

Tip – How to delete download file

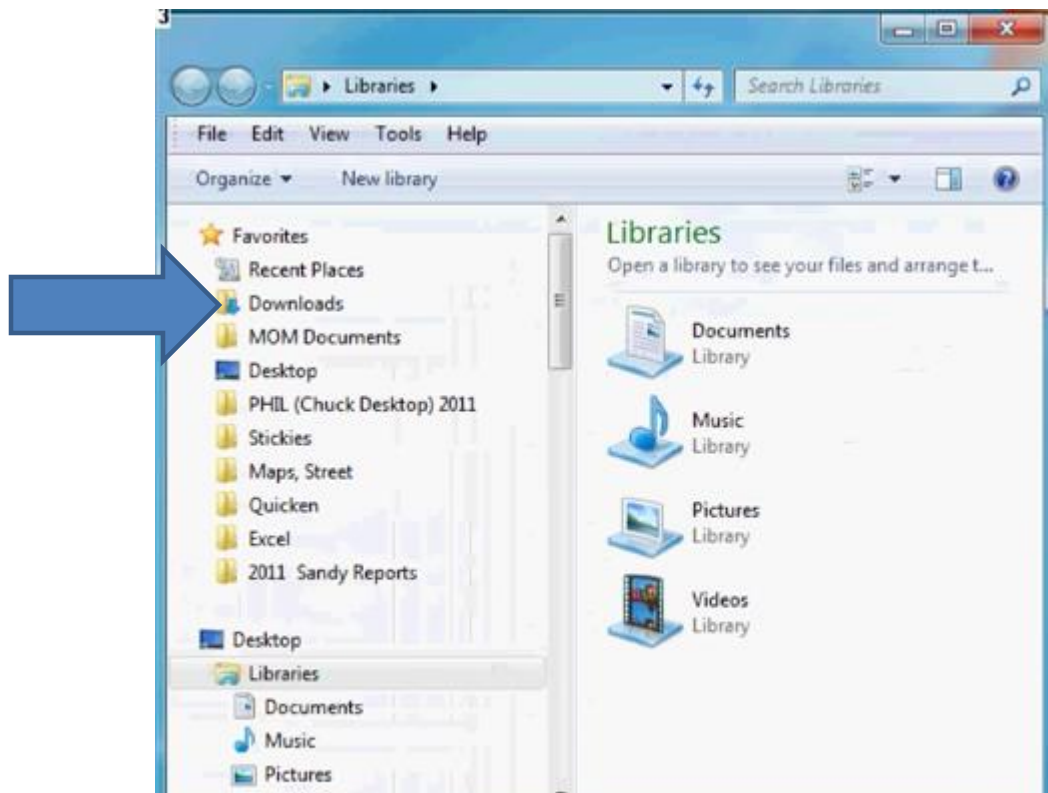

- When you go to a website, like ninite.com to download something, most Browsers download a file to the Downloads Folder on your computer.**
- Once it is downloaded, most Browsers allow to Run or Open that file. Once you Run or Open, it starts to download a program. Once complete, the Download file is still on your computer.**
- You may want to keep it to do an upgrade with a ninite one. Sometimes you may want to delete it.**
- Next explains how to find it.**

- **It depends on what computer you have.**
- **Windows Explorer comes with Windows 7 and older, like Vista and XP.**
- **File Explorer comes with Windows 8 & 10.**
- **You have to open Windows Explorer or File Explorer to go to the Downloads Folder to delete the download file.**
- **First, I will show you how to Find Windows Explorer with Windows 7. After that is how to find File Explorer with Windows 8 & 10 and open it and go to Downloads Folder and delete the download file.**
- **If you have Windows 8, just go to page 5.**
- **If you have Windows 10, just go to page 7.**

- Here is a sample of Windows 7. Windows Explorer Icon is on the Taskbar. Sometimes it is in a different location. You click on it to open it and next is a sample.

- Here is a sample. Sometimes you see Downloads under Favorites. Note – I don't have Windows 7, so I can't show you the Downloads Folder. Next is How to find File Explorer with Windows 8.

- **If you have not downloaded Classic Start Menu, I recommend you go to the Desktop.**
- **Click on Screen Key and D Key to go to Desktop and next is what happens.**

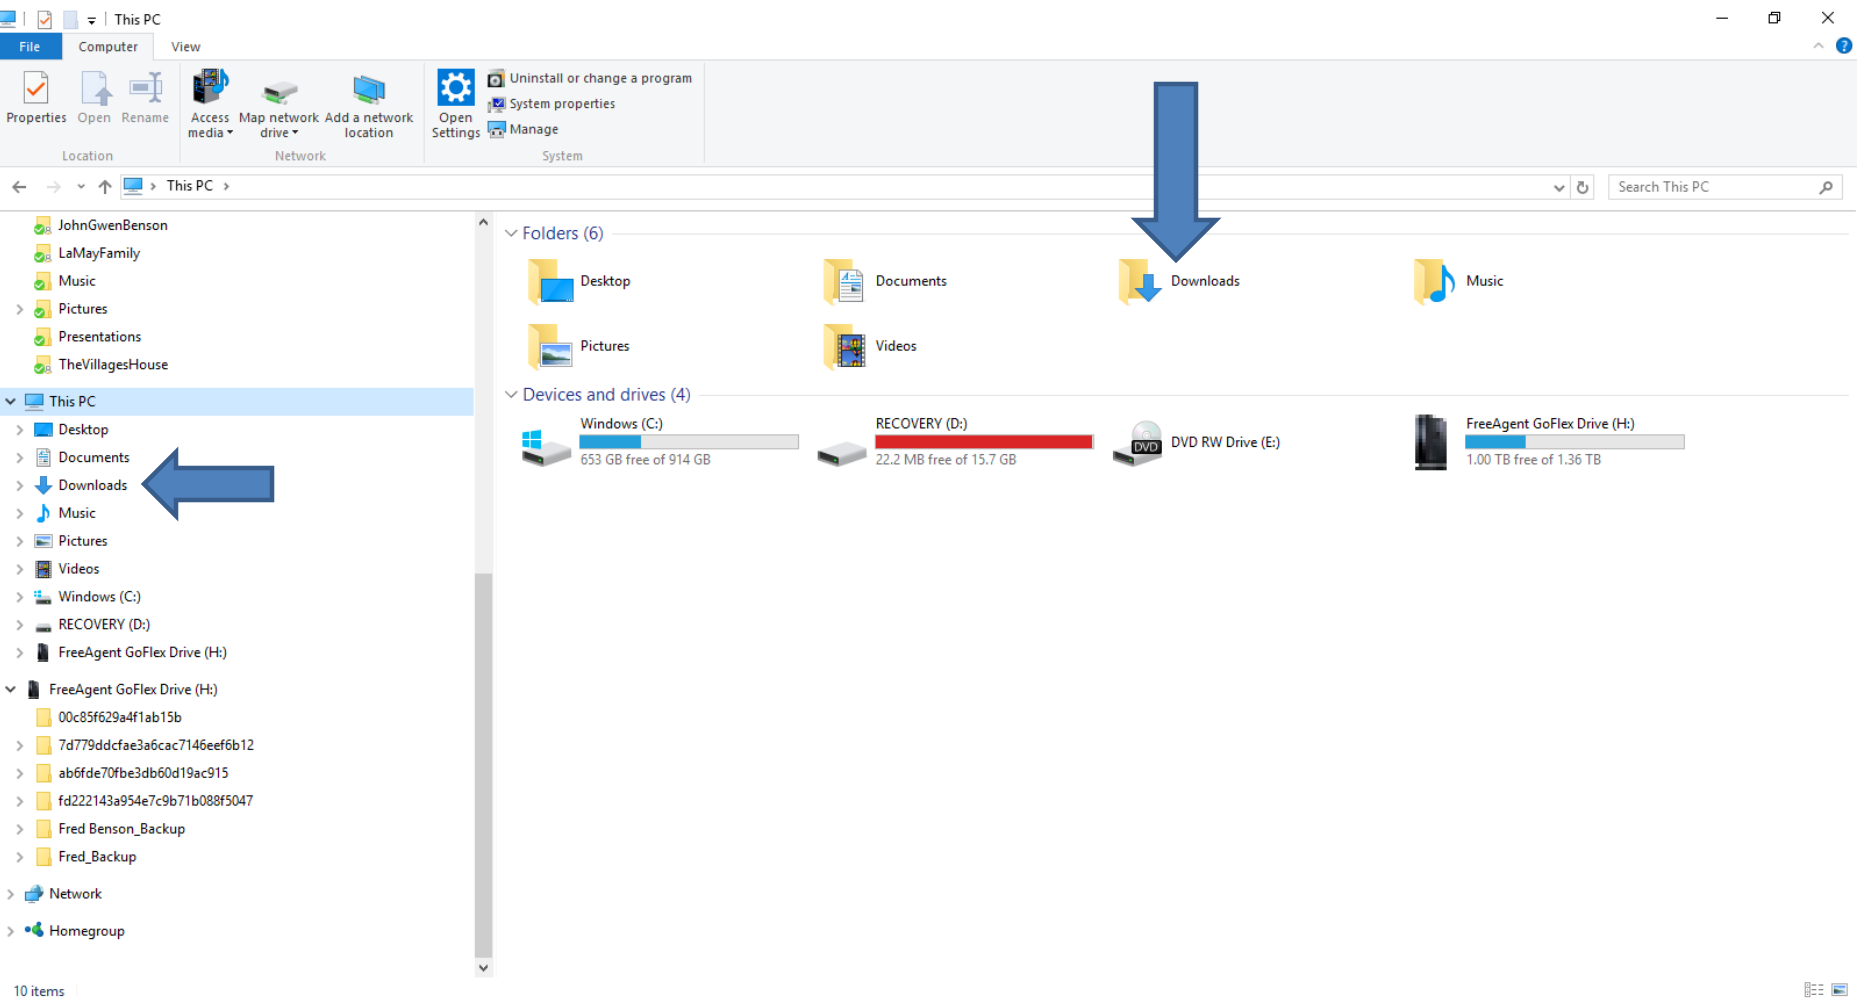

- Typically it shows on the Taskbar in lower left.
- Third open is to download Classic Start Menu from www.ninite.com
- When you start your computer, it automatically goes to the Desktop.
- You click on it to open it. After Windows 10, I will show it.
- Next is Windows 10.

- **When you open Windows 10, you see File Explorer Icon on the Taskbar.**
- **Click on it to open it, which is next.**

File Explorer opens. Note – it is similar to Windows 8. You see Downloads Folder and double click. If not, go under This PC on the left and double click on Downloads and next is what happens.

- It changes to Downloads Folder. Sometimes the list is by Name. If that is it, click on Date modified and next is what happens.

The screenshot shows a Windows File Explorer window for the Downloads folder. The ribbon at the top includes 'File', 'Home', 'Share', and 'View' tabs. The 'View' tab is active, showing a ribbon with options like 'Pin to Quick access', 'Clipboard', 'Organize', 'New', 'Open', and 'Select'. A blue arrow points to the 'Date modified' column header in the file list.

- You then see the latest one you downloaded.
- Next is how to delete it.

The screenshot shows a Windows File Explorer window with the 'Downloads' folder selected. The ribbon at the top includes 'File', 'Home', 'Share', and 'View' tabs. The ribbon contains various icons for file operations like 'Pin to Quick access', 'Copy', 'Paste', 'Cut', 'Copy path', 'Paste shortcut', 'Move to', 'Copy to', 'Delete', 'Rename', 'New folder', 'New item', 'Access', 'Properties', 'Edit', 'History', 'Open', 'Select all', 'Select none', and 'Invert selection'. The address bar shows the path 'This PC > Downloads >'. The left sidebar shows the navigation pane with 'Downloads' selected. The main pane displays a list of files with columns for Name, Date modified, Type, and Size. A blue arrow points to the file 'setup_wps_office_free_100.121'.

- You have two options to delete it. First option is click on it and click on the delete Key. Second option is right click it and you see a list and click on Delete.
- Next is what happens with either option.

- You now longer see it.
- This is the End of the Tip.

The screenshot shows a Windows File Explorer window with the 'Downloads' folder selected. The ribbon at the top includes 'File', 'Home', 'Share', and 'View' tabs. The ribbon contains various actions like 'Pin to Quick access', 'Copy', 'Paste', 'Cut', 'Copy path', 'Paste shortcut', 'Move to', 'Copy to', 'Delete', 'Rename', 'New folder', 'item access', 'Properties', 'Open', 'History', 'Select all', 'Select none', and 'Invert selection'. The address bar shows the path '> This PC > Downloads'. The left sidebar shows the navigation pane with 'Downloads' highlighted. The main pane displays a list of files and folders. A blue arrow points to the file 'Ninite Glary Java 8 Revo Installer'.
