LINK

- To change the color from Black to another color, you have to customize, which is in a Tip in the Part 2 – on-line training.

- You can add a lot of Text to show the background color on all the Text.

- You can change the Text and size that we will do in the Step 6.

- Next is explain the Pro Version Elements?

Note – Some Elements are Pro Version
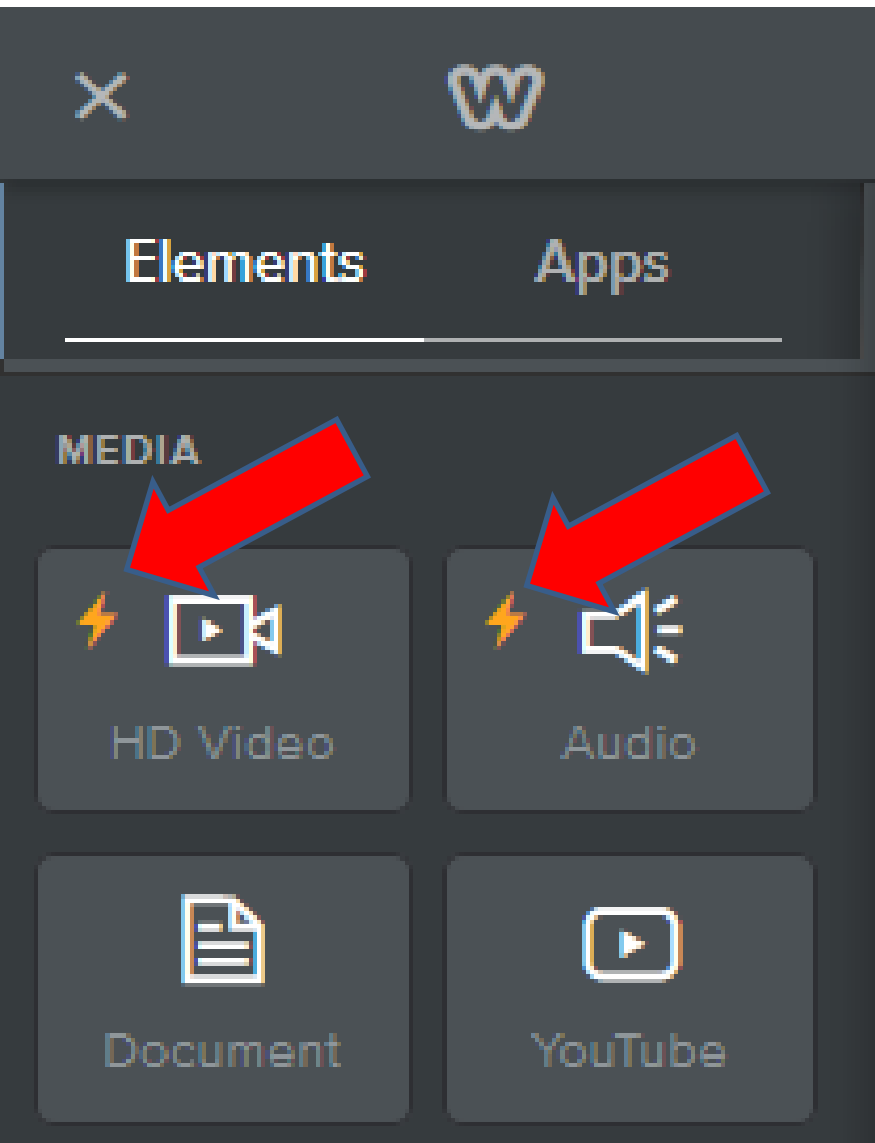

- **Pro Version Elements have a Star Icon, like HD Video and Audio.**
- **This is the end of Step 5 Part 4.**
