

Step 1 - How to Open Movie Maker

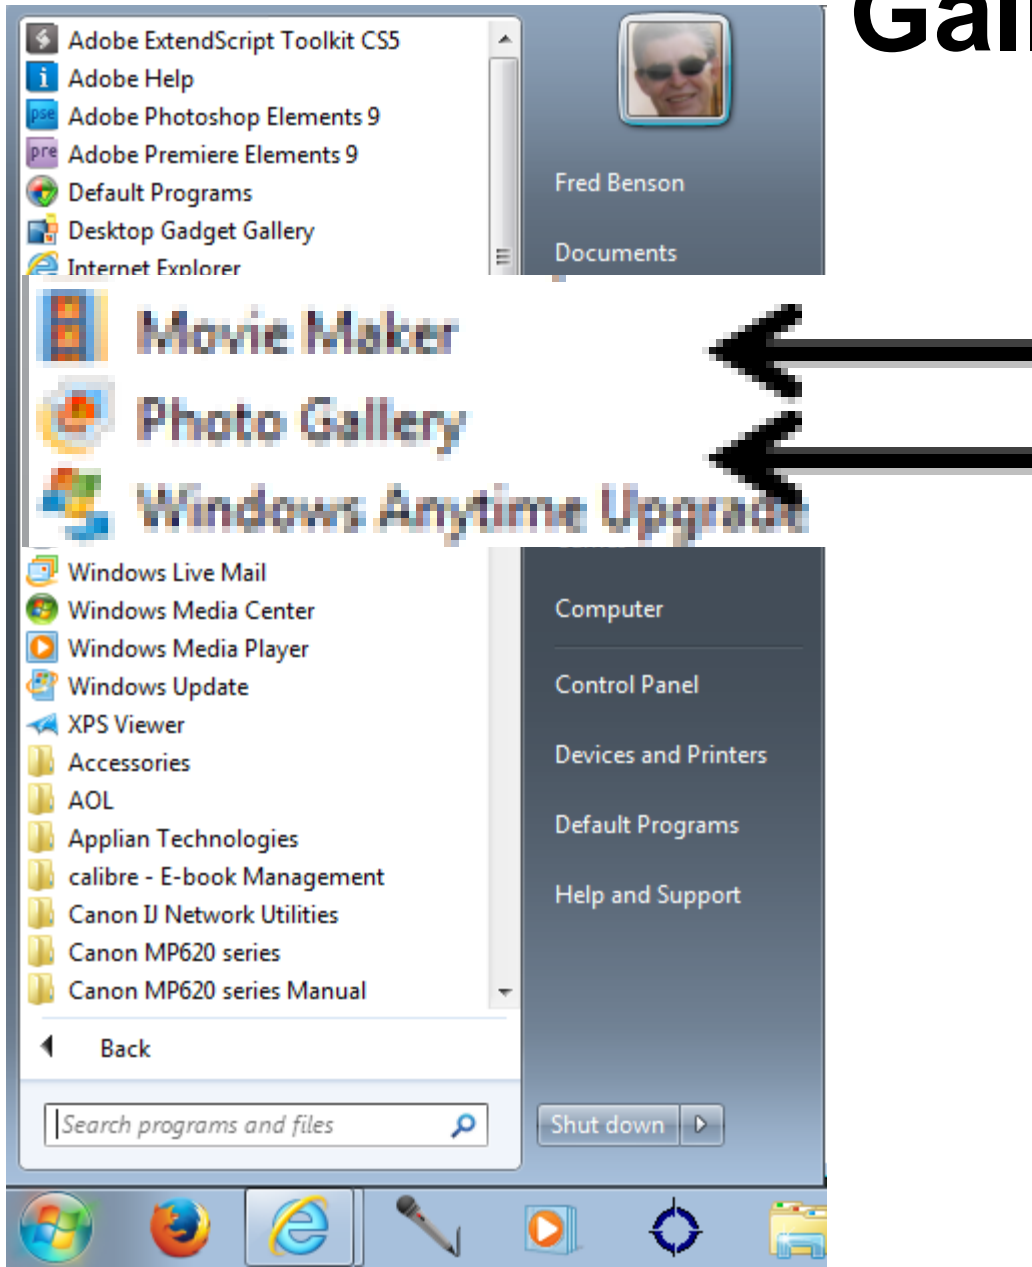

- I will show you how to Open Movie Maker with Windows 7, 8.1 & 10**
- Next is Windows 7.**
- If you just have Windows 8.1, go to the 6th page in this PDF file.**
- If you just have Windows 10, go to the 10th page in this PDF file.**

Windows 7

- Click on Start Menu and then click on All Programs and next is what happens.

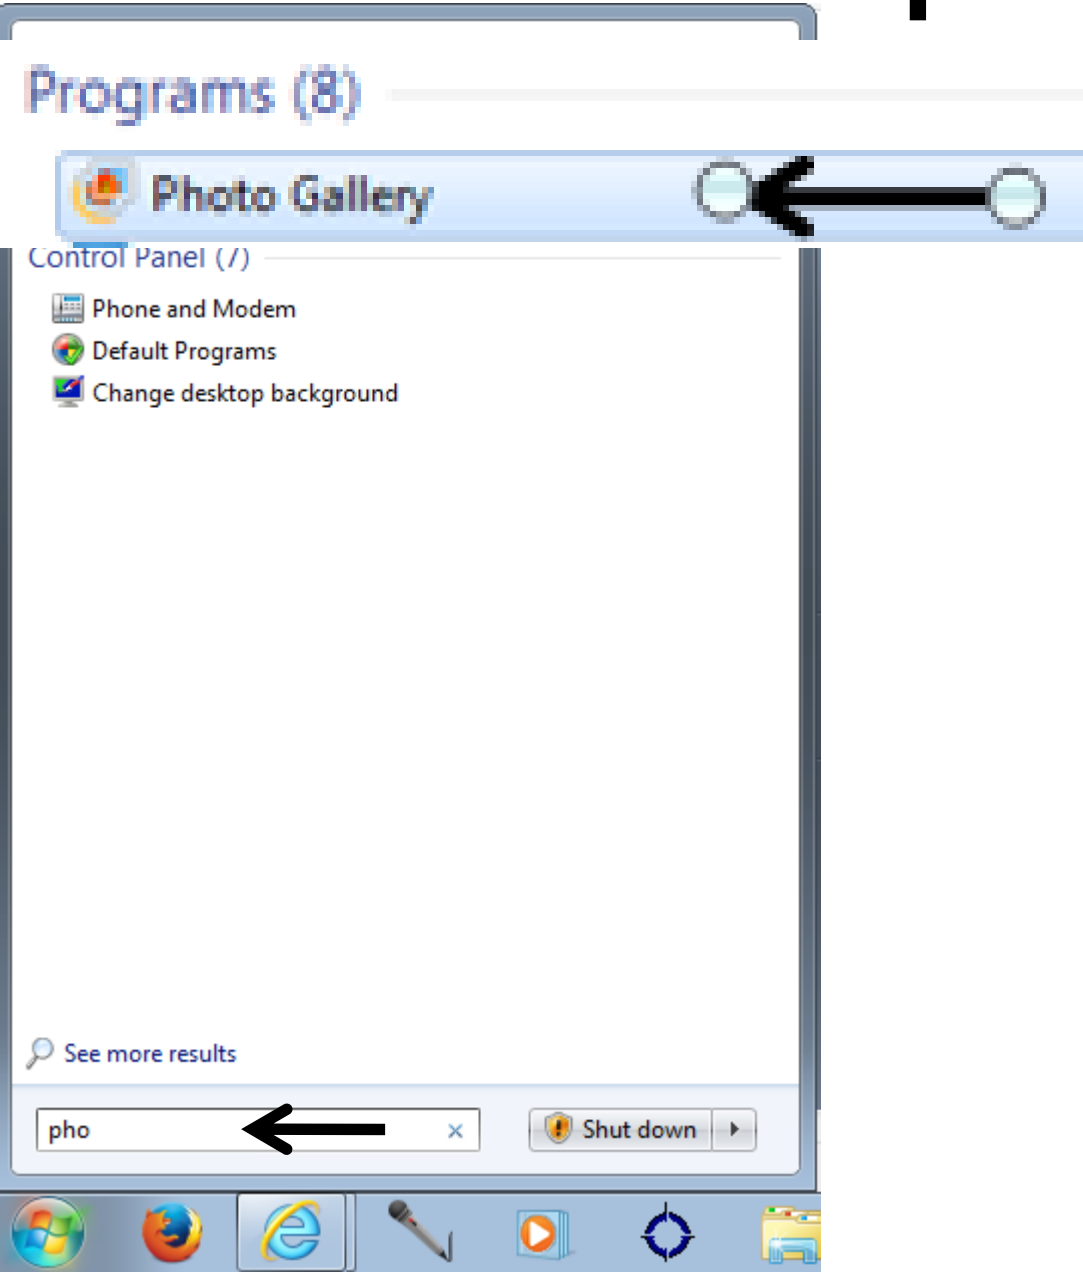

You see Movie Maker and Photo Gallery

- I zoomed in.
- Then click on Movie Maker.
- Or, right click on it and select Pin to Start menu or Pin to Taskbar.

Second option is Search

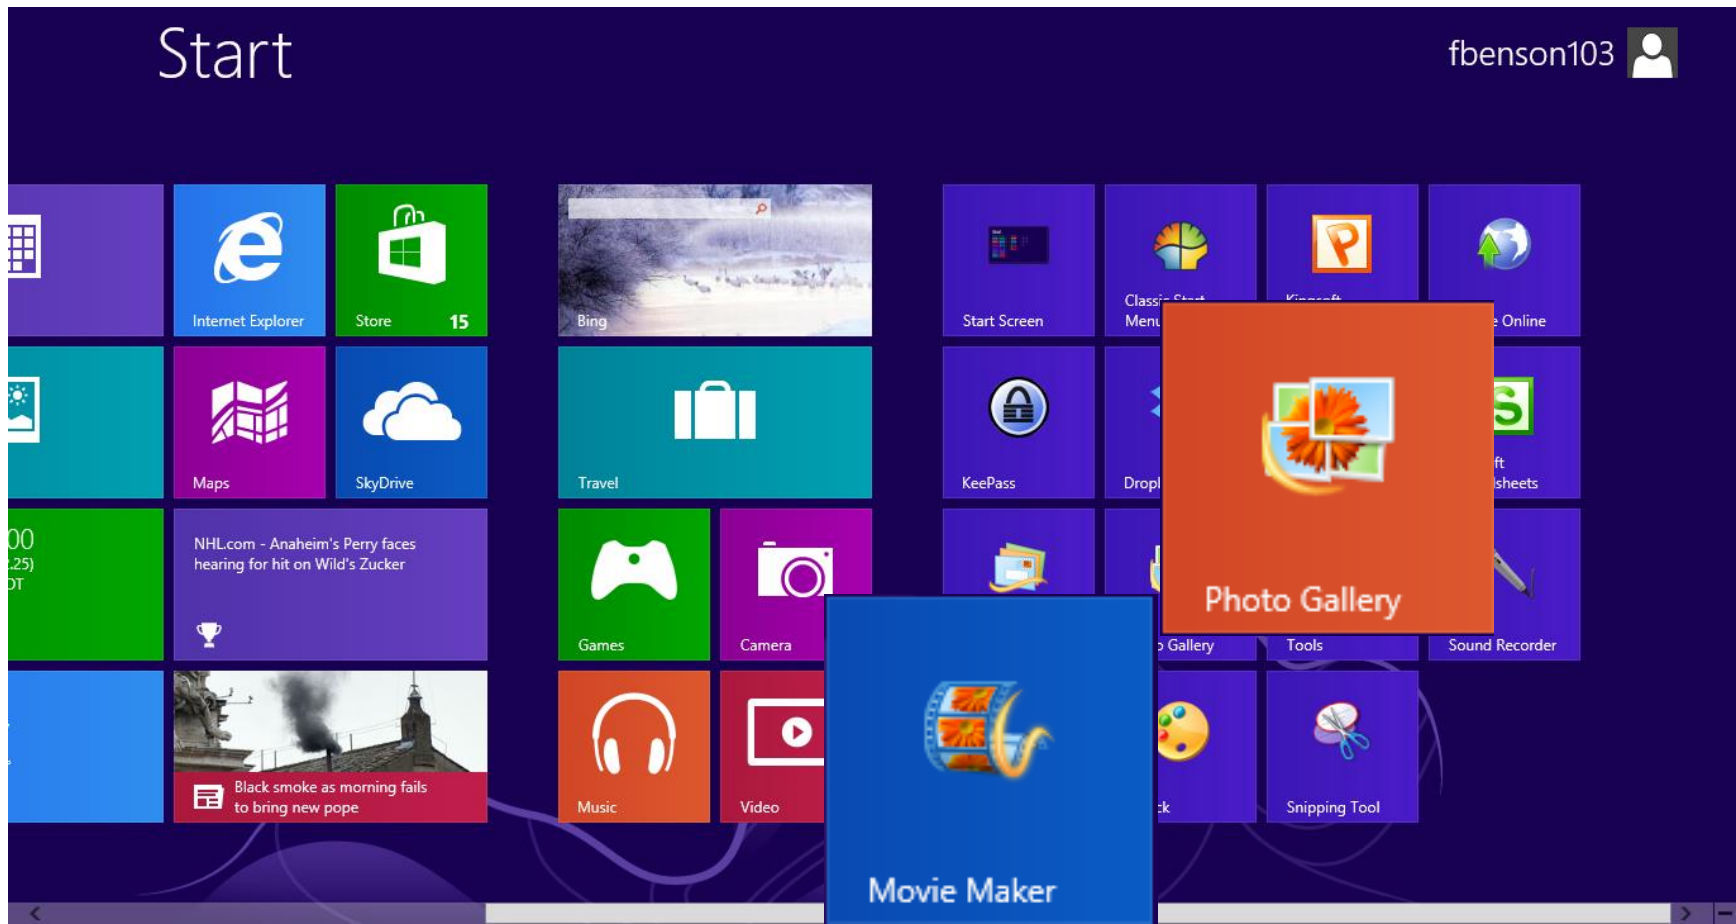

- Type in pho
- You then see Photo Gallery at the top.
- Same process with Movie Maker.
- I zoomed in.
- If you can't find it, next explains download.

If you can't find it, you will need to use Step 2 to download Windows Essentials

- **Once you download, you can use Step 1 again to find it.**
- **Next is how to find Movie Maker & Photo Gallery on Windows 8.**

On Windows 8 home page, scroll to right and you will see Photo Gallery & Movie Maker. Next is search option.

Or, you can search on Start Screen.

- If you have Windows 8.1, and you are on the Start Screen, you can just type mo and search shows up and you see Movie Maker. Next is other search option.
