

# **Step 11 - Part D – Extract Music from Video**

- **Why?**
  - If you have music on your video and want to add the music to different slides, that's why to Extract Music from Video.
  - The program is aTube Catcher.
- I showed you before how to download aTube Catcher. If you have aTube Catcher, open it and go to the 4<sup>th</sup> page in this PDF file.
- If you don't have aTube Catcher, go to the next page to download.

# aTube Catcher Download.

- Download aTube Catcher from this site  
<http://www.atube.me/video/download.html>
- Once you download it, you will see this icon on your desktop.

- Double click on it, to open it.
- Next is what happens.

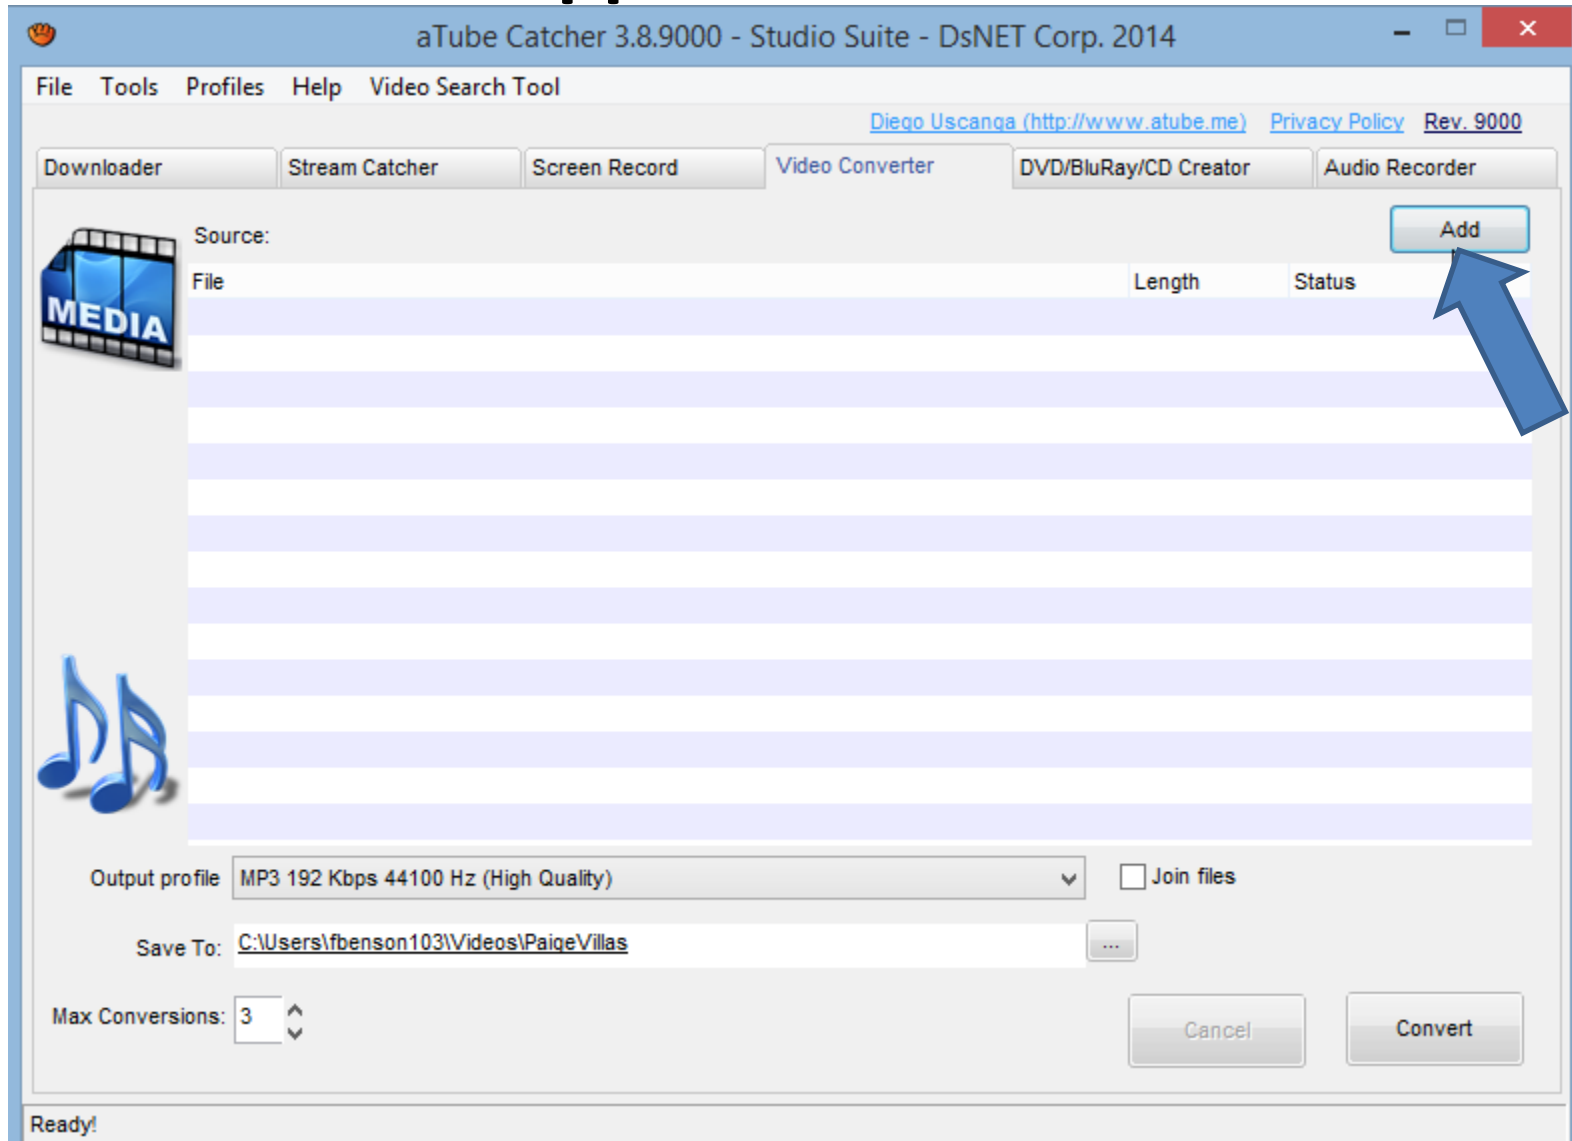

- You see it open with the features. Next is **Convert Videos to mp3**.

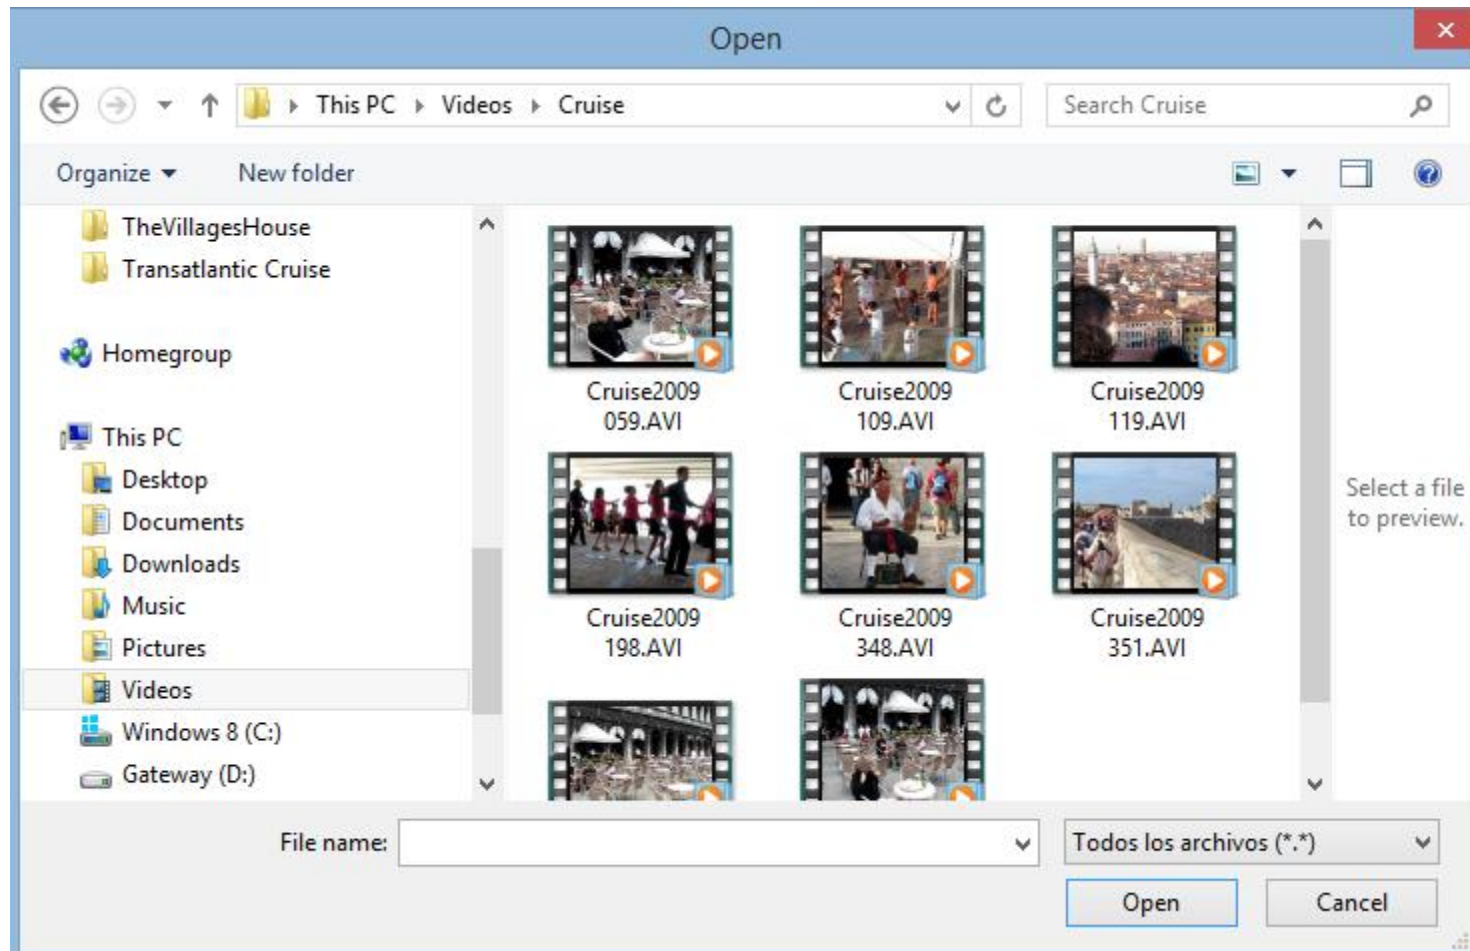

- Click on **Convert videos to mp3** and next is what happens.

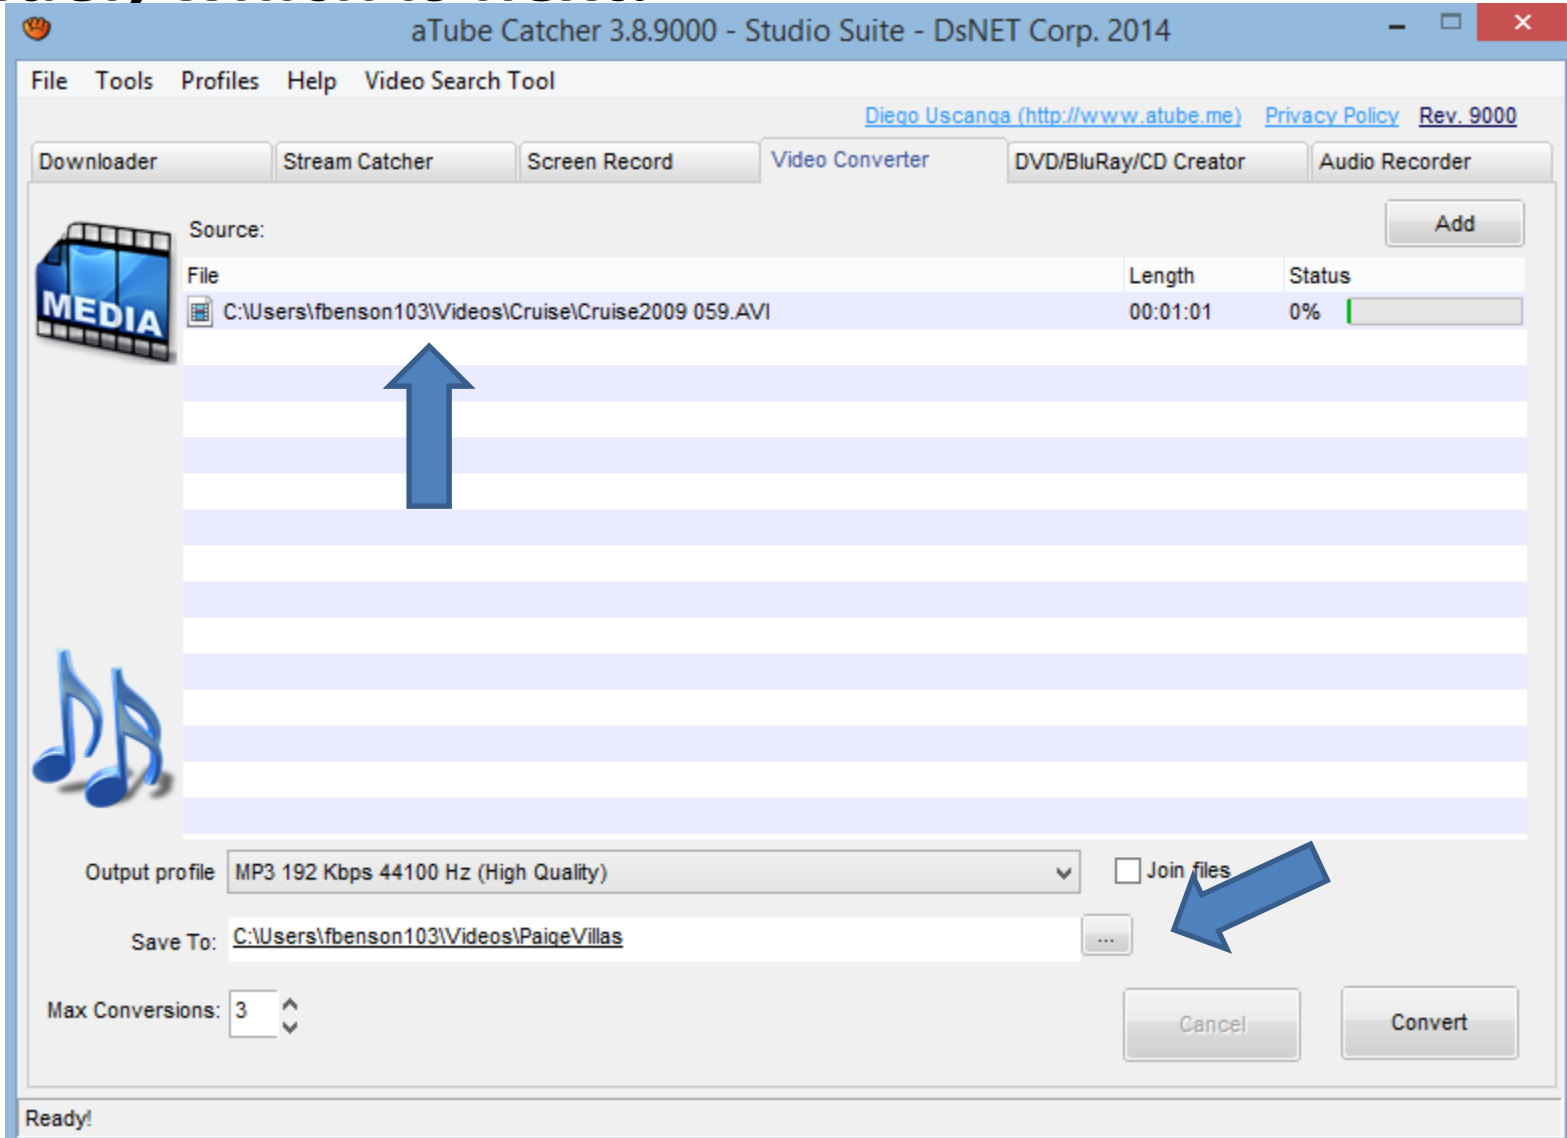

- **New window opens and click on Add and next is what happens.**

- **File Explorer opens. Find the video and double click on it or click on it and click on Open. Next is what happens.**

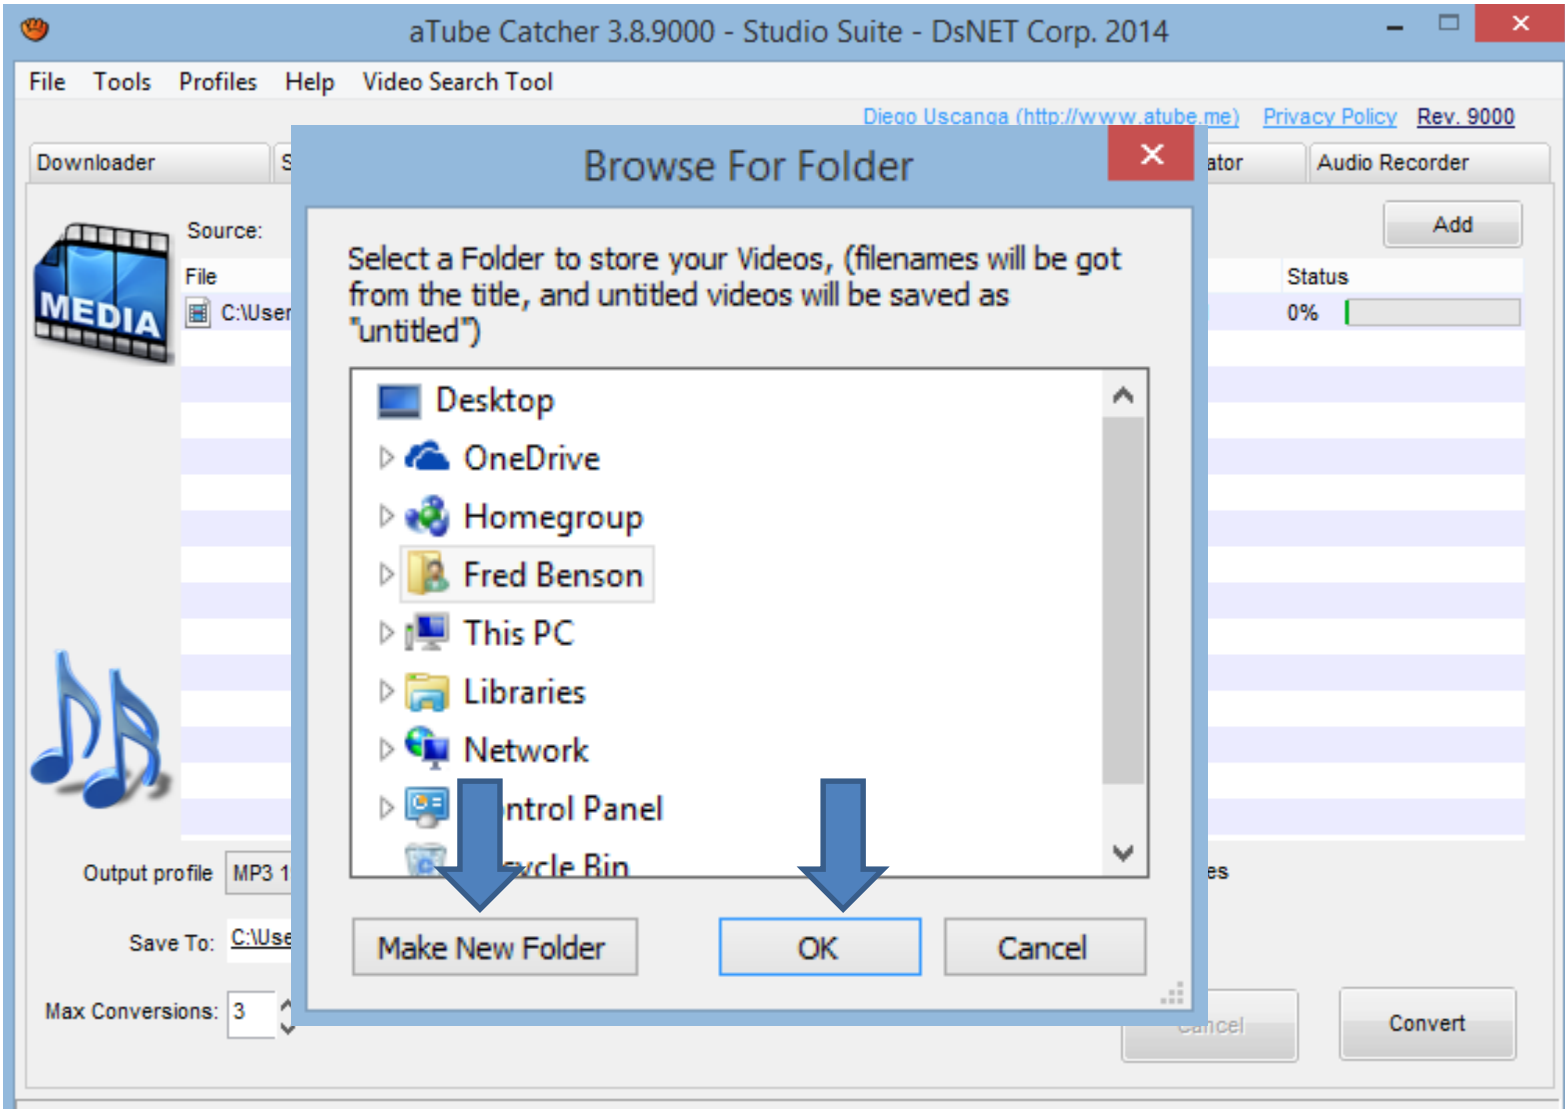

- You then see it and then click on the icon  on the right of Save To. The reason is to change the folder, which is next.

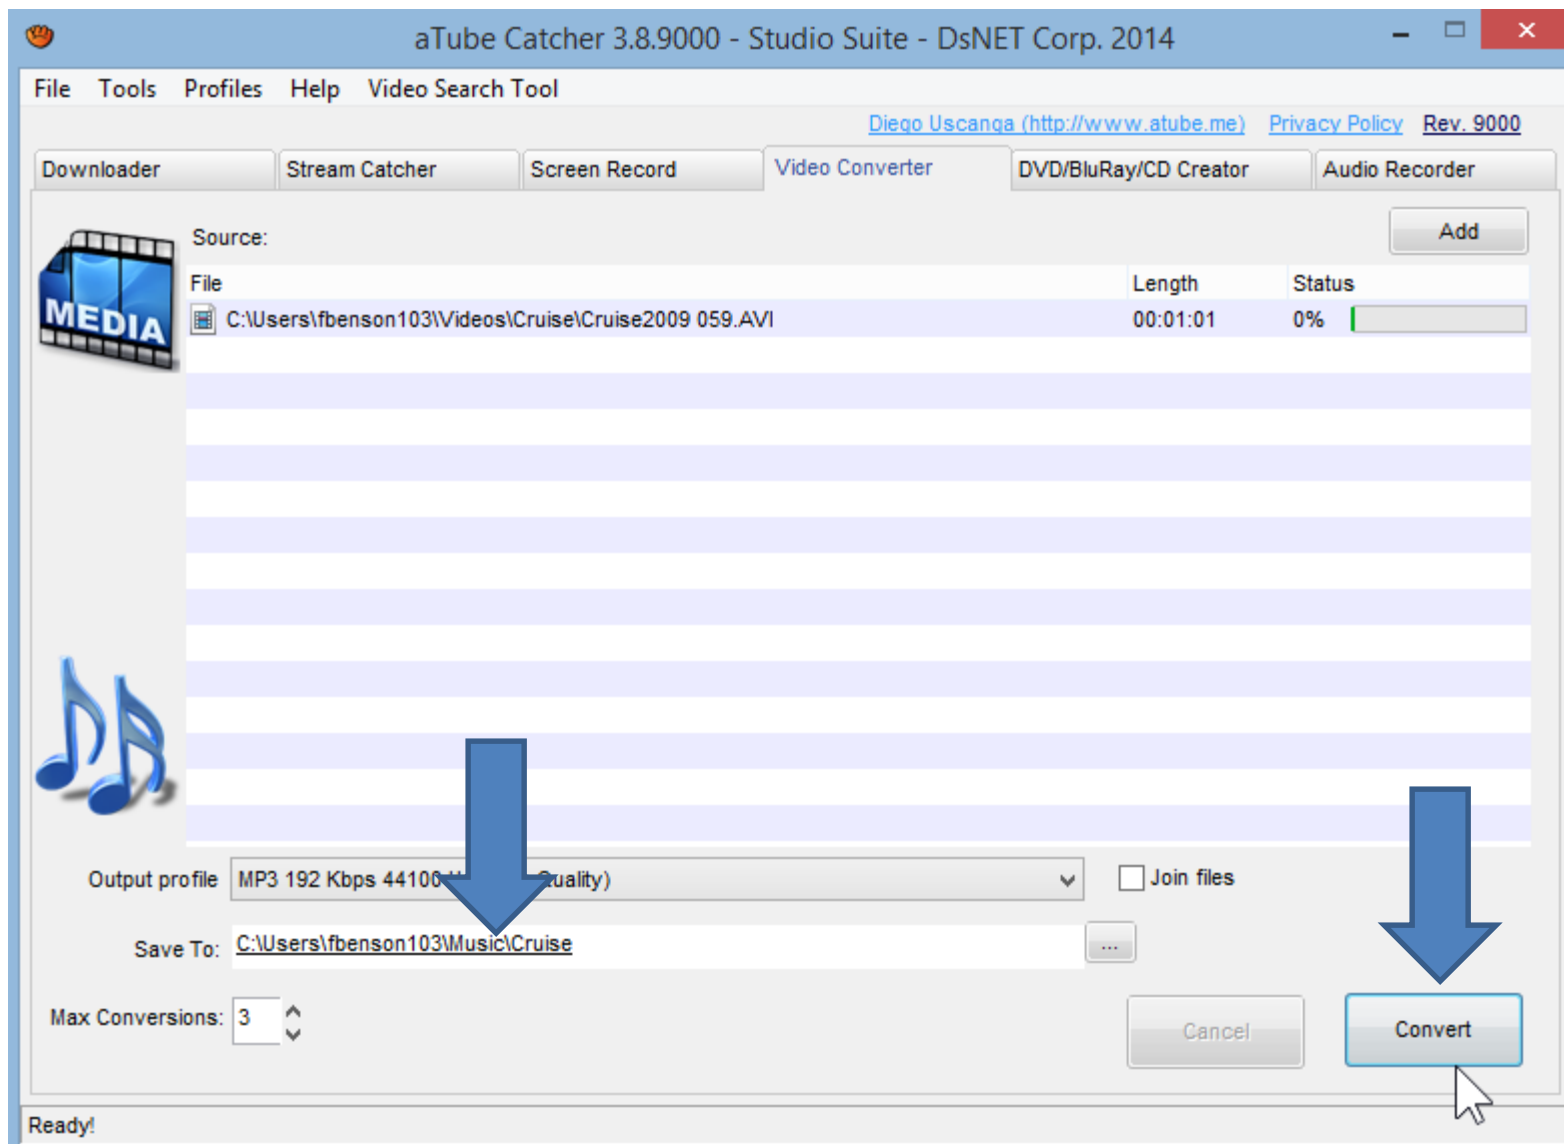

- **If you had added folders in Step 3 in the first course or this course, you may want to change the folder in aTube Catcher to the Music folder that you added under Kingsoft folder in Documents.**
- **The other option is find another folder or add a New folder.**
- **I decided to add a new folder.**
- **Next is what happens when you click on the Icon right of Save To.**

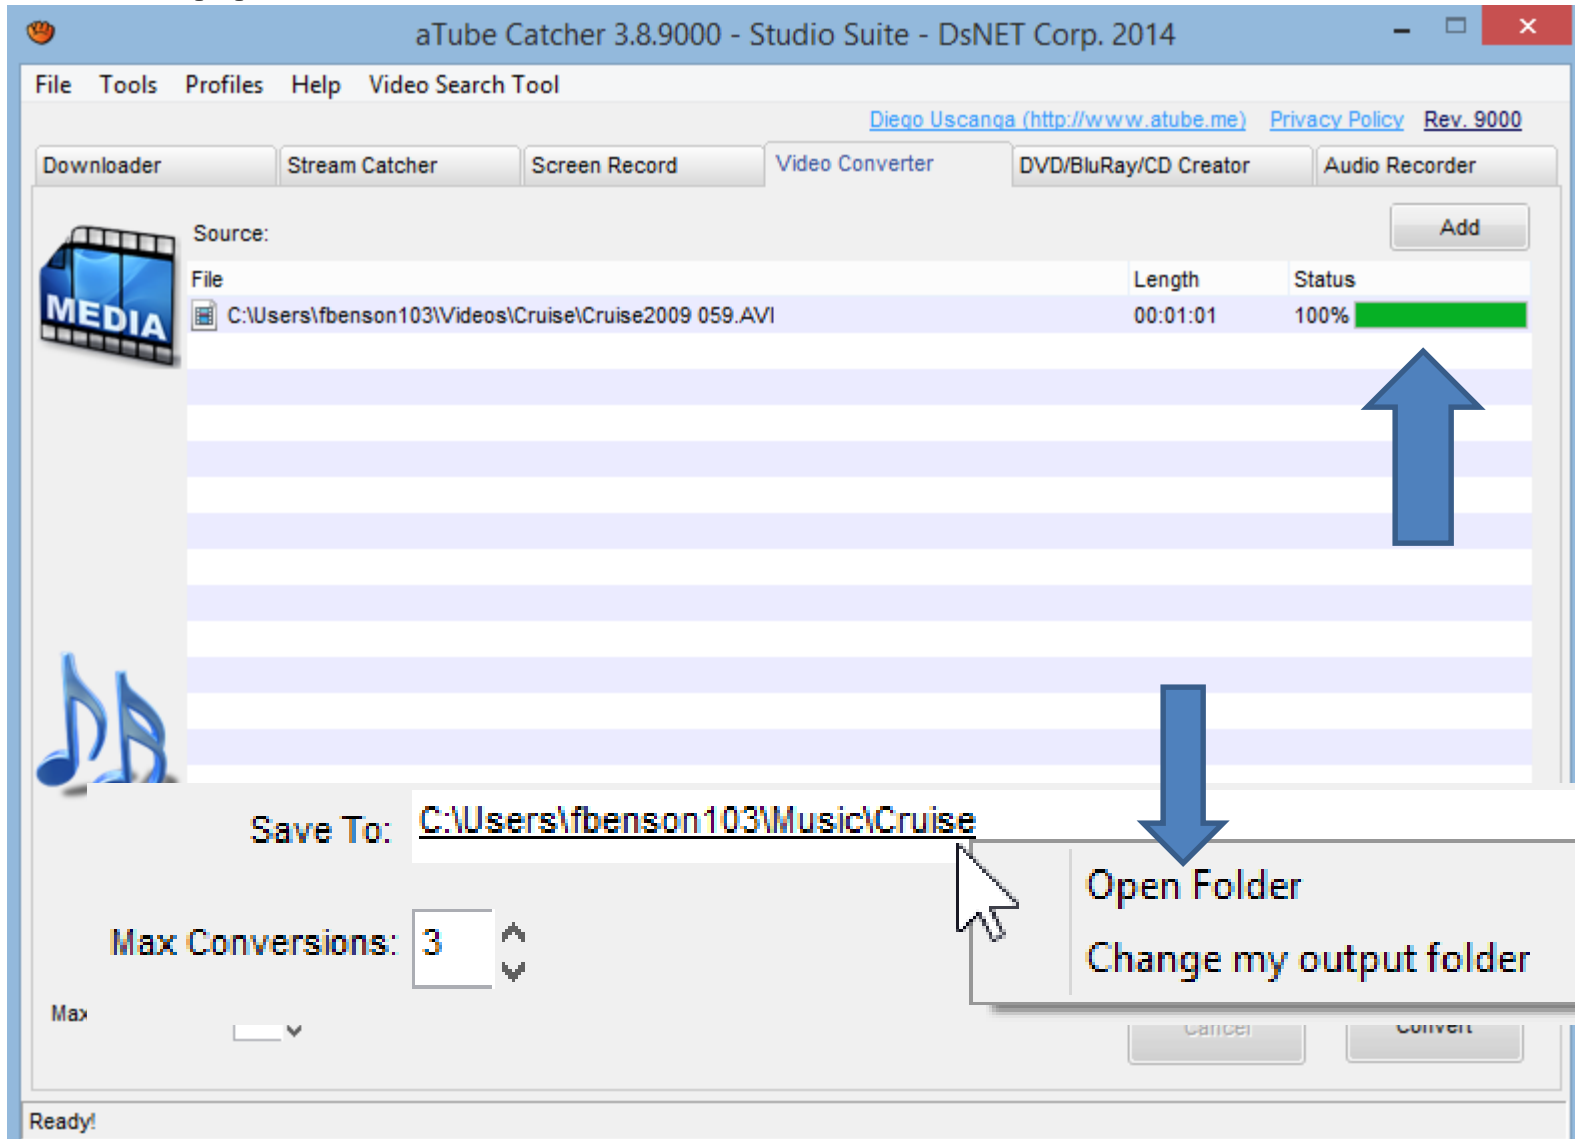

- **New window opens and find the folder or Make New Folder. Once complete, click on OK. Next is a sample.**

- You see the new folder and then click on **Convert**. Next is what happens.

- It then it is in process. Once complete you see 100%.
- Then click on folder and click on Open Folder and next is what happens.

- **File Explorer opens and you see the music. Step 6 shows you how to add music as we did before. This is the End of Step 11 – Part D.**
