

Step 8 – Part D - Add Pictures/Videos to Movie Maker with Photo Gallery

- **First option is to Add Photos to Movie Maker from a Slide show.**
- **Second option is to select photos or videos.**
- **Third option is just to do it on Movie Maker, which I show you when I teach Movie Maker at The Lifelong Learning College.**
- **Next is first option**

- **First I will show you how to play a Slide Show which is also on Step 5 – Part C.**

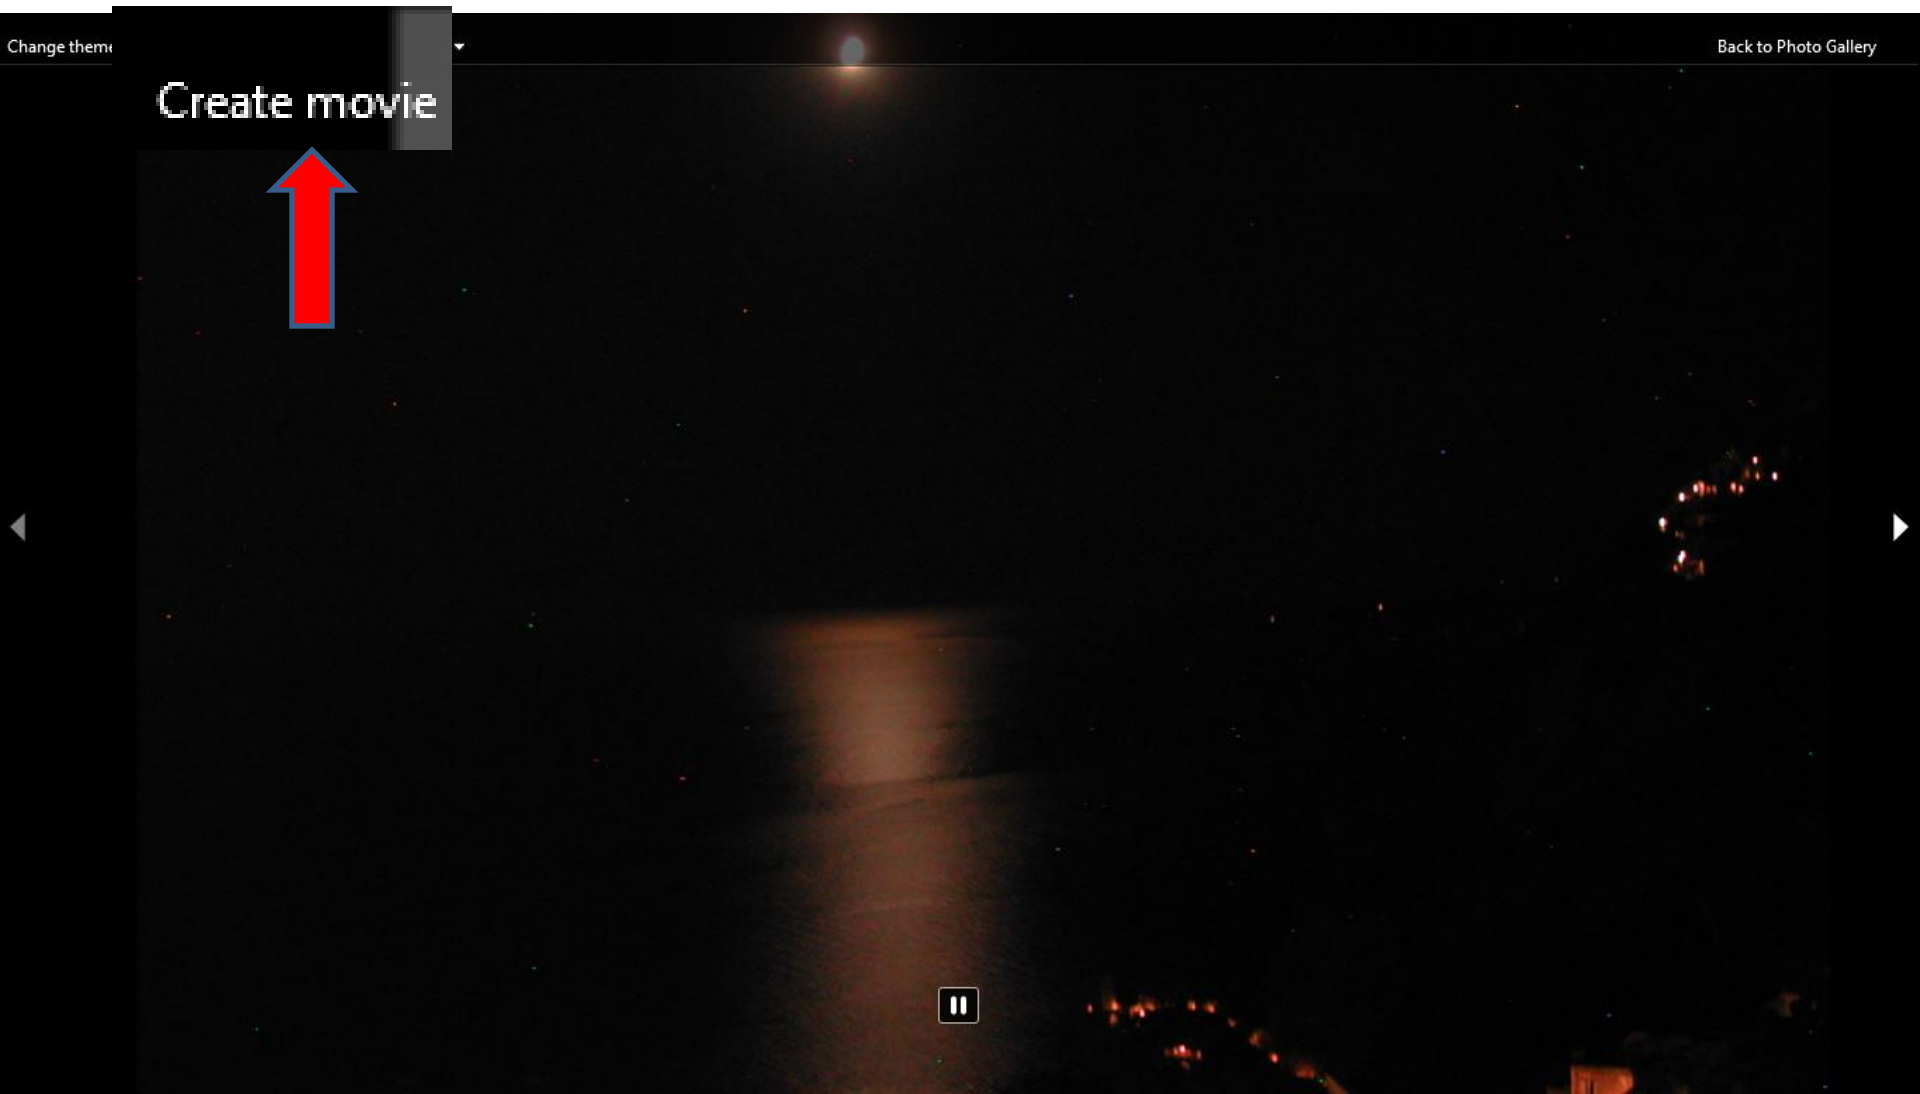

- First go to a folder that you want to add all photos to Movie Maker and click .

The screenshot shows the Windows Photo Gallery application interface. The title bar reads "Photo Gallery". The ribbon menu includes "File", "Home", "Edit", "Find", "Create", and "View". The "Home" tab is active, showing options like "Import", "New folder", "Select all", "Copy", "Paste", "People tag", "Batch people tag", "Geotag", "Descriptive tag", "Caption", "Rate", "Flag", "Months", "Rated", "Flagged", "Text search", "Slide show", "Share", "Photo email", and "Sign in".

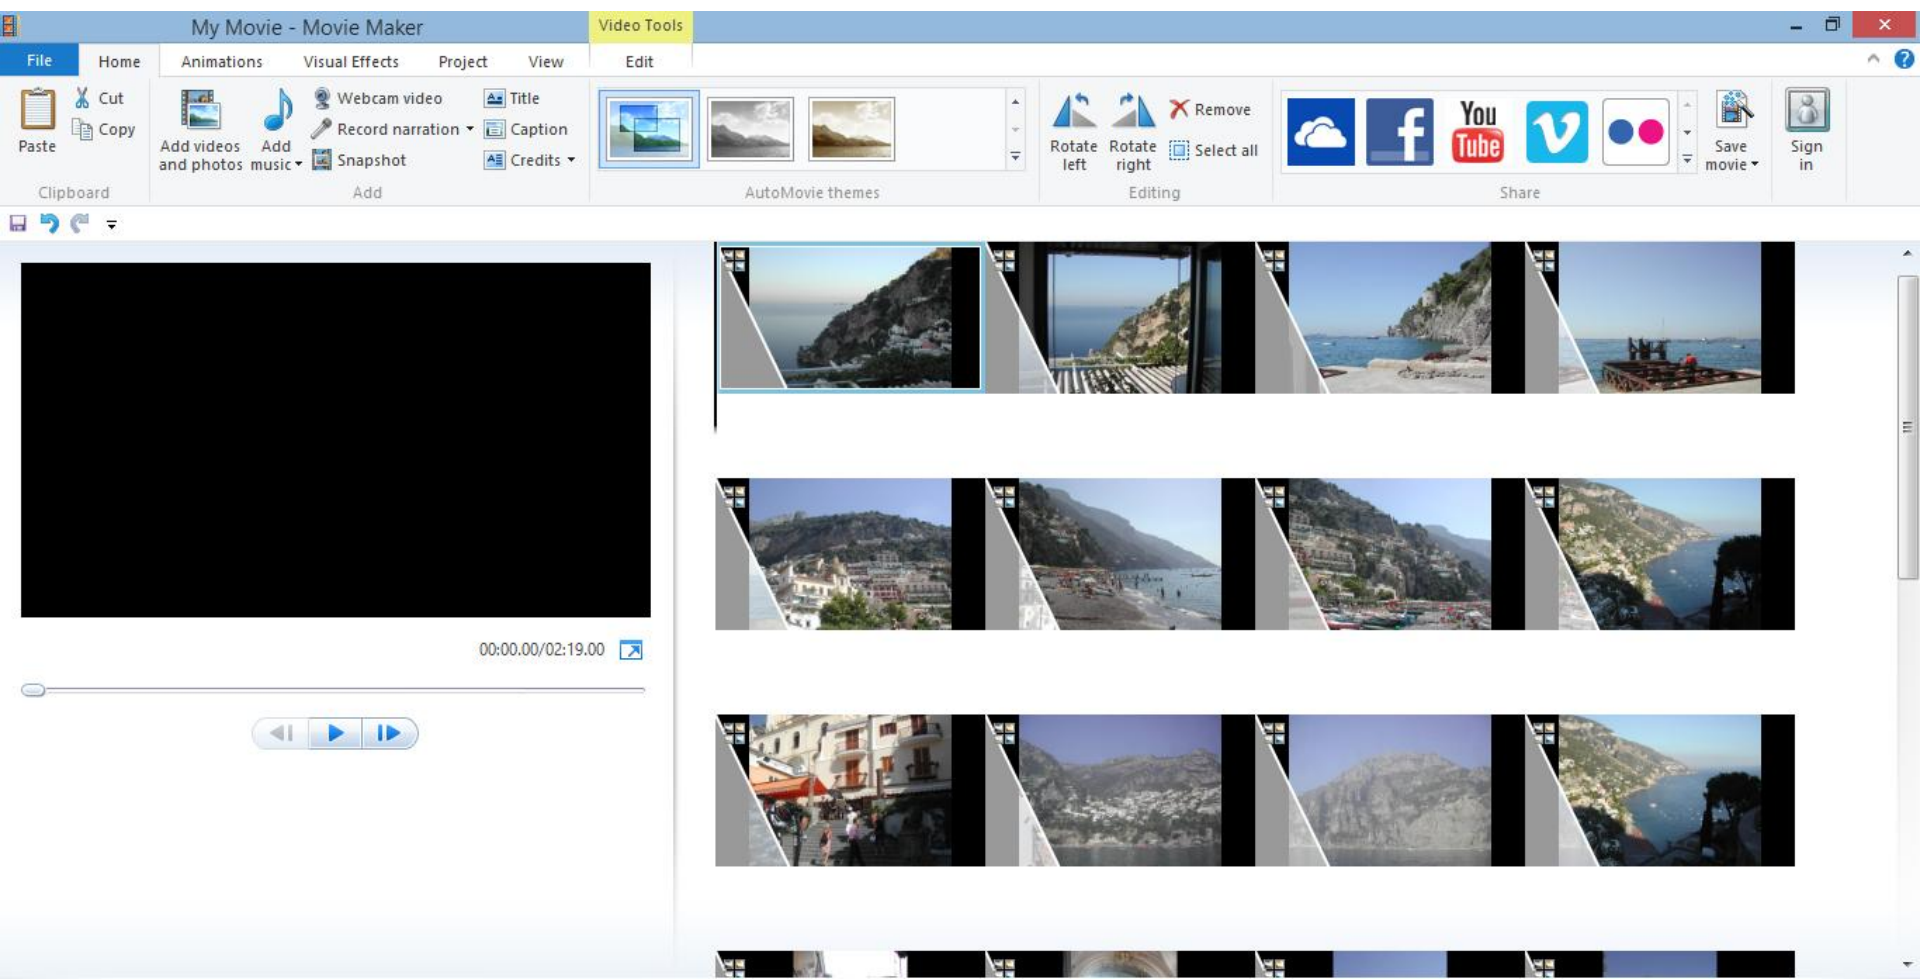

The left pane shows a folder tree with "Positano" selected. The main pane displays a grid of photos from the "Positano" folder. The first photo, "DSCN2852.JPG", is highlighted. The right pane shows metadata for the selected photo, including "People tags", "Geotag" (Italy), "Caption" (Positano at Night), "Descriptive tags", and "Information" (Filename: DSCN2852.JPG, Date taken: 1/1/2001 12:00 AM, Size: 575 KB, Rating: 4 stars, Flag).

A red arrow points to the "Slide show" button in the top right toolbar. Another red arrow points to the "Positano" folder in the left pane.

- It automatically plays the first photo in the full screen. You then Click on Create Movie in upper left, which I zoomed in.

- **Movie Maker opens with all the Photos from the Folder and it adds the Theme from the Slide show. In Step 5 – Part C, it shows you how to change the Theme in the Slide show.**

Next is the Second option to select photos.

First highlight the pictures like I showed you before in Step 2 – Part B

Then click on Create

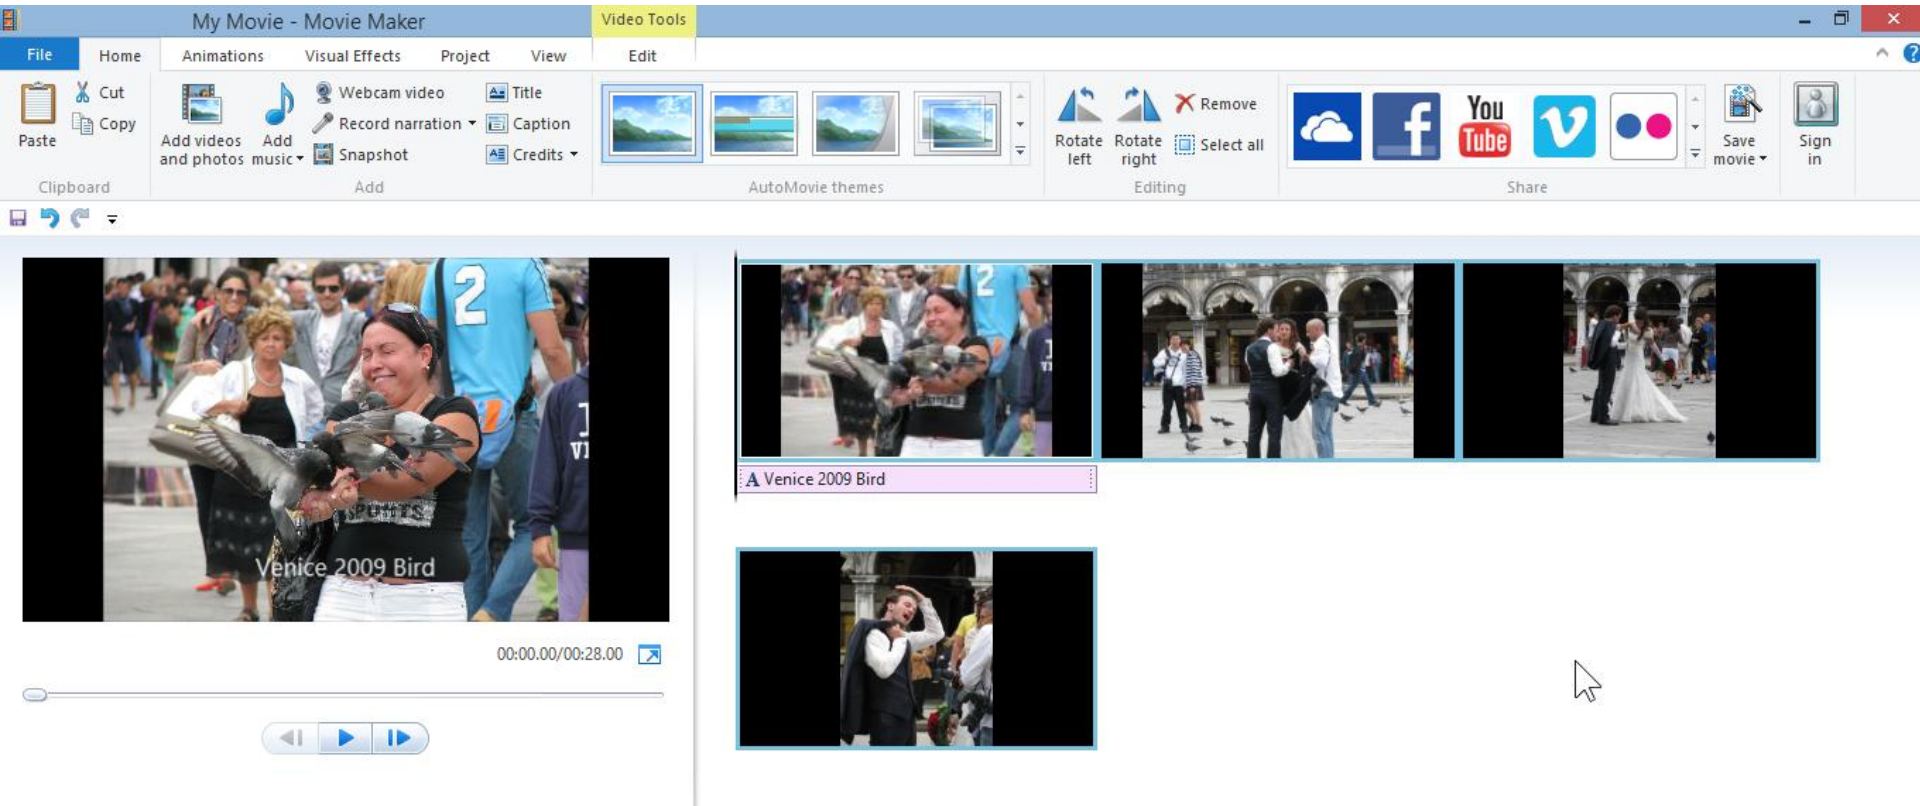

Then click on Movie

Movie Maker Opens with the Photos

- You can always add other photos in Movie Maker.
- Next is how to add Video from Photo Gallery.

Go to Video folder and click on a Video

The screenshot shows the Windows Photo Gallery application. The left pane displays a folder tree with 'Videos' expanded and 'Cruise' selected. The main pane shows a grid of video thumbnails with details for the selected video: 'Cruise2009 059.AM', dated 9/4/2009 6:43 PM, 119 MB, 00:01:01, with a 5-star rating and the tag 'Venice'. A red arrow points to the 'Cruise' folder in the left pane, and another red arrow points to the selected video thumbnail in the main pane. The right pane shows 'People tags' with 'Marcelle' and 'Geotag' with 'Venice'. The status bar at the bottom indicates '8 items, 1 selected' and 'Looking for people tag suggestions...'.
