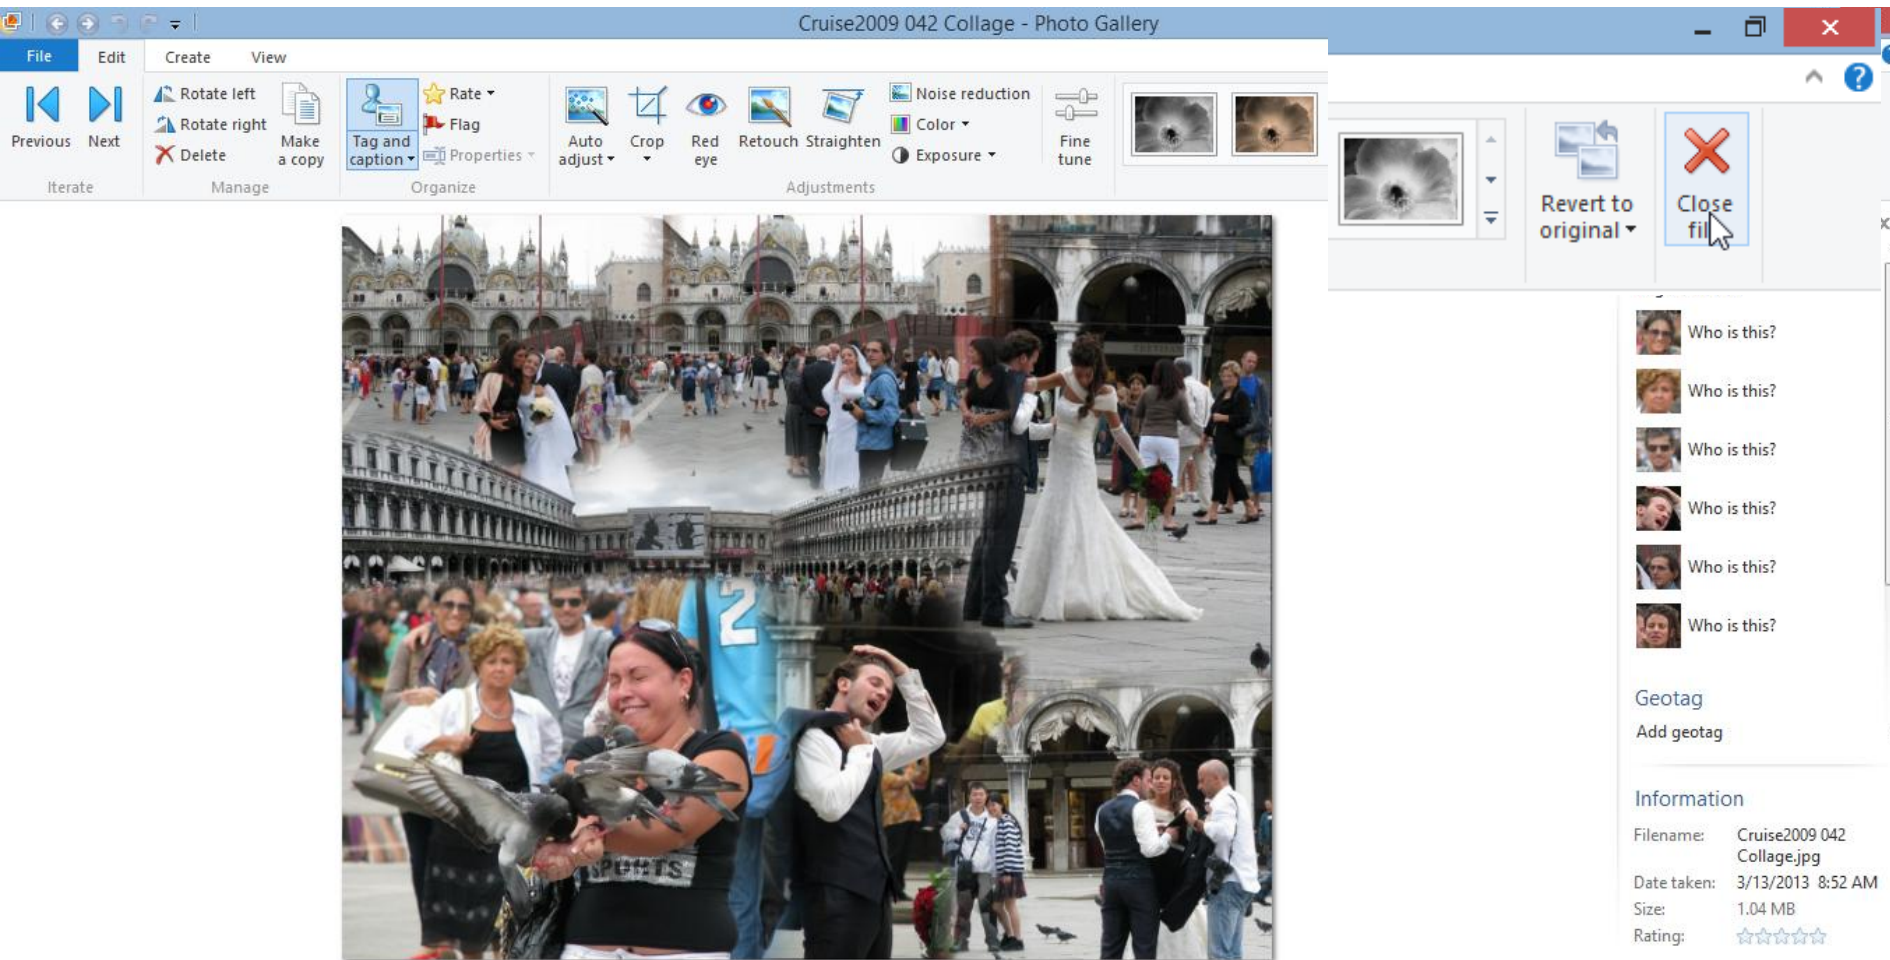

You then see it is Creating your collage

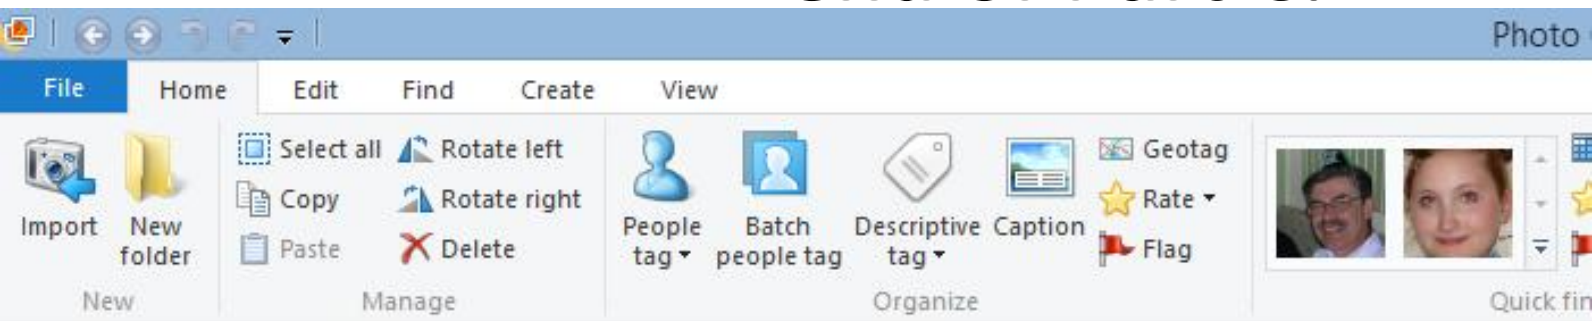

Once complete, Windows Explorer opens. You can change name, then click on Save

It then shows the results and click on Close file in upper right.

It then returns to Home tab. This is the end of Part C.
