# Step 11 – Part 3a – Gallery Options.

- **Click on one of the Gallery Photos and then see the Edit Options, which I will do after the other option. When it is open, click on it again and next is the change.**

- **You then see Link, Caption, Delete. It is a different layout, but it is the same process as Slideshow.**
- **Next is a sample again of clicking on Caption and type in Text, like Wedding.**
- **When you click on Caption, a new window opens and type in Text, like Wedding. Once complete, click on Done and the window closes and you don't see the Caption. I will show you later how to see it.**

- **Next is back to Edit Options. You click above on Navigation and then click on a picture. Next is the Edit Options.**

- **Spacing is the similar as I showed you in Slideshow.**

- **Next is what happens when you click on Spacing.**
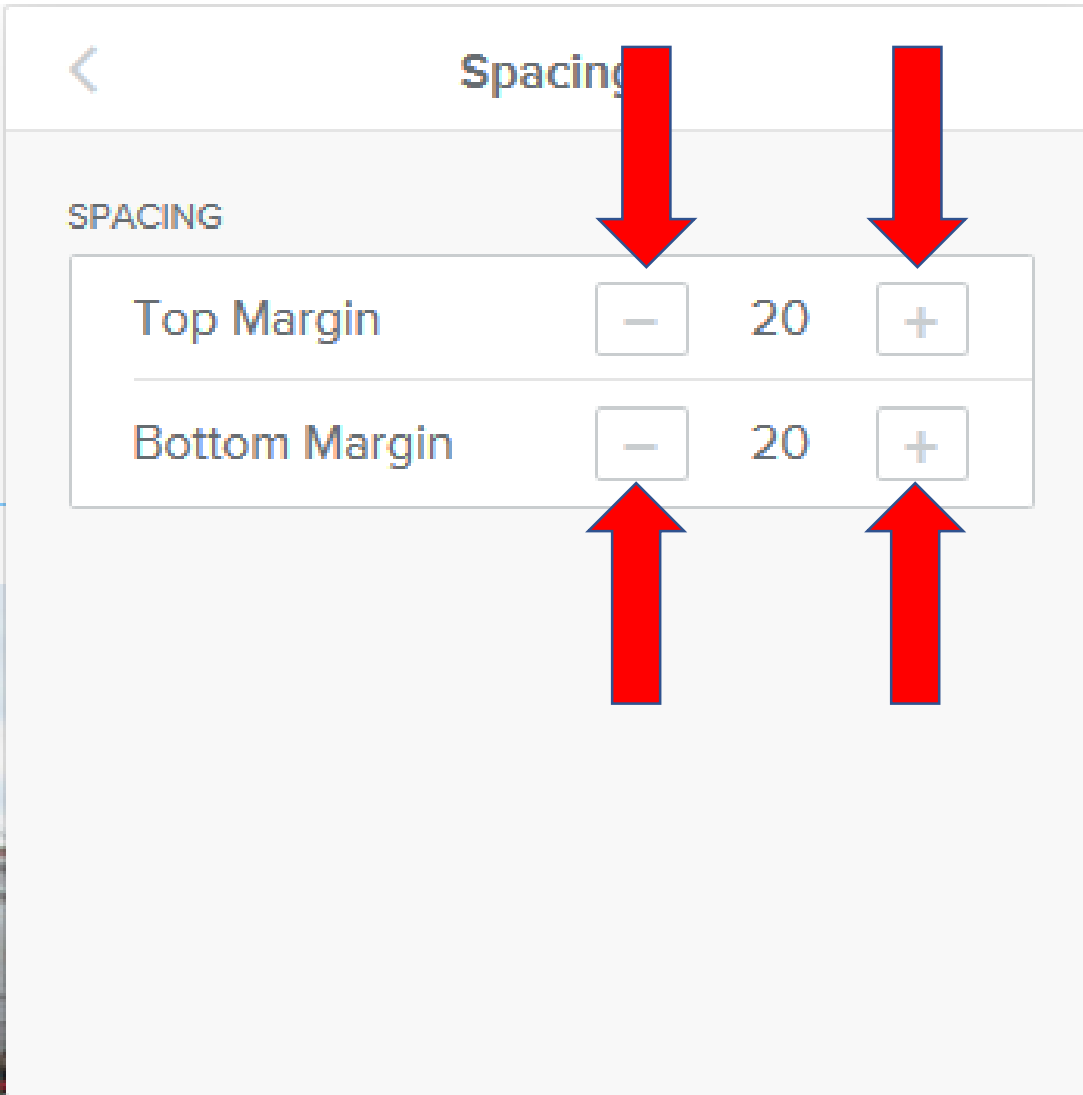

- **Page changes and you see Top Margin and Bottom Margin.**

- **You can click on – either one to reduce the Spacing.**

- **You can click on + either one to increase the Spacing.**

- **I like doing it to O on each one.**

- **Next is a sample.**

- **Here is a sample. It looks better. Click on < to go back to the other options.**
- **Next is what happens and it explains Caption.**

- **When you add a Caption as I showed how to do it before, you can make changes.**

- **As I mentioned before, when you add a Caption, you don't see in on the Build page, but you can see it when it is published.**

- **Next is a sample when you publish.**

- **Here is a sample when you publish and go to the page with Gallery and click on a Picture, it shows much larger and you see the Wedding caption at the bottom. Next is how to make changes, which it better. Note – when you hover this picture is shows < on the left and > on the right. When you click on them, it shows the other pictures.**

- **Page changes to Caption.**

- **You see two options.**

- **I recommend you first on the Icon on the right of Display Caption On Hover and it turns it On.**

- **Next is what happens.**
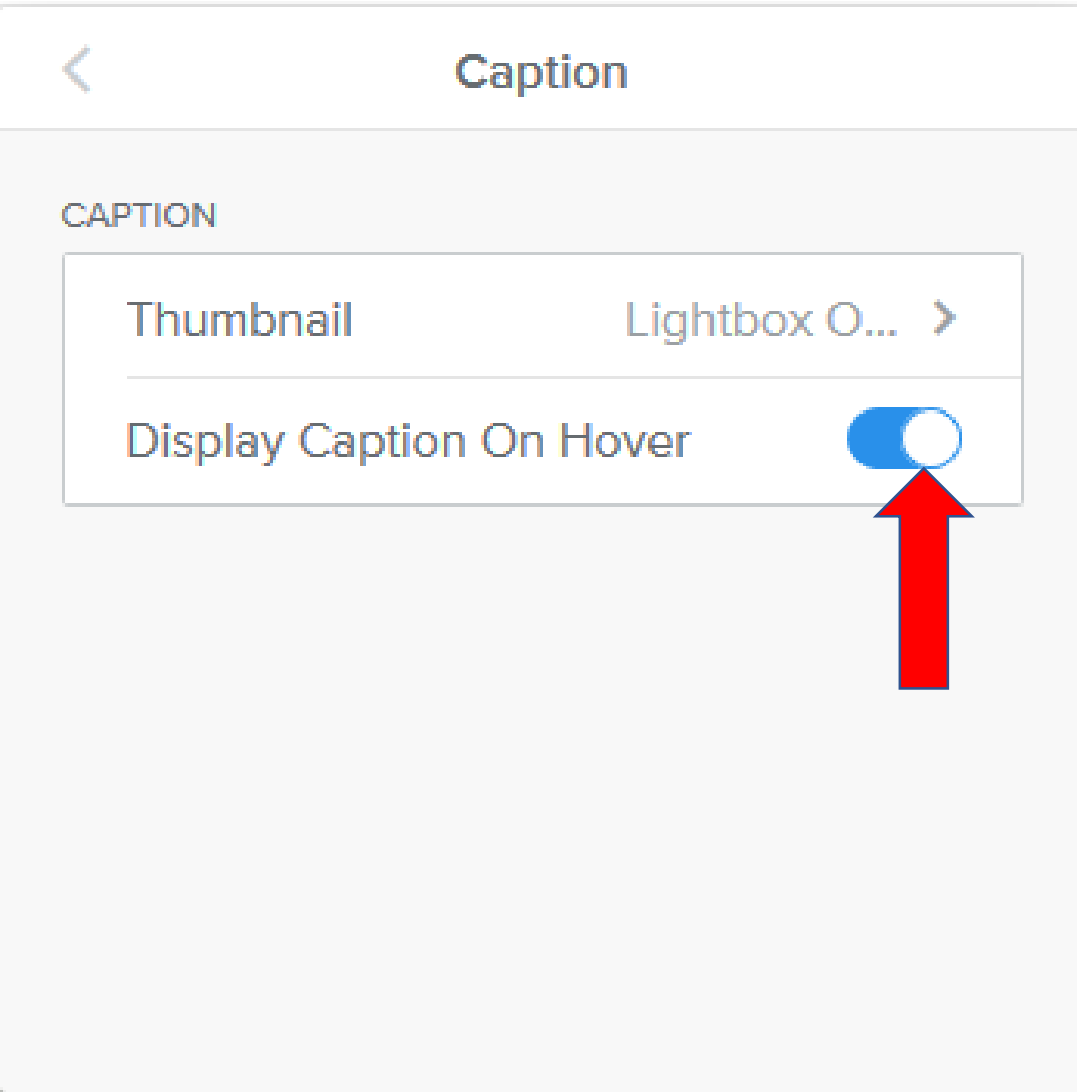

- **You see it On.**

- **Latter I will show what happens when you hover over when you Publish.**

- **Click on Thumbnail and next is what happens.**

- **Page changes to Thumbnail.**

- **Lightbox Only is default. When you Publish and hover over it does not show the caption. That's why you have to click on one of the other options.**

- **I recommend clicking on the second one, but I will also show you the third one.**

- **Next is what happens when you click on the second one.**
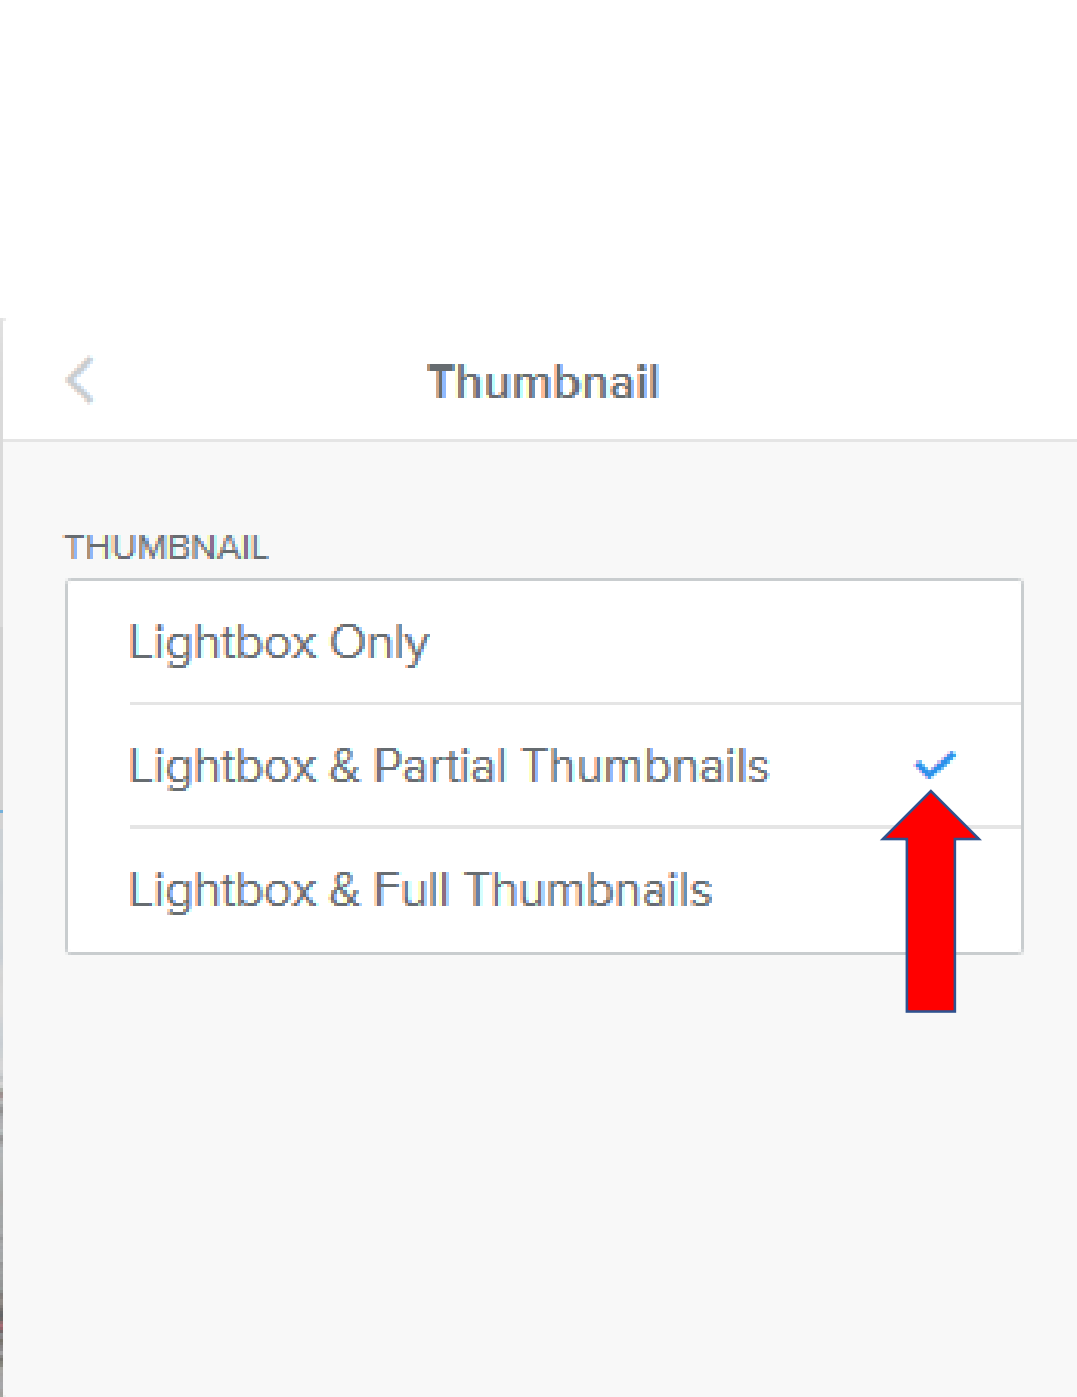

- **When you click on the second one, it shows it checked.**

- **Next is what happens when you Publish and Hover Over a Picture with Caption.**

- **Note – sometimes it also works when you do that in the Build page.**

- **When you Publish and go the page with the Gallery and Hover Over a Picture with Caption, you see Wedding, which is good. Next is what happens when you click on the Third Option.**
