

# **Step 3 – Layout – Part 2 – Change Site Title to Header.**

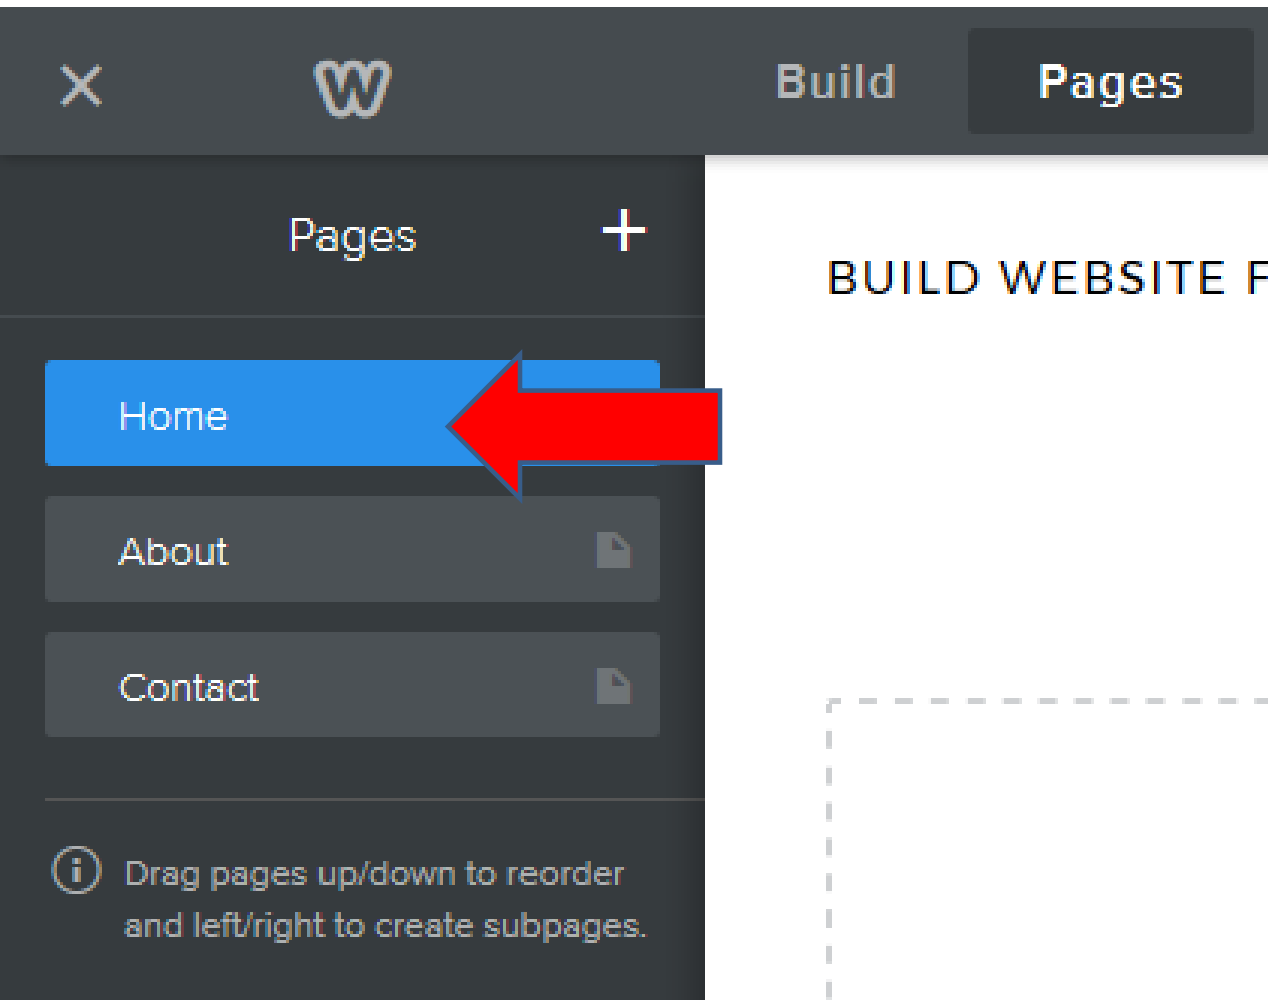

- **Why Change Site Title?**
- **As I mentioned before, if you want Headers, you can add the Site Title on Header(s) and not show the Site Title on the Navigation bar.**
- **Next explains other options.**
- **After that, I will show you how to add Header in the Home Page.**

- **When you add Site Title and move the Header to other pages, the Site Title does not show and you have to type it again.**
- **The other option is copy the page and it shows the Site Title. Step 4 shows you how to copy page.**
- **The last option is create your own Header with the Site Title and copy it to another page. It shows the Site Title on the other page. The Tip – Add your own Header shows you how to do that.**
- **Next is to add Header to the Home page.**
- **If you already have the Header in the Home page, go to the 7<sup>th</sup> page in this PDF file.**

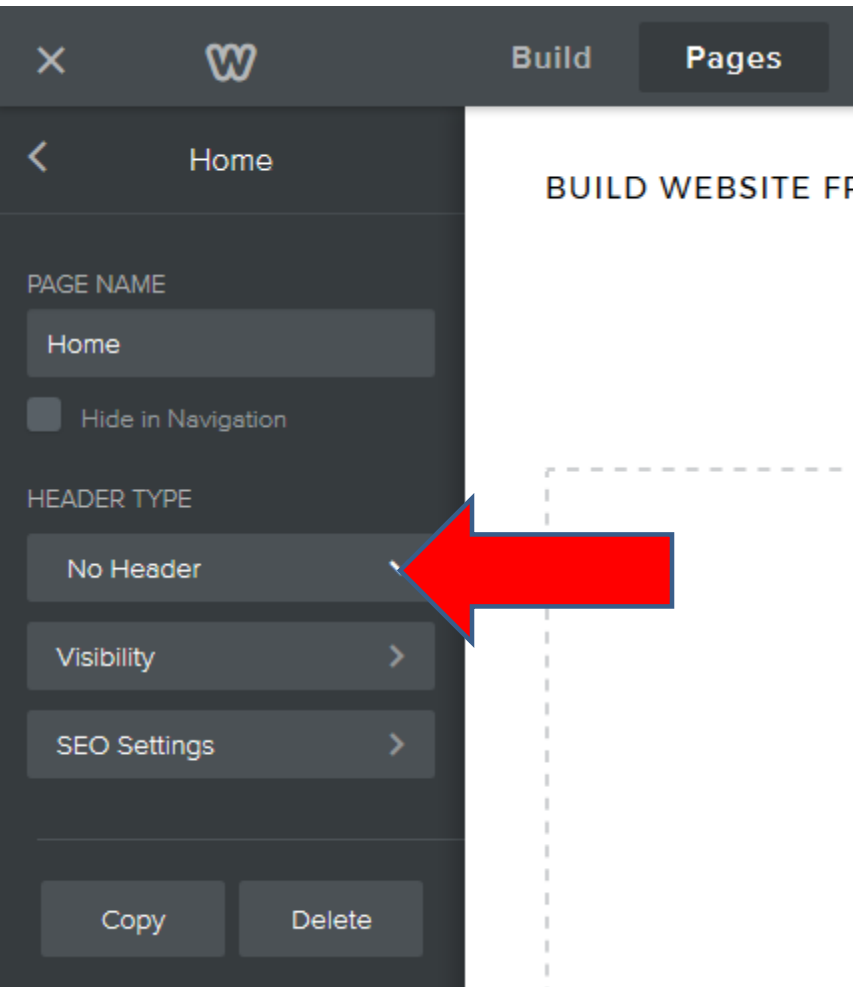

- **First click on Pages.**
- **Next is what happens.**

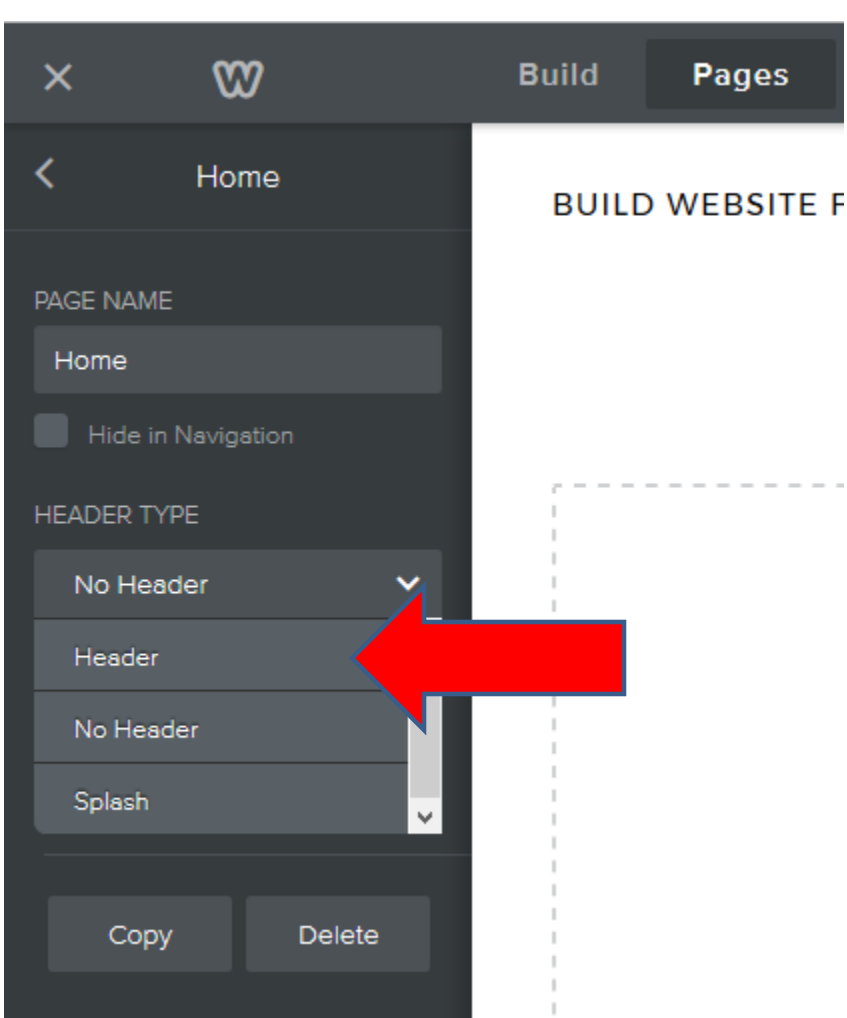

- When you click on Pages, you see Home highlighted and then click on it.
- Next is what happens.

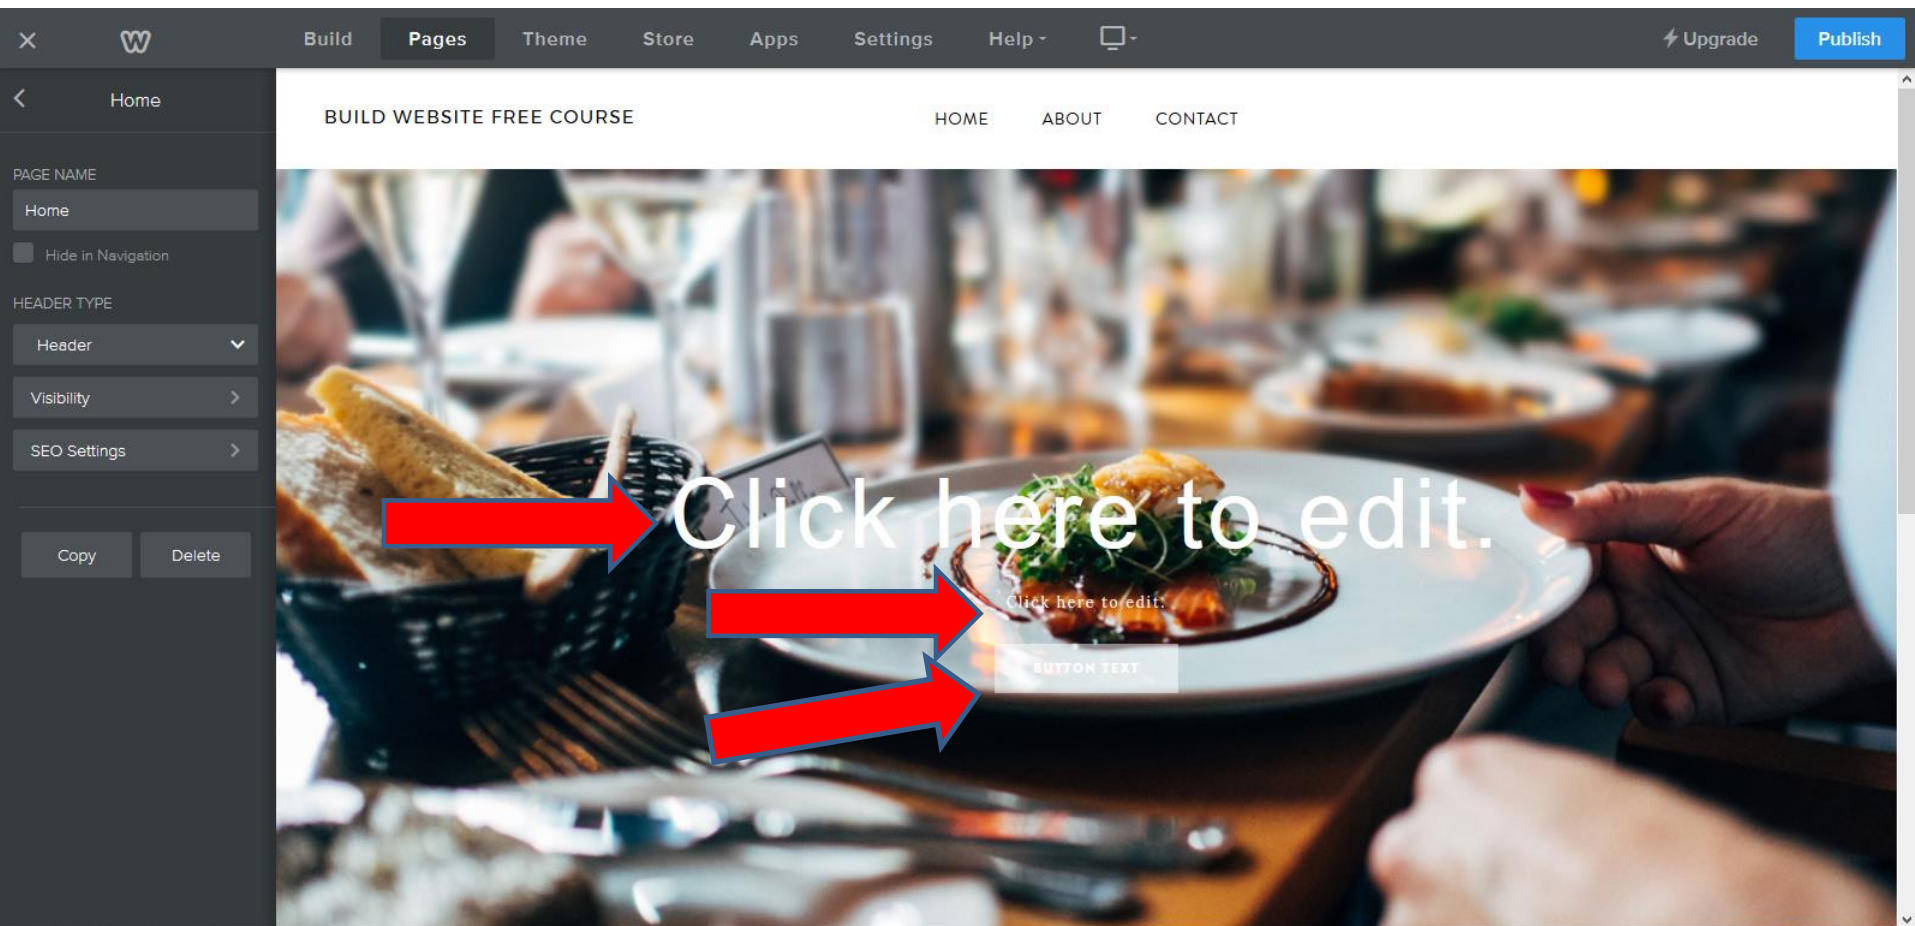

- You then see No Header and other options that I will show you in the next Step.
- Next is what happens when you click on it.

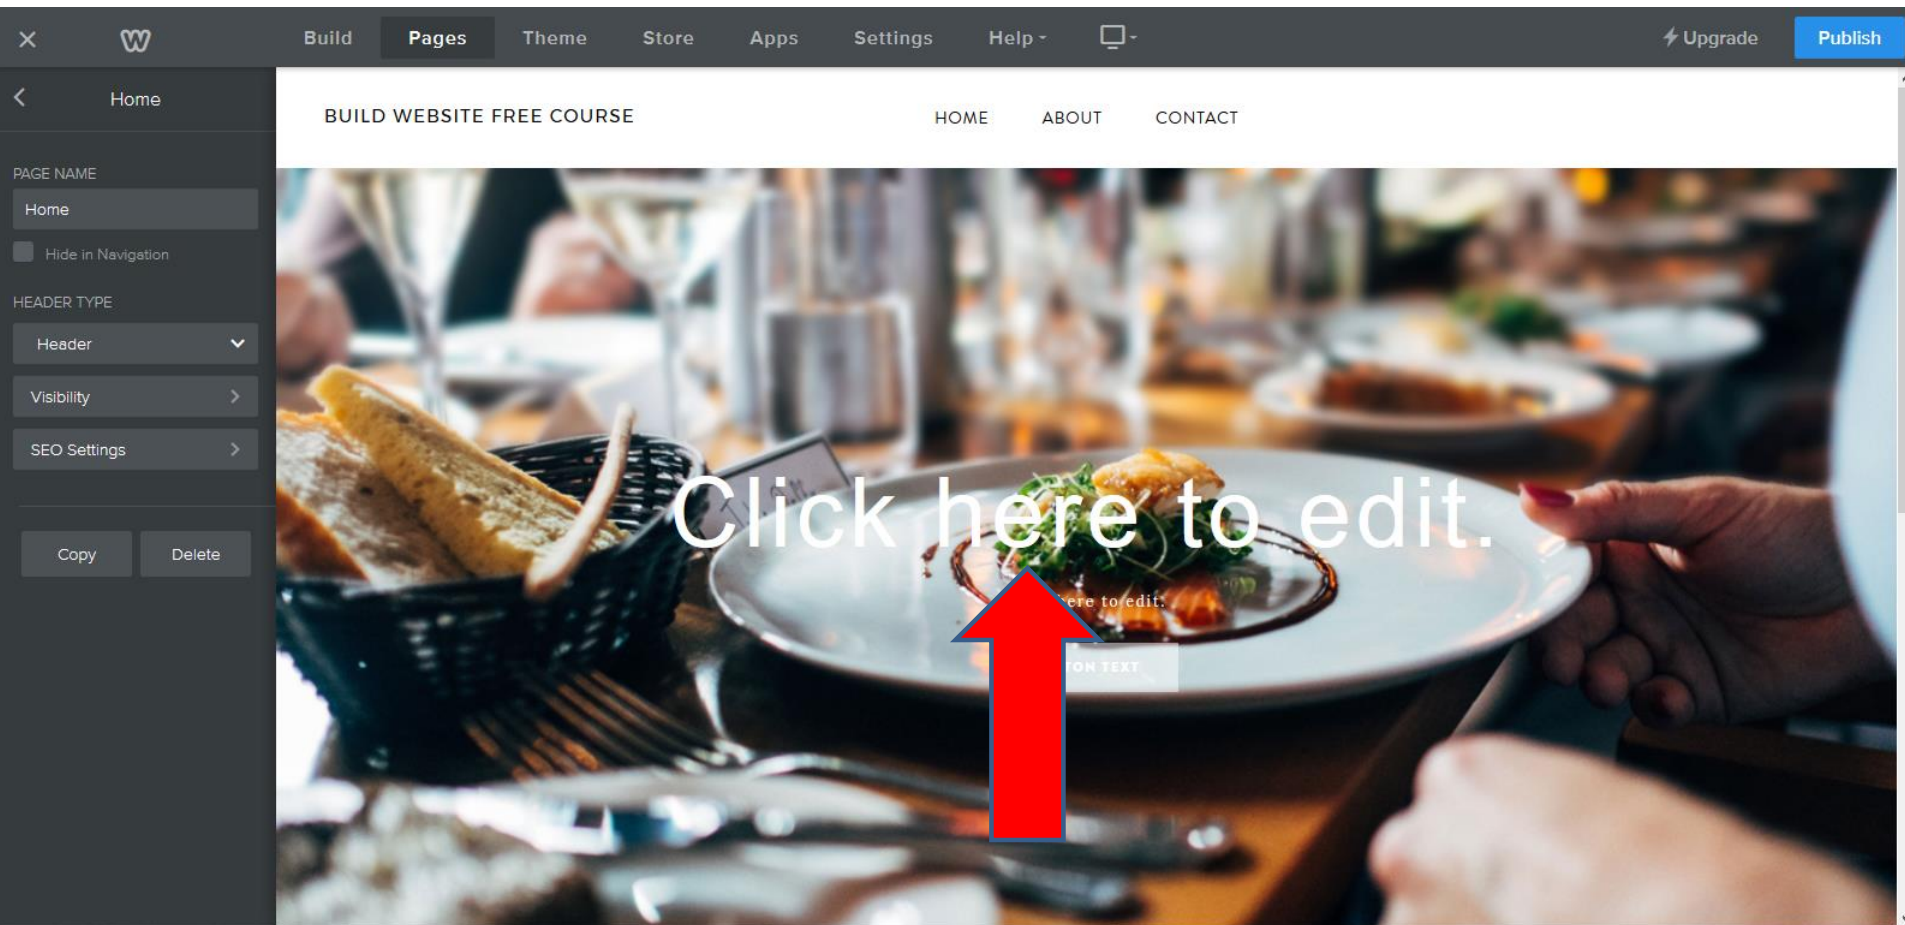

- You then see a list and click on Header.
- Next is what happens when you click on it, like I showed you before.

**You then see the Header and it has 3 Text that you add Text or delete some of them. Step 3 – Part 3 shows how to delete them. You also change the Default Font. Step 6 shows that. Next is to Add Title.**

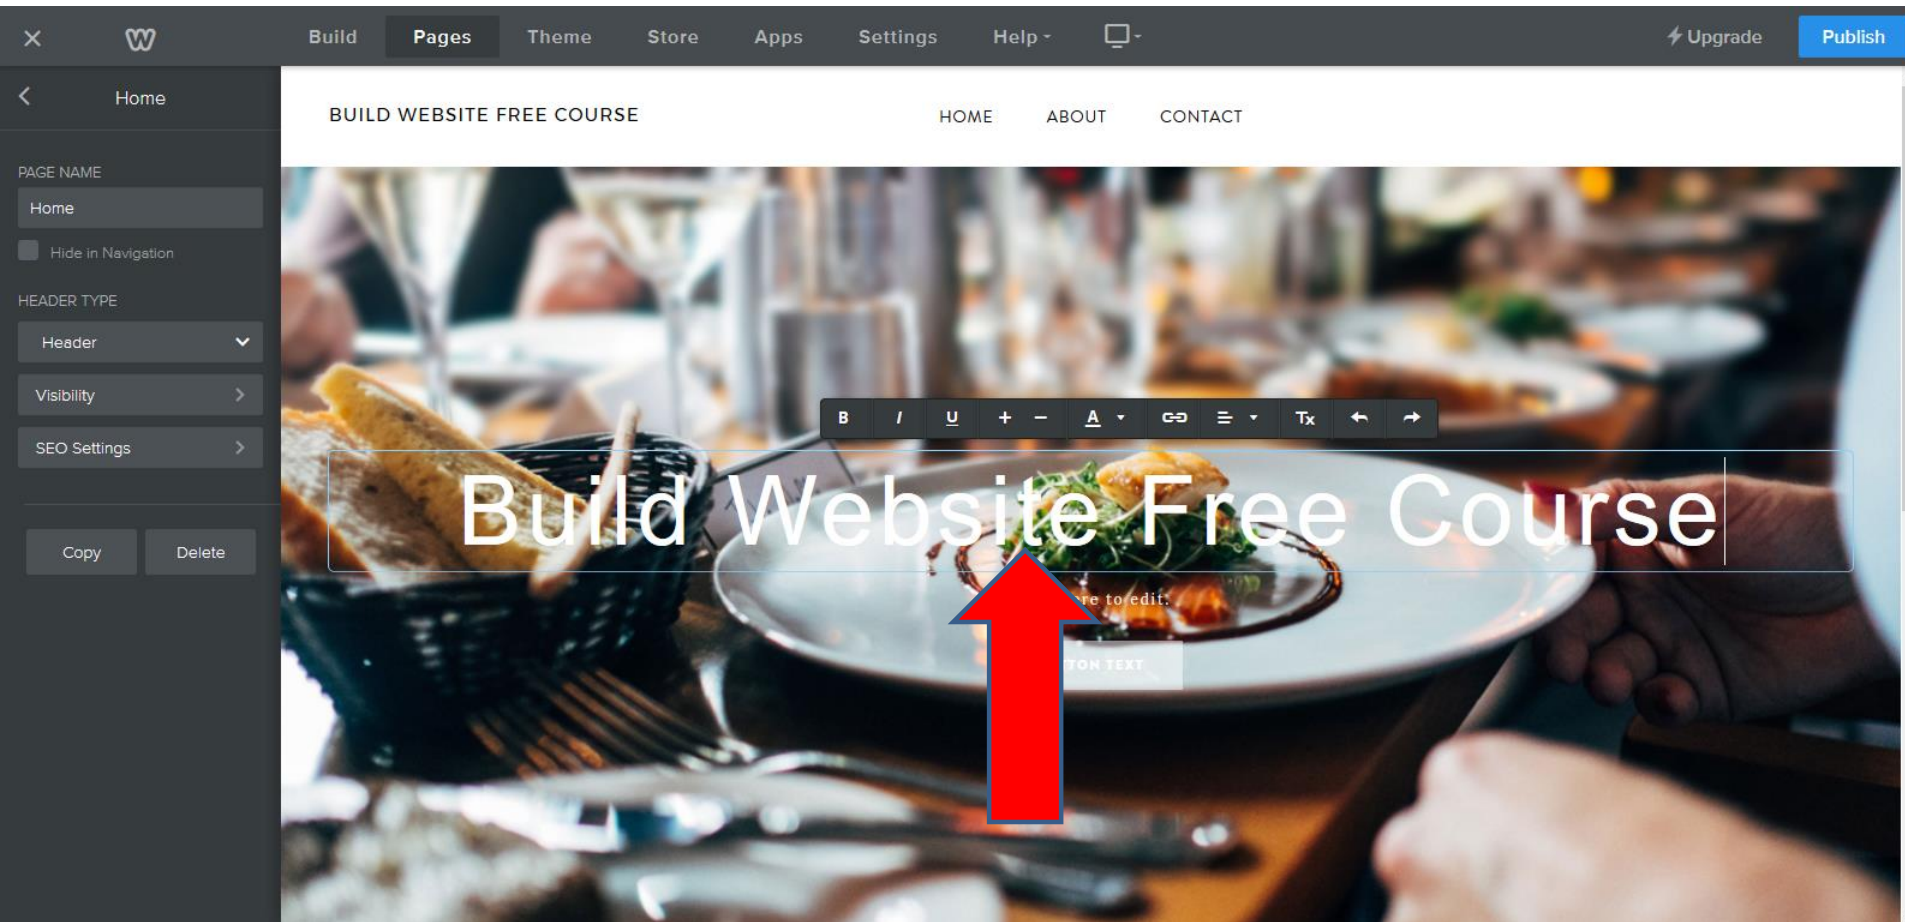

- You click on Click here to edit and type in the Site Title.
- Next is what happens when you click on it and type in the Site Title.

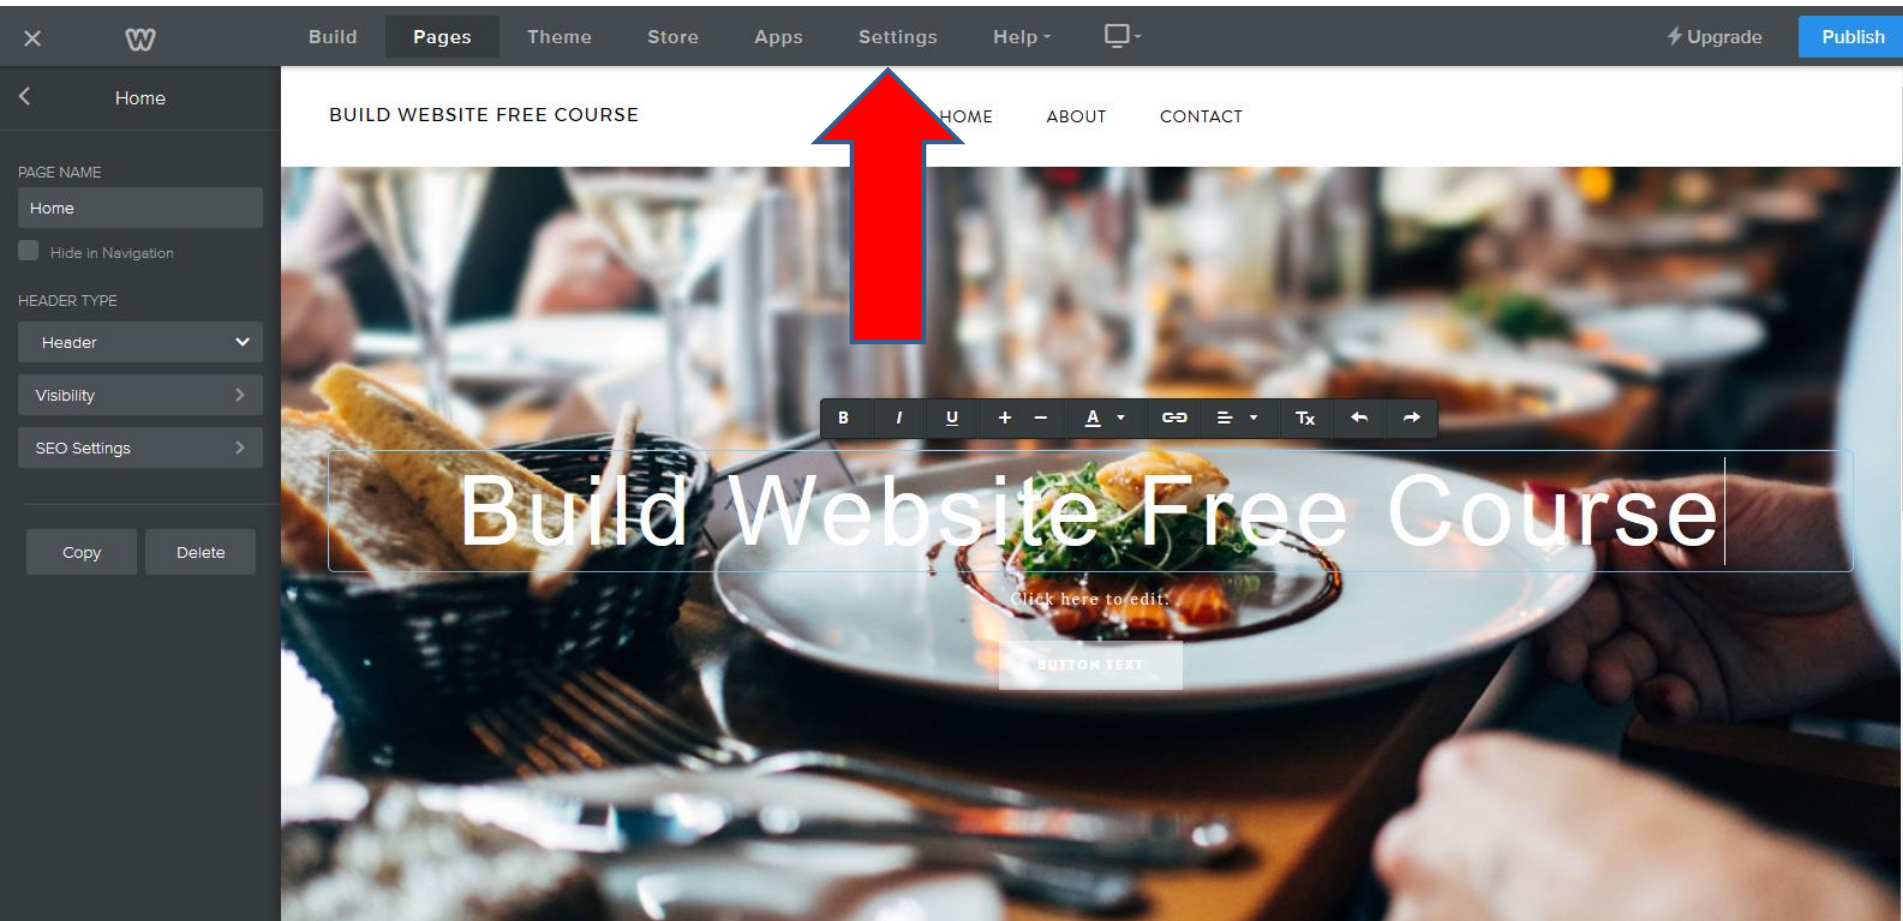

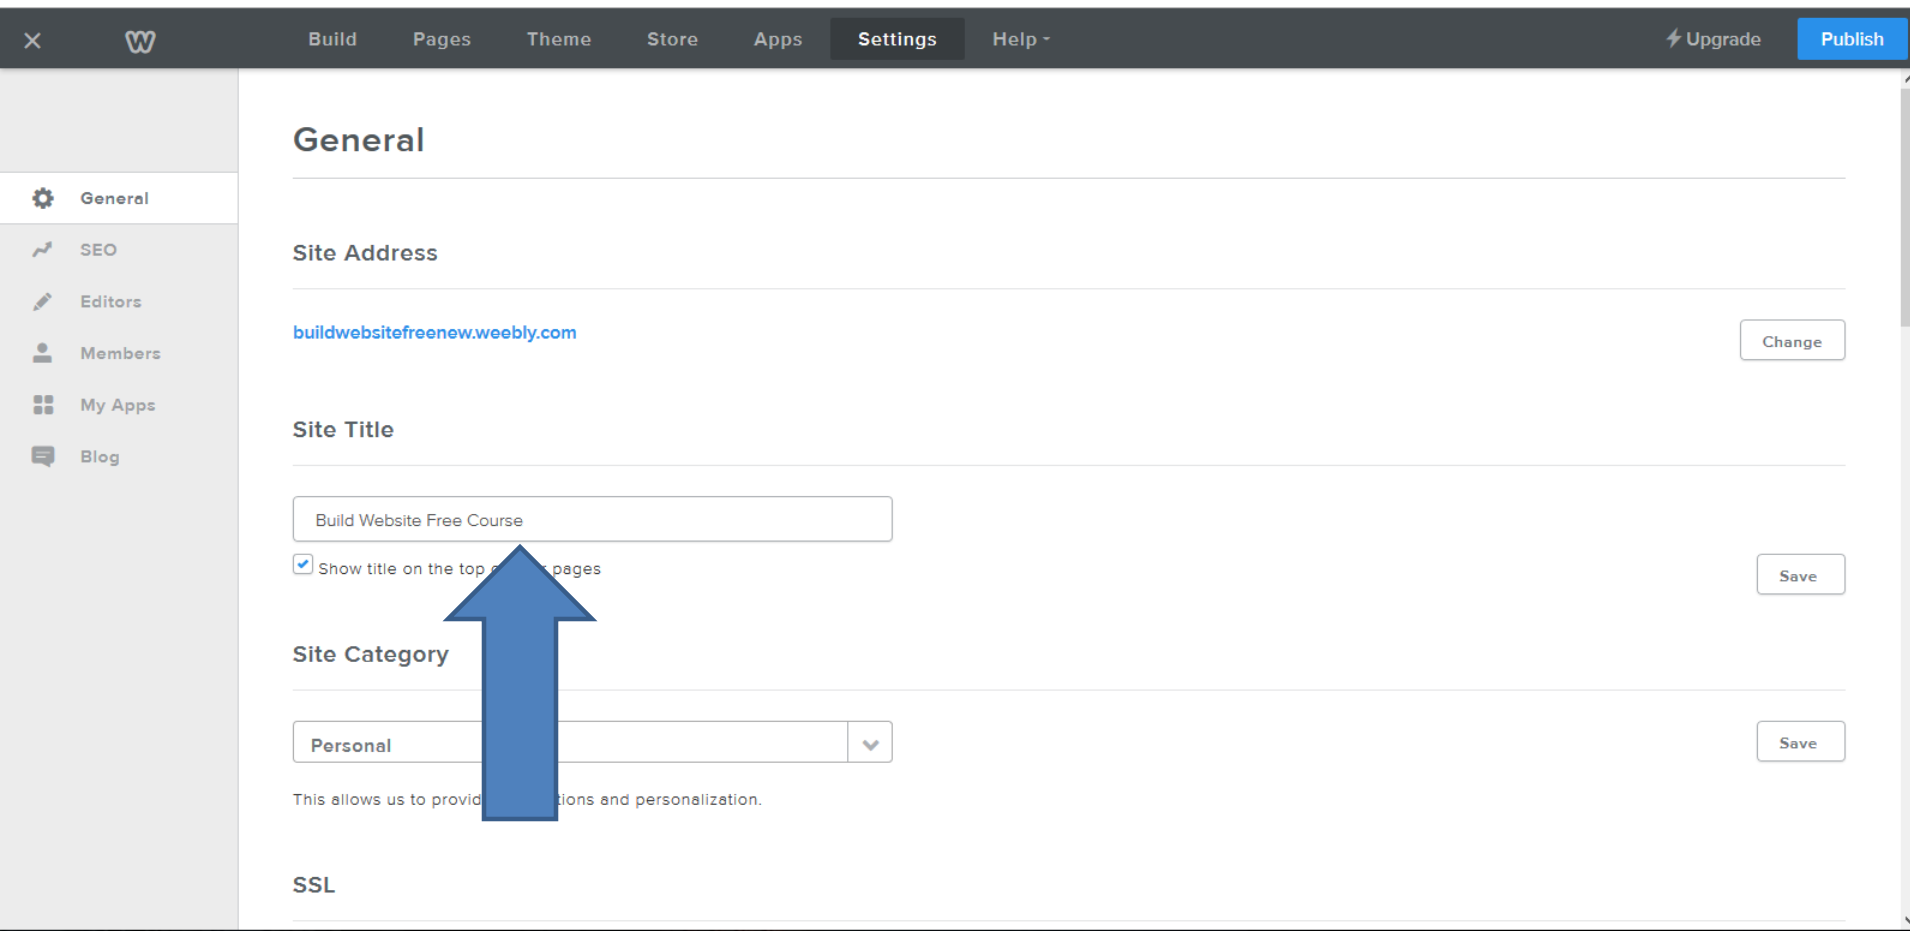

- You then see the Site Tile and edit options, which I will show you in Step 7.
- Next is how to not show the Site Title on the navigation bar.

- You first click on Settings.
- Next is what happens when you click on it.

- Page Changes and you see Site Title.
- You can change Site Title or not show it on your pages, which is next.

The screenshot shows the Weebly website builder interface. The top navigation bar includes 'Build', 'Pages', 'Theme', 'Store', 'Apps', 'Settings' (highlighted), and 'Help'. On the right of the top bar are 'Upgrade' and 'Publish' buttons. The left sidebar contains a menu with 'General' (selected), 'SEO', 'Editors', 'Members', 'My Apps', and 'Blog'. The main content area is titled 'General' and contains the following settings:

- Site Address:** A text field showing 'buildwebsitefreenew.weebly.com' with a 'Change' button to its right.
- Site Title:** A text field containing 'Build Website Free Course'. Below it is a checkbox labeled 'Show title on the top of the pages' which is checked. A large blue arrow points to this checkbox. A 'Save' button is to the right.
- Site Category:** A dropdown menu currently set to 'Personal' with a 'Save' button to its right. Below the dropdown is a small text note: 'This allows us to provide recommendations and personalization.'
- SSL:** The section header for the next setting, which is partially visible at the bottom.

# To not show it on your pages.

Site Title

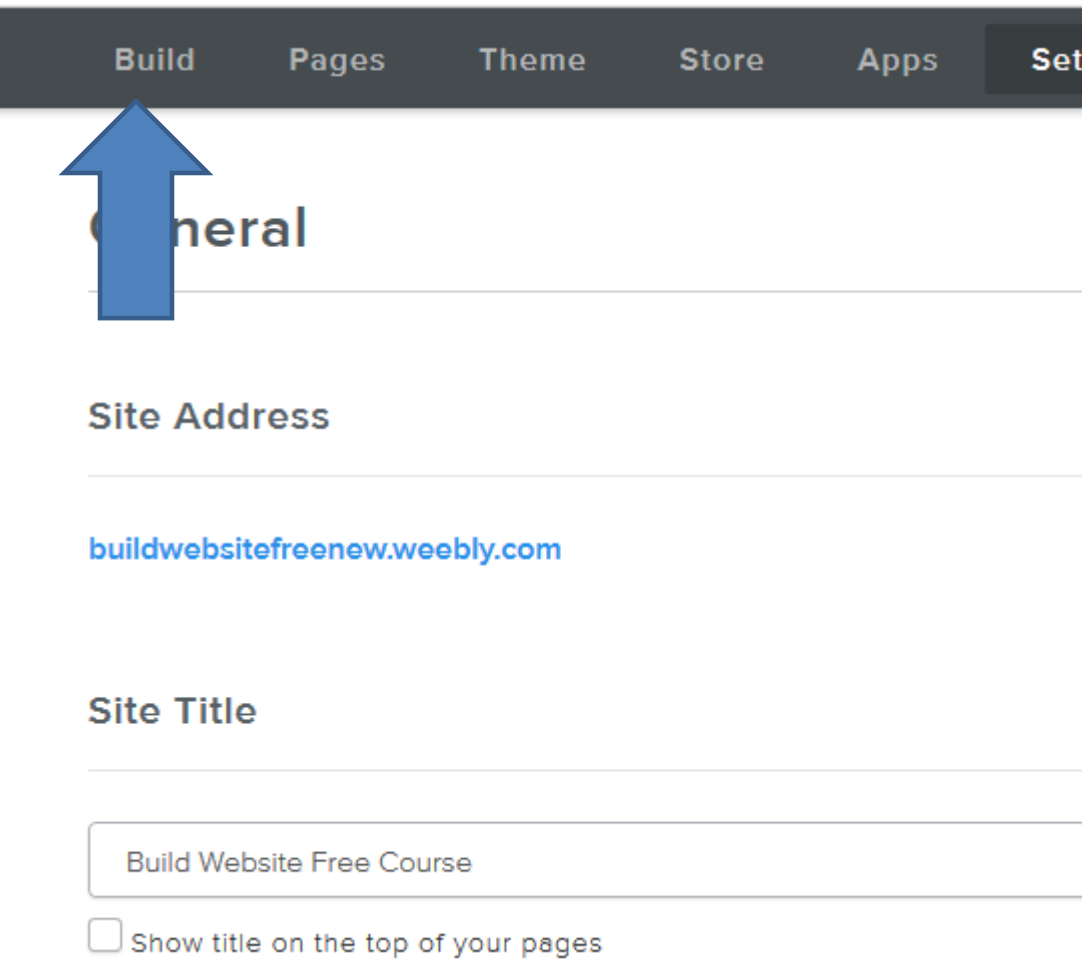

Build Website Free Course

☒ Show title on the top of your pages

- **Uncheck the box so it does not show on your pages.**
- **After you click to uncheck the box, you click on Build which is next.**

- **When you click on Build, next is what happens.**

The image shows a screenshot of the Weebly website builder interface. At the top, there is a dark grey navigation bar with several tabs: 'Build', 'Pages', 'Theme', 'Store', 'Apps', and 'Settings'. A large blue arrow points upwards towards the 'Build' tab. Below the navigation bar, the 'General' settings section is visible. It includes a 'Site Address' field with the URL 'buildwebsitefreenew.weebly.com' and a 'Site Title' field containing the text 'Build Website Free Course'. At the bottom of the visible section, there is a checkbox labeled 'Show title on the top of your pages' which is currently unchecked.
