Tip – Convert Video

- Why?
 - If you have a Video that is WMV and not MP4, you have to convert it to MP4. The reason is Photos App allows MP4 vs. WMV, etc. as I mentioned before
 - The program is aTube Catcher.
- I showed you before how to download aTube
 Catcher in Step 3. If you have aTube Catcher, open it and go to the 4th page in this PDF file.
- If you don't have aTube Catcher, go to the next page to download.

aTube Catcher Download.

- Download aTube Catcher from this site <u>http://www.atube.me/video/download.html</u>
- Once you download it, you will see this icon on your desktop.

- Double click on it, to open it.
- Next is what happens.

• You see it open with the features. Next is Convert Videos to mp3.

Readyl										

- If you had added folders in Step 2, you may want to change the folder in aTube Catcher to the First Video under the Photos App Folder.
- The other option is find another folder or add a New folder.
- Next is what happens when you click on the Icon right of Save To as I showed you in other Steps.

• New window opens and find the folder or Make New Folder. Next is a sample again.
