Step 11 - Part 2 – Slide Show

- **Next explains What is Slideshow as I explained in the Course and in the Step 11 Introduction.**

- **If you already know it, you may want to go to the 4th page in this PDF file.**

What is Slideshow?

- **It is multiple pictures in one place and it automatically plays each picture about every 5 seconds.**

- **You can always change the seconds and space.**

- **You can add a caption. To add a Title, you need to create a Photo with a Title, which is a Tip on-line to do that.**

- **Note – you can add music by adding YouTube, which is a Tip – Auto Music in Part 2 on-line training.**

- **Below is a link to a slide show page with auto music. http://ourvacationsphotos.weebly.com/portofino.html**

- **Next is Why do Slideshow?**

Why do Slideshow?

- **Vacation, wedding, birthday, anniversary, business, etc.**

- **The other Slideshow option is create a Slideshow Video with other programs, like Movie Maker and upload it to YouTube and embed it to your website. Part 2 on-line training shows how to embed YouTube.**

- **Below is a link to my Movie Maker Alternatives page that explains the Alternatives and has links to some samples. Next is Add Slideshow in Weebly.**

Part 2 – Add Slideshow

- **First make sure you are on your Test page and on the Build Tab. If not, go to the page you want to Add a Slideshow.**

- **Next is to Drag & Drop.**

- **Note – Slideshow only does it from your computer and not on-line photos, like the Image Element.**

- **Drag Slide show in the Middle above the picture and let it go, which is next.**
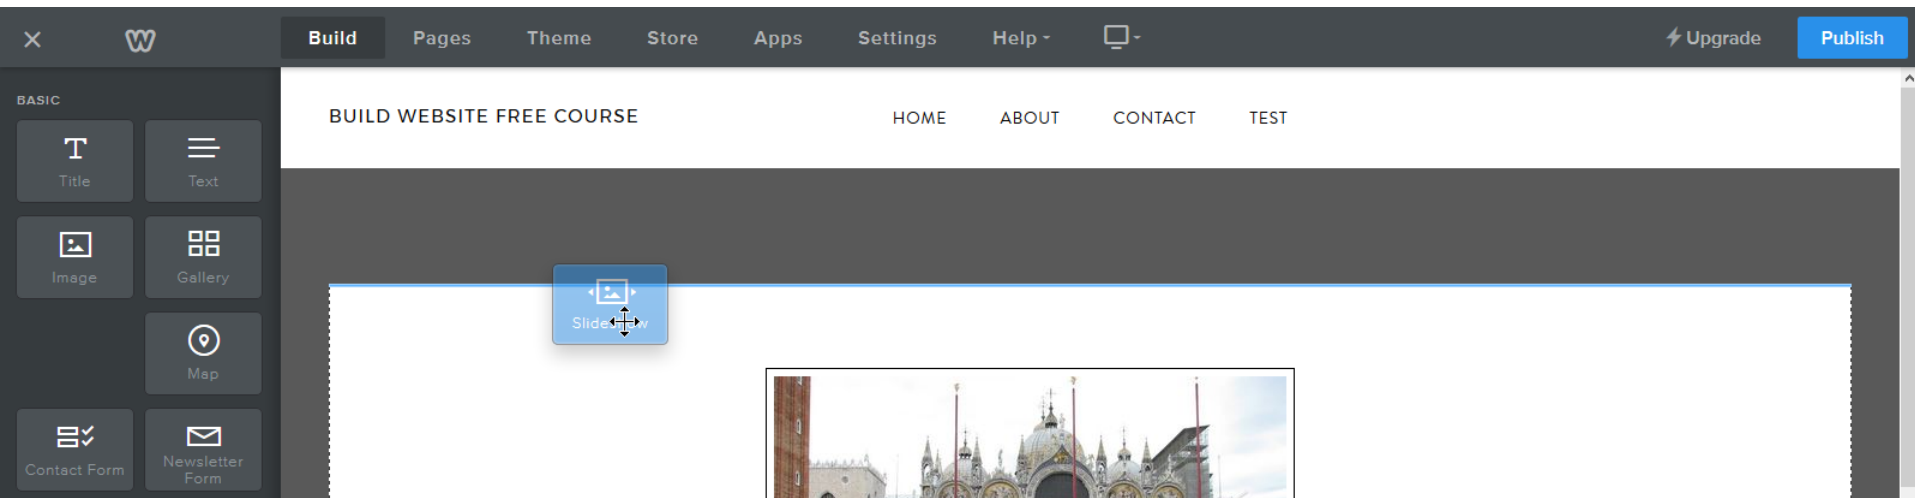

Once you drop, a new window opens with Style options.

- **I recommend the default one and not click on others.**

- **Then click on Continue at the bottom.**

New window opens and you click Upload photos from your computer.

**Manage Slideshow Photos**

Drag photos here

or

Upload photos from your computer

Upload multiple images at a time by holding the Ctrl (PC) or ⌘ (Mac) Key

- **File Explorer Opens and this is on my computer.**
- **Find the Folder on your Computer that has Pictures you want. Next is how to select multiple pictures.**

How to select multiple pictures?

- **If you want all from a folder, click on the first picture, then scroll down to the last picture and click and hold the Shift key and then click on the last picture.**

- **If you want some of them from the folder, click on the first one you want, then click and hold the Ctrl key and click on each pictures you want.**

- **Once complete highlighting them, click on Open, which is next.**

- **You see them highlighted.**
- **Then, click on Open. Next is what happens.**
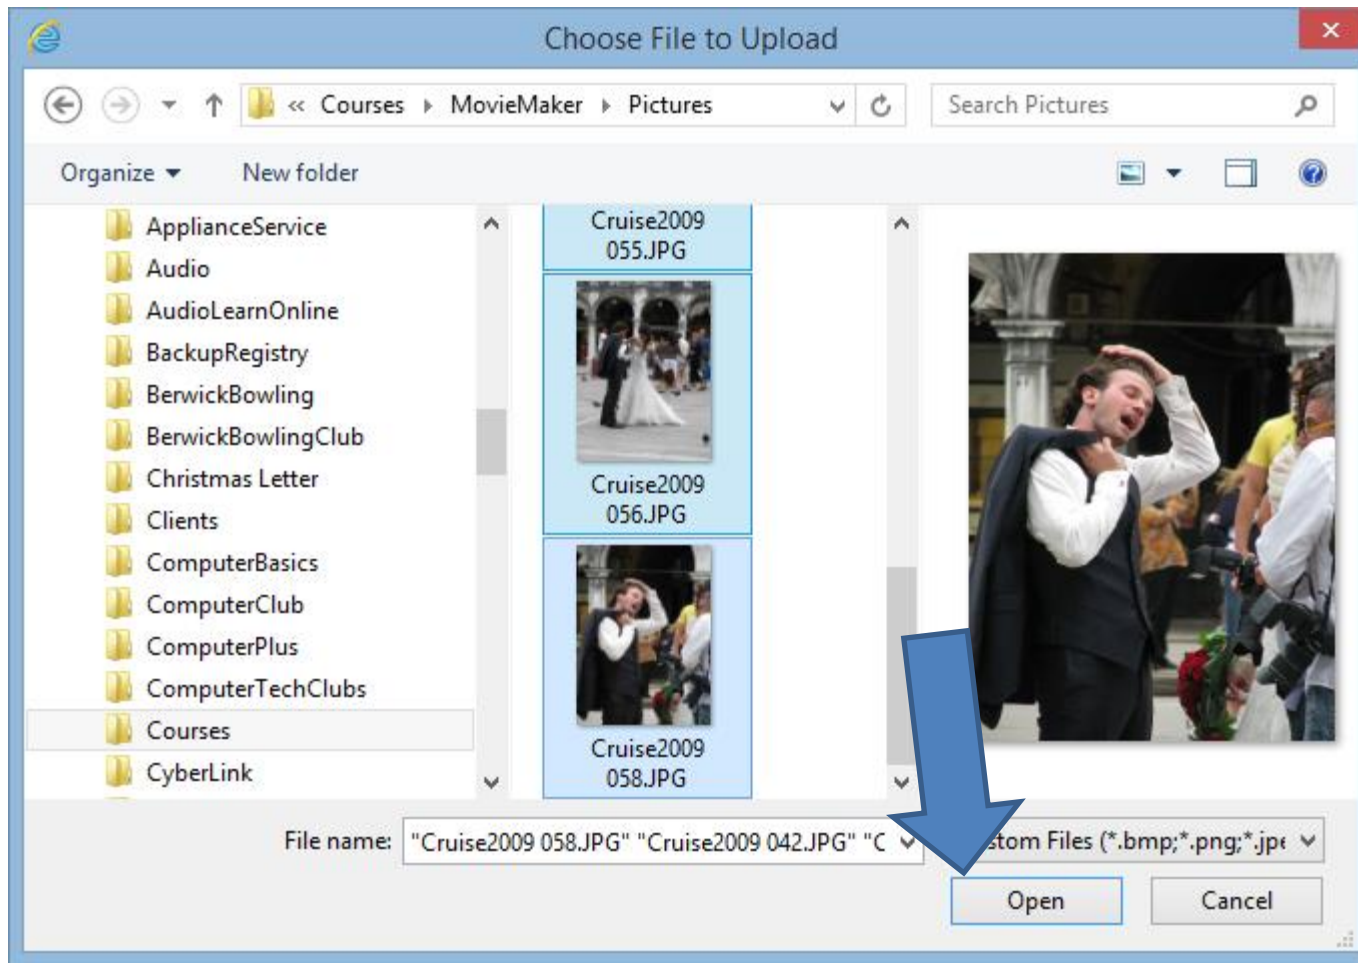

- **You then see Uploading and it will take a few minutes.**

- **Next is what happens when it is complete.**
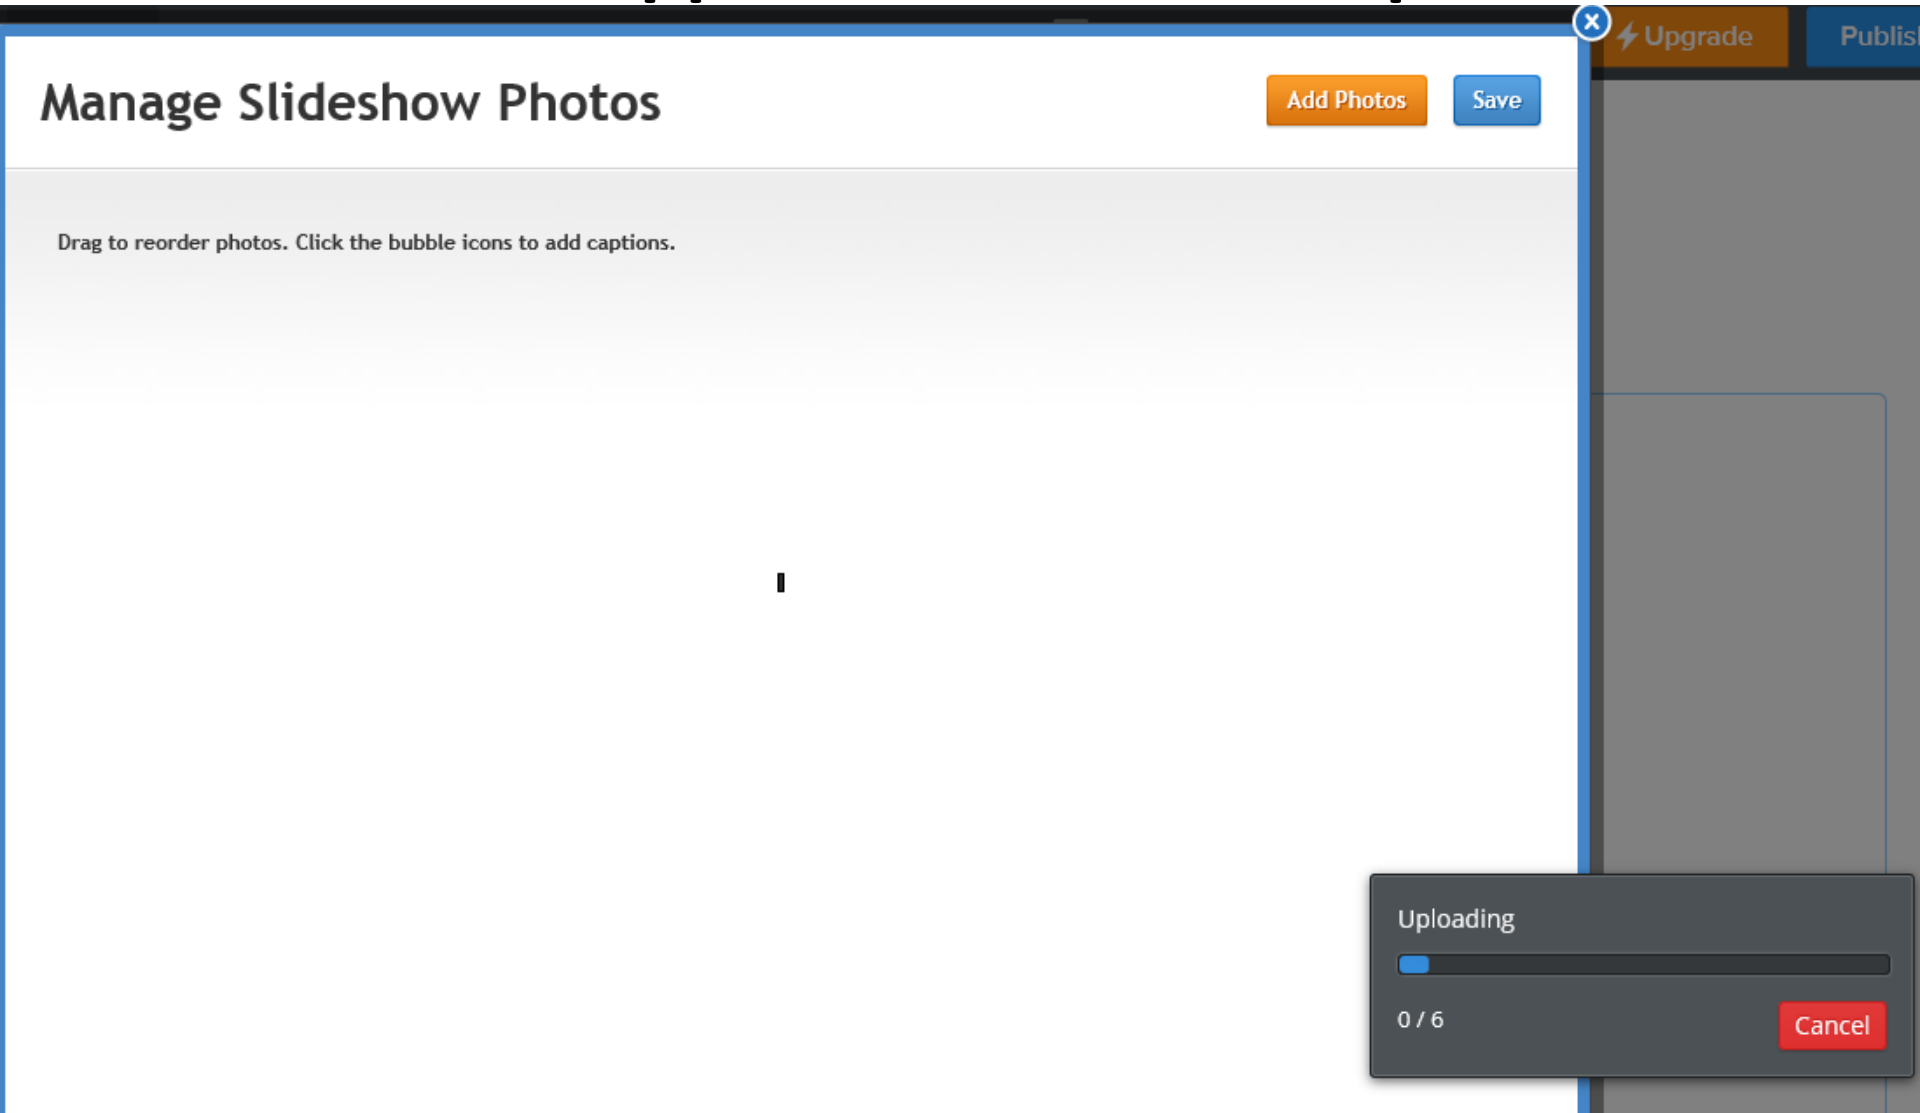

- **You see them uploaded you can add link(s), caption, or remove. I will explain next.**
- **After that is the other options.**

- You may not want to add a link, unless they are books and you put text about saying click on the picture to go to Amazon.
- Caption is small, like I mentioned before. But, you can change the size. Step 11 – Part 2a shows you how to change the size and Font.
- Remove - deletes it. The reason to do that is if you added the wrong one.
- Next is the other options.

- **Caption is small, like I mentioned before. But, if you want to explain each picture, you can do it. Click on it and you see Enter a caption. Next is a sample.**

- **I typed in Venice Wedding. Then click on Save. After the other options, you will see a sample.**
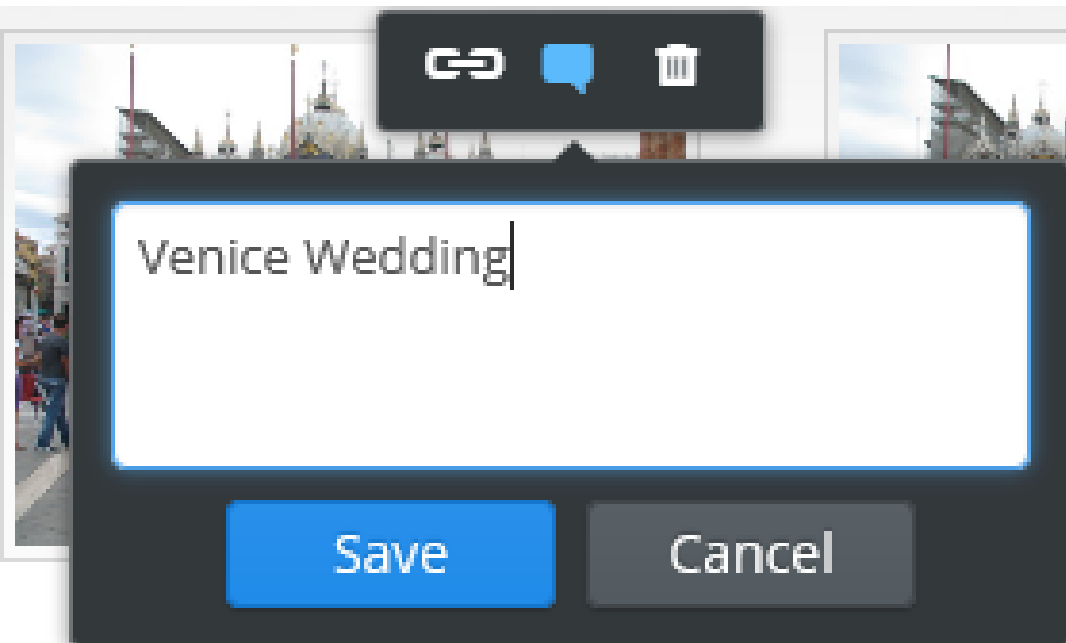

- **You can Add more Photos.**
- **Or you can click on Save. So just click on Save.**

- **Once you click on Save, you see it and it starts to play each picture about 5 seconds.**
- **Next what happens when you hover over them.**

- **When you hover over, you see Pause and play forward or back, which is the same when you Publish. Next is a Caption sample.**

- **When you scroll down, you see the Venice Wedding Caption sample.**

- **This is the End of Step 11 – PPart 2. Next Step shows edit options.**
